**THE MONUMENT.**

We feel that we have at all times, and under all circumstances, been the earnest advocate of the movement to erect a suitable monument to the memory of our deserved dead who rendered service to the South in its days of tribulation. Not only have we, in season and out, pressed the duty upon our patriotic citizens of aiding to the extent of their ability in securing means to effect the desired end, but we have expressed the utmost admiration for the noble ladies who, with self-sacrificing ardor, have addressed themselves to the task of prosecuting the enterprise. What we have done we still stand by, and we can assure the ladies and all concerned that our efforts shall not be relaxed in their behalf. We must further say that we have no sympathy with that spirit which tends to mar a great enterprise by unedoes or unjust criticism.  
We have been led to these remarks from a communication in this paper on yesterday afternoon relative to the matter of award of contract, selection of model, etc., adopted by a late meeting of the managers.  
In justice to ourselves, however, in a journalistic capacity, we take occasion to say that we have no right under the rules of journalism to refuse communications upon legitimate subjects unless they bear the impress of personality, no matter how much we may differ with the sentiments expressed, or upon the indiscretion of rushing into print without proper information.  
In conclusion we say that the ladies and others in charge will find no more ready advocate of their cause than the VISITOR, and we wish them God speed in the work.

**OVER THE HORSESHOE FALLS.**

Two young men went over the Horseshoe Rapids of Niagara at dusk Saturday night. The bodies have not been recovered, so that the identity of the men is not well established. When the Michigan Central train stopped at the new station the passengers saw two men in a boat in the Horseshoe Rapids, opposite the third of the Sister Islands. They were making frantic endeavors to reach some rocks, and it looked as though they were about to gain them. When the train brought the report to the city a great rush was made across the Goat Island bridge to get a glimpse of the men.  
The gates were closed, which caused some delay. The first of those to get in sight of the rocks saw the men swept away from the last chance by the swift current of the river. The bodies were quickly carried over the falls.  
It is known that one of the young men was John Supple, of Niagara Falls. They started up the river duck hunting in the afternoon, and permitted their boat to float too far with the current.

**Died from Foot Ball Injuries.**

The game of football between the Toledo high school and an Adrian, Michigan, College eleven Saturday, was characterized by brutal playing by the Adrian team, in which they were abetted by their townsmen who were present. According to the Toledo boys they feared mobbing several times during the play. In the last half the teams became involved in a fight for the ball. Raymond Carew had it "downed," and three Toledo boys dropped to protect him. Instantly the bulk of the Adrian club was upon them. After the struggle was over Carew remained upon the ground, with his head, which was embedded in the dirt, bent beneath his body. His neck was dislocated. He did not regain consciousness for several hours, and death resulted from his injuries at 3 o'clock Sunday morning. Claude Critty, half back of the Toledo team, was kicked in the groin and could not return with the team. Geo Jones, right tackle of the Toledo, had his right leg injured. This was the second game which had been played by the teams, and a great deal of bitterness had been engendered in the first one.

**ADVENTURES OF THREE BABIES.**

PASSAIC, N. J., Nov. 22.—An infant child of Joseph Hance, of 694 Passaic street, fell from a third story window this afternoon. It fell at the feet of Dr John J Sullivan, who carried it into the house, expecting to find it dead. When it was laid on a bed it grabbed at his watch chain and commenced to crawl. An examination showed that the child was unhurt.  
Queer noises were heard coming from a large valise on the floor of the Relay depot waiting room at St Louis last night. A policeman opened it and found a pair of live babies, evidently twins, about three weeks old. They had been carefully packed and a hole cut in the valise to admit air. The waifs, a boy and girl, were taken to St Mary's hospital.

**Three-Card Monte in the Pulpit.**

SPRINGFIELD, O., Nov. 20.—Wilber G. Warner, of the Grace Methodist Episcopal Church, preached a sensational sermon last night on gambling, in which he showed how bunco men do the three-card monte trick. The sermon had been extensively advertised, and the house was jammed. He denounced all gamblers and said it was a notorious fact that police in large cities receive bribes to allow gambling places to run. No doubt it is done in Springfield. In performing the card trick, which he did with all the cleverness of one of the fraternity, he used three white cards. In the first part of his sermon he denounced newspapers for publishing details of crime.

If housekeepers better understood the nature of charcoal there would be a great deal of it employed about kitchens and in cupboards where food is kept. There is no more powerful deodorizer in the world than charcoal. A few lumps of it each the size of an egg, laid in a cupboard, will effectually prevent that dinner room smell which many persons find very offensive.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.
