RALEIGH, FEB. 20, 1893.

Senators Vance and Ransom are both opposed to the Hawaiian annexation job.

It may seem somewhat paradoxical that it takes the heat of one ton of coal to make cold enough to produce five tons of artificial ice.

Both Houses of the Wyoming Legislature adjourned Saturday. The Governor will appoint the U. S. Senator.

The largest diamond in the world is said to be an uncut one among the Crown jewels of Portugal, valued at \$38,000,000.

Mr. Kenedy, of Blount county, Tenn., thinks Tennessee is good enough for him. He is now living in the house in which he was born 92 years ago, and has no idea of going West to grow up with the country.

A Topeka dispatch says: In the District court this morning Judge Hazen rendered a decision in favor of the Republican House on motion for an injunction to restrain the State Treasurer from paying Legislature salary warrants.

The Raleigh correspondent of the Wilmington Messenger says: Four weeks ago a man was brought to the insane asylum here from Johnston county. He lost both feet during the late cold snap, having attempted to make his way from his father's house to his home during the late heavy snow and bitter weather. His mind was weak, and he lost his way, remaining out two days and nights. He became entirely insane. Last Saturday his wife, who lost her mind entirely last week, was also brought to the asylum.

There is a mourners' corner in one of the cloak rooms of the National House of Representatives, and another in the Senate cloak room, where the disappointed and disgruntled congregate to express their dissatisfaction with the existing order of things. There, it is averred, statesmen gather to sit with the corpses of their dead hopes and ambitions, and each place is known locally as a chamber of sighs. A joke or a good story is never heard there.

NO OTHER Sarsaparilla combines economy and strength like **HOOD'S**. It is the only one of which can truly be said "100 Doses \$1."

MORMON PREACHERS.

News has been received from a remote part of Lewis county, Tenn., that two Mormon preachers who have been in that section for some time past preaching Mormonism, after being repeatedly warned to leave the country, while preaching to a small crowd were assassinated by a masked band of men who rode up to a side window of the house in which the Mormons were holding a meeting, and fired through the window, killing both instantly. No one else was injured.

When she became Miss, she clung to Castoria.

TILLMAN DOWNED BY THE RAILROAD.

Charlotte News.

The Richmond & Danville Railroad Company gained a complete victory over Tillman, in the South Carolina Railroad tax cases. The cases were tried before Judges Goff and Simon, in the Federal Court at Charleston, and the decision was against Tillman. He declares that he will resist the carrying out of the mandate of the United States Court. The court ordered the marshal to place the property in a receiver's hands, and the county sheriffs have been fined \$50 each for contempt.

The decision came like a clap of thunder from a clear sky on the state administration circles and everybody is now anxiously awaiting Gov. Tillman's next step. Deputy United States Marshals left here this afternoon on a special train to take possession of the property that had been levied upon, and it is said that they bear orders from the sheriffs, who are now in custody for contempt to their deputies to surrender the property. By tomorrow morning there will be a general unloading of the locomotives and trains that have been chained to the tracks of the South Carolina, Richmond & Danville Railroad.

The four sheriffs committed for contempt are consulting with the state attorneys. The impression prevails that they will purge themselves from contempt in open court if the Governor does not prevent them from so doing.

The plan of the Governor is to have the sheriffs submit to imprisonment, so that he can apply to the United States Supreme Court for a writ of habeas corpus, but it is doubtful if those officials will consent to go to jail in order to make it a test case.

The situation is exceedingly interesting. The adherents of the Governor have no hesitancy in saying that he will defy the court by force if necessary, in which event there may be a direct conflict between the state government and the Federal Courts.

IT FOLDED UP WITH THEM

Charlotte News: Ever since its invention, the folding bed has been a fruitful theme of humor for the news paper paragrappers. The News has always scouted the idea that one of these things could shut up with its occupants, but that such an occurrence is possible, was demonstrated in Charlotte last Wednesday night, at the home of Josiah Asbury.

Recently Mr. Asbury got one of the newest makes of the folder, and up to the night in question he was as proud of it as a child would be of a new toy. He never has a bad science, but he could have slept well in it even with that. Mrs. Asbury had been quite sick for several days past, but was better Wednesday, and sat up awhile that evening. Shortly after she and Mr. Asbury had retired, something broke loose about the fastenings of the folder, and they felt it lifting up slowly from the foot. After it got a start, and before they could realize what was really happening, it went as far shut as it could go, and they were fastened in a most uncomfortable condition, perfectly helpless to extricate themselves. Their cries were heard by their sons, who were in a room above, and hastening down, they pulled the concern out straight and released their parents. Mr. Asbury was squeezed so tight that he had three ribs fractured, and has been confined to his home. Mrs. Asbury was not injured.

SUICIDE OF A MILLIONAIRE'S WIFE.

While suffering from temporary insanity Mrs. Henry Gregg, a prominent member of society and a resident of Woodlawn avenue, in a fashionable quarter of Buffalo, N. Y., committed suicide by cutting her throat with a pair of scissors. She was discovered lying on the floor of her bed room in a pool of her own blood at noon. She was not dead, but died a few minutes after the arrival of the family physician. The gashes in her neck were terrible and she must have stabbed herself at least a dozen times.

Died.
Mrs. James H. Southgate, a most estimable lady, died in Durham last Saturday at 1 o'clock. She was a lady of the most devoted, christian character and her loss will be deeply felt not only in her immediate section, but throughout the state.

Hood's Sarsaparilla Rescued Their Child from Scrofula.

For Scrofula, Salt Rheum, and all other foul humors in the blood of children or adults, Hood's Sarsaparilla is an unequalled remedy. Read this:

"We are so thankful to Hood's Sarsaparilla for what it did for our little girl that we make this statement for the benefit of other anxious parents and

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead to her eyes, and into her neck. We consulted one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

One Complete Sore

offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years

She Suffered Fearfully

with this terrible humor. Being urged to try Hood's Sarsaparilla we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the itching and burning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking

Is an illustration of what Hood's Sarsaparilla is doing for the sick and suffering every day, from Maine to California. In the light of these facts who can say that the work of an immense concern like ours is not beneficent?
