ASSOCIATED CHARITIES

Supervisor H. K. Stephenson Makes Quarterly Report—Will Adopt Coupon System to Aid Beggars.

The governing board of the Associated Charities met yesterday afternoon to hear the quarterly report of the superintendent. The following was stated:

To the members of the governing Board of the Associated Charities: Your superintendent begs leave to submit the following report for June, July and August.

June 1st balance in bank \$294 42 deposited during the three months \$350 49 total in bank \$644 91 Withdrawn for incidental expenses and help extended to the needy \$225 87 September 1st balance in bank \$319 04 subject to draft of \$200 to pay for food and groceries purchased. Applicants for aid, 225. help extended to 203. applicants refused 22.

As to the general work during the three months, we have found employment for eighteen people. Your superintendent found it necessary to have two chronic beggars before Judge Badger, and they promised him that if he would not send them to the roads this time they would stop begging.

Your superintendent has sent one little girl to the Crittenden home this month. At our last meeting you instructed the superintendent to buy wood, and I have succeeded in buying one hundred cords at \$1.50 per cord, and our president has got the Seaboard Air Line Railway to haul this wood from Merry Oaks, N. C., free of charge.

In closing this report, would say that we have had a great deal of sickness during the summer months. Our district nurses have done good work.

The ladies of the general committee and Colonel Olds, with his band of Sunshine Workers, are ever ready to help in this God-given work. Respectfully submitted, R. S. STEPHENSON, Superintendent.

Suggestion for Work.

Mr. Stephenson also offered a suggestion that will materially aid the people of the city in a proper distribution of aid, as embodied in the following letter:

Your superintendent would like to make this suggestion: That when any person makes a pledge to the Associated Charities, would it not be wise to furnish them with a small book of coupons, so that when the beggar applies to a member of the Associated Charities for relief the latter fills out one of these coupons and gives it to the applicant. He cannot, of course, refuse to take the coupon, and the member is thereby given a means for immediately getting rid of the applicant and at the same time insuring that he be properly attended to. The member cannot leave his office or his house to make a personal investigation of the case. He knows by experience that the applicant is a fraud and the story he tells is untrue, yet the person to whom the application is made does not desire to take the risk of refusing to help a case which really may be in want; and on the other hand he does not wish to hurt the feelings of the applicant or intimate to him that he disbelieves his story.
