A Suggestion.

There seems to be a growing sentiment among our people that the city should take charge of the electric street railway and run it for the public benefit. The increased assessment of the property along their lines, it is believed, would fully compensate for any loss if such should occur. Some of our foremost citizens have expressed the belief, that the scheme would be a paying one to the taxpayers.

Settled.

Sheriff Page, with his usual prompt ness, has settled the taxes due from Wake county to the State of North Carolina amounting to \$27.385 93. Our sheriff is always up to time in ted clothiers, come to the front today the matter of arranging his obliga in an announcement that cannot fail tions to the county and State His to attract. They have commenced efficiency as a public officer is pro- their fair, squar, and above board verbial.

General Agency.

Mr R B Raney has succeeded Mr E Lieberman as general agent of the price. All sizes: The situation can Penn Mutual Life Insurance Company, of New York, in this ci y. Mr Call and see for yourselves. Raney's high reputation as a busis ness man and his personal popularity will render him a most efficient agent.

Unless the street cars are re-amed by the next : tate Fair, another outlet from the city to the Agricultural grounds will be a necessity Our worthy aldermen should take this into consideration.

Our Chamber of Commerce.

This body is called to meet tomorrow night, and, it is to be hoped that the meeting will be a full one. If we are correctly informed, there are many questions to be discus ed some of them of almost vital importance to the people of Raleigh. The committees have under consideration matters that should be pressed upon the Board of Al ermen, and the sooner they are disposed of the better for the public good. The question of sidewalks is paramount and requires immediate attention. If all that is desired in this respect cannot be accomplished, just now, then it becomes the duty of the Aldermen to do what they can in the matter and leave the balance to contingencies. The com uittee on rotels, halls, &c, should report and make some suggestions to the Board. Decide the matter one way or the other Of course no action of the chamber is binding, but then, Mr Nelson M King, a prominent their recommendations may have more than outside influence. At any ratewe hope there will be a arge atformer Raleigh boy, is in the city tendance and that something tangible may be effected.

Newberne is to have an electric railroad on an improved plan. It is inferior to Raleigh in population, and we have many more catherings of various descriptions: If a road can pay in Newberge, it should in Raleigh. This would be the natural inference.
