The Bright Side.

Correspondence of the VISITOR.

In the last few years it has become quite a habit for people to cry "hard times" but it seems that Mr Broughton in his last two articles on that subject has entirely overdrawn the picture. After reading either one of these pieces one would think that our town was doomed and starvation stared us in the face. I live in Raleigh, do business here, and talk a great deal with the working class of the city and I find that while business could be made, better yet, we are not in any danger of such times as Mr Broughton had in mind when he wrote the two articles which I allude to. If we want to do anything for the people of our town it cannot be done by talking "hard times." We have had an abundant crop and a beautiful open winter. What else could we wish? Our business men have had no cause to grumble up to this time and I think it will do us more injury to call a meeting of citizens to relieve distress than it would if we would keep our mouths shut and let things regulate themselves. What we need is to be up and doing. Let the merchants, the mechanics and the manufacturers go to work and stimulate their business; that will do more good than all the of "hard times" that we could indulge in for years to come.

"Let us then be up and doing with a heart for any fate, still eschewing, still pursuing, learn to labor and to wait."

T. F. BROCKWELL.
