END OF THE YELLOW PLAGUE IS IN SIGHT

Daily Reports of the Fever Situation in New Orleans Continue Encouraging and Hopes are Entertained That the End is Near.

(By the Associated Press.)
New Orleans, Sept. 20.—Investigations with a view to the discovery of the germ of yellow fever continue at the Emergency Hospital. Within the past week eight autopsies have been held, the results of which will be published when the fever is over. Generally, the fever situation is regarded as encouraging. The fever is practically wiped out at Leeville, where it was worse than at any point in the State. Baton Rouge has been able to secure the relief asked for. The quarantine imposed by the parish has been removed and planters will save their crops, which were suffering for the want of labor.

Yesterday's Report.

New Orleans, Sept. 20.—The official report of yellow fever in New Orleans to six o'clock Tuesday afternoon follows:

New cases, 34; total to date, 2,639. Deaths, 4; total, 345. New foci, 5. Under treatment, 331. Cases discharged, 1,973. The daily report continues encouraging and is especially so in the matter of the deaths and new foci. Of the new cases, only six are above Canal street, while the deaths are all from below Canal street.

Two men who were in the Avondale detention camp, Jean Boussignon and Archie Murray, were stricken with the fever yesterday and were immediately brought to the city and taken to the Emergency Hospital. They came from the center of the infected district.

Owing to the scepticism of some communities in the States of Louisiana and Mississippi to accept freight from New Orleans, Surgeon White made the following announcement: "If any outside communities request it, I will arrange to place on each freight car leaving New Orleans for these points, an official statement to the effect that the car has been properly fumigated by the United States Government and all mosquitoes that may have been in such car have been killed after the car had been loaded and closed. This should satisfy even the most sceptical."

WAS LOST ON BATTLEFIELD

Commissioner Found by Chief Justice Walter Clark Will Be Forwarded to Proper Owner, Accompanied by Tribute to Bravery.

(By the Associated Press.)

Paterson, N. J., Sept. 20.—A commission as captain of the Twenty-fifth New Jersey Volunteers, which was lost by Capt. Archibald Graham on the battle-field of Fredericksburg, Va., was returned to Captain Graham's widow by Chief Justice Walter Clark, of the Supreme Court of North Carolina. Judge Clark found the commission after the battle was over. He sent it to the State Adjutant General's office in Trenton and asked that it be forwarded to the owner. He accompanied it with a letter saying that he had intended to return it many years ago, but had mislaid and forgotten it. He wrote:

"This commission was found where only a brave man could have carried it—beneath the plunging fire of the Washington Artillery on Mare's Heights, just behind us, and the even more wasting fire of our infantry line behind the stone wall at the foot of the heights. We broke seven successive lines of battle to pieces at that point; for nature had made the position impregnable I was then but 14 years of age, but I remember well that my astonishment at the recklessness of sending brave men on such a hopeless mission was only exceeded by my admiration of the steadiness and gallantry of the men who endeavored to execute it. "I don't know to what brigade the Twenty-fifth New Jersey belonged, and hence do not know in which of these charges Captain Graham shared, but I was particularly struck with that made by Thomas Francis Meagher's Irish brigade, whose line came up almost to the muzzles of our guns. We recognized that line by the green flag with the sunburst on it, as well as by its reckless daring. My most respectful compliments to Mrs. Graham and to her son, who, I see, is a member of the profession to which I have the honor to belong."

The Destroyer of Warships.

(By the Associated Press.)

The Russian Government announces that the value of the Czar's warships lost during the war with Japan was \$113,000,000. That is considered a low estimate by some naval experts, who assess the value of the ships at figures ranging from \$125,000,000 to \$165,000,000.

That a very much better use might have been made of the money spent on the construction of these warships is probably true. If the Czar had devoted \$113,000,000 to ameliorating the condition of the Russian peasantry great and permanent results might have been achieved and many of his subjects relieved from the grinding poverty in which millions of them live. But as no other

UNDER THE 'BLACK FLAG'

Since the Days of Captain Kidd a Chaser Band of Cutthroats Has Lashed Together Than This Prevailed Attempt Shows.

(By the Associated Press.)

Washington, D. C., Sept. 20.—Captain Alexander Murray was arrested Monday at Victoria, B. C., by the Canadian authorities at the request of the Department of Justice under an indictment obtained more than a year ago at San Francisco on the charge of conspiracy in fitting out the schooner "Carmenita" in violation of the sealing laws. A telegram received at the State Department announcing the arrest says: "The 'Carmenita' had been refitted under the name of 'Aracadio' of alleged Mexican registry and with a crew made up of men said to be avowed pirates."

Choices as have manned a pirate craft since the days of Captain Kidd. The Government of the United States is building a number of fast battleships, and Congress will probably continue to add steadily to Uncle Sam's fleet. Yet it is certain that in time they will be mustered out of service to give way to ships embodying more modern ideas of construction and armament. The loss in such cases will be practically absolute, but Americans do not seem to be opposed to a system of insurance which returns to the policy holder no part of his investment.—Baltimore Sun.
