## See Here.

Housekeepers old and young folks, newly married people; and, in fact, everybody would do well to call on Messrs. Johnson and Barber 110 and 112 East Martin street and see the splendid line of furniture they have on exhibition. Here can be seen everything to make the chamber and parlor look pretty at such prices as are rarely quoted in our city. The list is too large and varied to be printed, so in order to be convinced you should call and see for yourself. These gentlemen are fully abreast with the times in all particulars. Don't forget to pay them a visit. You will be cordially received and witness a sight worth seeing.

## Our Merchants.

Notwithstanding the outlook at the commencement of the fall seemed to be somewhat unfavorable, we are glad to learn from interviews with some of our business men that, trade thus far, has been fully up to expectation. In fact, it can be said, that there is a considerable increase, over the trade of last year. This has been specially true for the past few weeks since the cotton crop commenced to come in, and the slight advance which for awhile ruled. We must think on the whole, that the prospects for our section are gradually improving, and that we are getting rid of what may be termed the hard times. We may expect, however, during the next week or so something like a stagnation in trade all over the country, in view of the approaching election, which always has a similar effect, although there would seem to be no real cause for it. After the excitement shall have died out then there will naturally be a revival in the channels of trade. In our city, it is a matter of congratulation to note that there has been nothing like any serious mercantile mishap for some time, and our merchants generally, while they may not be accumulating any vast amount of riches, are doing what may be termed a safe business.

In this connection we would again call attention to the fact that a judicious system of advertising rarely fails to produce good returns, and we would suggest that the medium of the VISITOR is acknowledged to be a first rate channel to reach the public.
