DEATH OF JUDGE BOND.

The wires bring the sad news of the death of Judge Hugh L Bond, which took place at his residence in Baltimore yesterday morning. The immediate cause of death was heart disease, which was brought about by an attack of grip a year or so since.

Judge Bond was well known in our city, where he figured considerably in the early seventies in the Ku-Klux trials. He is conceded to have been an eminent jurist, although a man of well known political bias. He was ap pointed by President Grant to the circuit bench in 1870.

THE GULF STORM.

The Wilmington Star says the Gulf storm, with which this section was threatened last week, has "gone glimmering" far to the eastward of the South Atlantic coast. Signals were taken down at the Wilmington station. There were heavy rains Sunday at Goldsooro, 2:20 inches; at Weldon, 2:80; over an inch at New-Berne and Greensboro, and over five inches at Charlotte since last Friday

A Noted Man in Trouble.

Charles F Peck, ex Comm'ssioner of the State Bureau of Labor Statistics, is under arrest in Albany. Detective Sweeney, who was sent to make the arrest, found Peck in bed Peck asked the detective to let him commit suicide. The detective replied that he would if he had enother witness present. At the station house Peck appeared to be very nervous and kept repeating his denial of the boys' story and declaring that it was the continuance of the prosecution which be gun with his arrest for destroying the papers relating to his last tariff and

wages report.

Peck returned from Europe this week and was arraigned on Wednes day under the old indictments for destroying public papers. He admits having been drinking heavily since his return to Albany and says that he was driven to it by the strong hand of the prosecution that is resting on him, and which has driven all his friends from him.

TO PIERCE THE MOUNTAINS.

Charleston News and Courier.

A well defined rumor has reached here that the management of the newly reorganized Ohio River and Charleston Railroad are already at work securing rights of way through the mountains of North Carolina with a view of building the connecting link between the sections of the late Cincinnatti, Ohicaso and Char. leston Road.

Mr Samuel Hunt, of Cincinnatti, who was in the city last summer, and who is now the general manager of both branches of the road as the rep resentative of the Finance Company, of Philadelphia, and said to be exercising bimself in the matter and to have expressed it as the purpose of the people whom he represents to complete the construction of the road at the earliest date possible. This statement is fully in accord with those which were recently made by Mr Charles E Hiller, of Boston while in Charleston. The building of such a connection as that proposed will be a connection as that proposed will be NEIGHBORS AT GRAY GABLES.

It has been publicly announced at Buzzard's Bay that the Tudor Haven tract of land on Monument River, the property of President Cleveland. is offered for sale. This does not include the villa of Gray Gables, which the President occupies in summer, nor the land immediately surrounding it, but the large tract of from sixty to seventy-five acres of bluff land facing the river looking north toward Buzzard's Bay village. It was said at the time the President purchased the Tuder estate and lands adjoining in all about 100 acres, three years ago, that it was with an eye to speculation. The land is placed in the hands of Horace W Cro well, of Boston, to dispose of, and the restrictions placed upon it are it shall be offered only to persons in every way desirable as neighbors to the Presidential household, and that, unless residences to cost \$2,500 or more are to be erected, there can be no sale

EFFECTS OF OPIUM.

Opium p oduces more varied and opposite effects upon the human system than any known drug. Even in small doses it will act on the save individual as a stimulant and as a sedative, as an astringent or a laxative, and, in large doses to those who are habituated to its use, it acts as a powerful stimula t, or even intoxicant, such intoxication being followed by muscular relaxation and mental torpor. The action of most drugs, or at least of very many, varies according to the dose which is administered, thus ipecacuanha will act as an emetic in large doses but if given in small quentity will arrest sickness. Ammonia will cause or arrest sickness, according to the quan. tity taken, while many drugs which in small doses will operate as febrifuges will in large doses induce fever -New York Sun.

CELERY FOR RHEUMATISM.

If celery were eaten freely sufferers i om rheumatism would be comparatively few. It is a mistaken idea that cold and damp produce the disease they simply develop it. Acid blood is the primary and sustaining cause. If celery is eaten largely, an alkaline blood is the result, and where this exists there can be neither rheuma. tism nor gout. It should be eaten cooked. - Detroit Free Press.

The Palme to State's Whiskey Tademr.: k is Good.

WASHINGTON, D C., Oct 24.-In the District of Columbia Circuit room th's morning Justice Eradley deliv ered h's opinion in the case of the State of Couta Carolina against the Commission of Patents to require the latter to register the l'quor of trade. me k of the Palmetto State. The judge decided in favor of the State and ordered a peremptory order requ'ring the Comm's ioner of P tents to register the trademark. The Commissioner can appeal from the decis ion and carry the matte to the Uni ted States Supreme Court.

The great scercity of servant girls in Buston has led to the importation of a considerable number of girls from the back districts of Maine to serve in the fashionable city houses. The want of familiarity on the part of these girls with city ways and language has led to some queer scenes. One afternoon a lady called at a fine residence in Boston street, where one of the girls was employed, and rang the bell. Samantha Wayback and swered the cal'. "Can Mrs Croesus be seen?" the visitor asked. "Ken she be seen ?" snickered Samantha. Well, I ruther guess she ken; she's six feet high and four feet wide! My sakes! You can't see much of anything besides when she's around !"

It May do as Much for You. at the earliest date possible. This statement is fully in accord with those which were recently made by Mr Charles E Hiller, of Boston while in Charleston. The building of such a connection as that proposed will be an expensive undertaking on account of the heavy rock grading which will be required in the mountainous sections through which the line is to real.

It May do as Much for You.

Mr Fred Miller, of Irving, Ill, writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement.
