

THE WEATHER

For Raleigh and Vicinity: Fair tonight and Thursday.
Forecast for North Carolina for 24 hours to 2 p. m. Thursday: Fair tonight and Thursday.
The area of high pressure which was central yesterday over the Mississippi valley still dominates that region. The pressure is low in the northeast and the southwest, and it is decreasing in Montana. It is generally high over the northwest and the southeast. The temperatures have remained about the same, except a rise in Montana and the Dakotas. The highest maximum temperature yesterday was 90 degrees at San Antonio and Taylor; 82 degrees at Tampa, and 84 degrees at Phoenix. Heavy rains occurred at Omaha 3.43 inches and Kansas City 1.28 inches. Thunderstorms occurred at Wilmington, Charleston, Savannah, Tampa, Oklahoma, and Salt Lake City.

MISS ROSA McAHAN OF BUTTE.

How After Two Years She Found a Remedy for Dandruff.

Miss Rosa Mcahan of 211 West Quartz street, Butte, Mont., says: "Herpicide has thoroughly cleansed my scalp of dandruff, with which it was entirely covered, and it has stopped my falling hair. I have tried many different preparations in the past two years, but none took effect except Newbro's Herpicide." Dandruff is a germ disease and Herpicide is an infallible destroyer of the germ. "Destroy the cause, you remove the effect." Kill the dandruff germ. Ask your druggist for Herpicide. It is a delightful dressing, allays itching, makes the hair soft as silk. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

WEEKLY CROP BULLETIN.

For Week Ending Monday, September 4, 1905.

The weather during the past week has been especially favorable for the maturing of fodder and hay and growing. There was plenty of sunshine and in general crops of all kinds were benefited, although there are some complaints of dry weather through the eastern part of the State. The days were moderately warm but the nights cool, and frost was reported to have occurred in Mitchell county. Heavy rain occurred in some sections on September 2nd, and was very opportune.

In the eastern part of the State the tobacco is about all cured, in the central and west portions cutting and curing are generally under way. There are some complaints of tobacco being and specking, but on the whole the crops are reported fair, the quality and color being good but the leaf lacks body. The crop is below the average.

During the past week cotton opened very fast and picking had become quite general in the east and central portions of the State while in the west picking was started on several farms. There are less reports of shedding and rusting in the central and west portions while in the east there are still complaints in this regard, the plants shedding their top bolls, and in places the cotton is turning yellow. The cotton in the east is opening it is said two weeks earlier than last year and prematurely. The yield is under the average, and some report only a one-half crop.

Corn is about made in the east and central portions of the State, and in the west it is maturing nicely. In the east the corn prospect is for a good crop in the west and fair in the central part of the State. Saving of fodder and hay is under way in all sections of the State and in most sections of the east it is all housed. Peanuts promise a good crop. Sweet potatoes and turnips are doing fine in nearly all localities. In most places cow peas are promising well, but there are reports of vines being fine but very few peas. Irish potatoes are doing well in all sections, but in some places in the west they are rotting in the ground due to wet weather. Grapes are promising well in the east although there are few reports of a short crop. Peaches are scarce in all sections and apples are nearly all lost having rotted and fallen to the ground. Buckwheat where planted is doing fine. Land is being turned for wheat and rye, and in some sections rye and oats are being sown.

The following rains have been reported: Raleigh 1.27, Goldsboro 1.14, Greensboro 0.06, Lumberton 0.86, New Bern 1.08, Weldon 2.44.

BIG FALL OPENING

Now in Progress.

Men who prefer having their garments made to order will again have an opportunity to have their measure taken at our store. We have arranged with

Schloss Bros. & Co.,

the famous "Quality Tailors," of New York and Baltimore, to have their expert cutter and fitter, Mr. Famme, at our store the remainder of this week with a full line of samples. The Fabrics this year are unusually

handsome, while the style and fit of Schloss-made garments is established. We want to show you the new tailoring fabrics that will be popular this Fall and Winter with well-dressed men. Prices will be in keeping with Cross & Linehan Co's. usual way of reasonable charging for high-grade, superbly tailored apparel. On this occasion the very finest fabrics from the foremost American and Foreign Mills will be displayed. It will be a showing that will eclipse all former exhibits of the kind. The most stylish suits worn here this season will be made by our Tailors. We cannot say too much for our tailors. They have mastered the tailors art—they have perfected every detail in garment making, and the fashions adopted for Fall and Winter 1905 are unusually attractive. Call in and look them over.

A Good Proposition: We propose to show you the best and most fashionable fabrics for the coming year; if they please you, we will have them tailored to your order.
