LARGEST FIRE IN MANY YEARS

raging Flames in New York City—Hundreds of Families Stricken—Treatment Dwellers Fine For Safety.

(By the Associated Press.) New York, Oct. 7.—Two city blocks were burned, over fifteen business establishments destroyed, hundreds of tenement dwellers were forced to flee for safety from their flame-threatened homes, one fireman injured, a watchman burned, 250 fear-stricken horses roaming through the crowded streets for more than an hour, and a desperate three-hour struggle with the flames, were the results of a fire which caused a loss of \$100,000.

Starting in a rag-picker's shop in 19th street near First avenue the flames gained momentum so quickly that within a few minutes it was necessary to turn in four alarms and twenty-five engine companies, a fire boat and half a dozen tow boats were rushing to the scene to combat with the flames which were sweeping southward.

The block between 10th and 10th streets composed of small buildings was swept within a few minutes and flying embers ignited the big lumber yards of Rebers Sons & Co. From the lumber yards the fire threatened the entire district. Half a dozen firemen caught in the back draft of flame and smoke when the lumber shed collapsed were blinded and choked but with one exception all escaped without serious injury. Pipeman O'Neil was struck by a falling timber and fell unconscious. Michael Neher, and his wife, who lived on the second floor of a two-story brick building on the north side of 10th street were rescued with difficulty by the firemen. Neher lost \$1,000 in cash, some jewelry and a box of rare old coins valued at \$500. The coal yard of Meyers Bros. was swept by the flames. In the rear of the yard was a stable where 250 horses were quartered. They were turned loose by the police and firemen and for more than an hour the frightened animals rushed through the crowded streets. Finally all were captured. When the fire reached the north side of 10th street, the Italian tenants of a crowded tenement became panic stricken and rushed to the street, yelling in fright. The police had difficulty in saving them from injuring themselves.

A UNIQUE PROPOSITION.

Leading Business Men May Form a Company to Control the Town's Saloons.

(By the Associated Press.) Los Angeles, Cal., Oct. 7.—As the result of a formal proposition submitted to the city of Los Angeles yesterday there is a possibility that the "Gothenburg Saloon System" may be installed in the city, supplanting the present private ownership of two hundred saloons here. The proposition came from 25 leading business men, among them being several possessing personal fortunes of millions. It is proposed by these men as a company to pay to the city the sum of \$180,000 per annum for 200 saloon licenses now in operation in the city and to reduce the total number of saloons from 200 to 25. The company offers to acquire the furniture, fixtures and good will of the saloons of the present proprietors at an appraised valuation. After the license tax has been paid, the stockholders of the company under the proposed plan will be entitled to six per cent dividends, the remainder of the profits to revert to the city treasury.

UNDER THE YELLOW MASK

The Low Average of Fever Deaths and New Cases Continues to Prove That the Deadly Epidemic is Practically Stamped Out.

(By the Associated Press.) New Orleans, Oct. 7.—The official report of the yellow fever situation to six o'clock Friday afternoon was as follows: New cases, 25; total to date, 3,147; deaths, 4; total, 407; new foci, 8; patients being treated, 200; patients discharged, 2,540.

Comparatively little change characterized the yellow fever situation in New Orleans yesterday, both the new cases and deaths striking the daily average for the past week.

A second charge against Dr. Szabary for failing to report a fever case was made Friday. Mrs. Duffy's home on Stochos avenue is said to have a case for five days under Dr. Szabary's treatment which had not been reported to the authorities. The Marine Hospital Service is no longer printing the names of the doctors who report cases, the physicians requesting that the system be discontinued. Public criticism of the removing of cases turned out to be other than yellow fever is believed to be responsible for the objections of the doctors.

During his visit here the negro population desire a small portion of the President's time. When President McKinley came, staying two days, he paid a visit to one of the colored educational institutions and the colored people hope to have President Roosevelt do the same thing.

Yesterday the Southern Pacific placed at the disposal of Mayor Behrman the fine steamer Comus, to be used by the President in making his trip over the harbor.

(By the Associated Press.) St. Petersburg, Oct. 7.—A five-story building in course of construction on Meschuchankaja street collapsed and a hundred workmen were buried in the ruins. Up to the time this despatch was filed only seven men have been extricated. They were seriously injured.

The Daughters will meet next year at Durham.

CHARGED WITH CONSPIRACY

(By the Associated Press.) Chicago, Ill., Oct. 7.—Demurring to nine counts, pleas of not guilty on one count, are to be entered Monday by seventeen men and five corporations, indicted on charges of conspiracy to monopolize the meat business. The demurrers are general and charge ambiguity, vagueness, uncertainty and indefiniteness against seven counts. Allegations are made that double charges are contained in two of the remaining counts.

(By the Associated Press.) New York, Oct. 7.—Charles F. Hughes, principal counsel for the committee of the Legislature, to investigate insurance affairs, was last night unanimously nominated as the candidate for mayor of New York by Republican city convention in Carnegie Hall. The other nominations were: Richard Young, Brooklyn, for comptroller, and James L. Wells, of the Bronx, for president of the Board of Aldermen.

THE BODIES OF THE MURDERED PERSONS HAVE ALREADY BEEN FOUND AND ANOTHER VICTIM OF A COVARDLY ASSAULT, IS REPORTED DYING.

(By the Associated Press.) Middletown, N. Y., Oct. 7.—A triple murder was revealed here when the bodies of Willis and Fred Olney were found in the woods half a mile from the home at which last night was found the murdered body of Alice Ingerick. Both brothers had been shot. Before night crime is expected to number one more victim, Mrs. Georgia Ingerick, mother of the girl Alice. The mother, who was found unconscious in the barn of the Olney brother's farm last night, has not regained consciousness, and was said by physicians to be dying, with three fractures in her skull.

SEARCHING FOR THE CLUES

As yet, however, no plausible theory for the murder has been advanced.

Four persons who were in the house about dark yesterday, according to Alice Ingerick, who left the place shortly before the tragedy, were Willis Olney, aged 62, Fred Olney, aged 58; Mrs. Ingerick, the housekeeper of the two brothers, and her small daughter, Alice. Lula, who is 13 years old, went to Middletown, returning in time for a late supper.

Finding the house empty the girl in her fright summoned neighbors, who searched the premises. Alice was found dead in the cellar, her head beaten with an iron pipe. Her mother was found unconscious in a barn, apparently beaten by the same instrument which was picked up on

INTEREST IN SCHOOLS

Mr. Hezekiah Pool, of Clayton, was here to-day to invite Mr. Z. V. Judd, county superintendent, to address the students and patrons of school district No. 5, of St. Mary's township, on the evening of October 13th. Mr. Judd could not accept on account of the examination of school teachers to be held here on that day, but will set some other time to go.

Mr. Pool says there is a great interest being manifested in education in his section.

ROMES SCHOLARS IN ENGLAND

London, Oct. 7.—Forty Rhodes scholars arrived here today en route to Oxford for the term here. Eleven have already spent a year at the university and others are doing for the first year. This year the students sailed from Philadelphia because of the low rates from that port. When the first batch of students left America last year, each had visions of the "swell" figure he was going to cut on \$1,500 a year and engaged rooms on expensive liners. They soon found out, however, that their allowance was very moderate, so this year they formed a party of forty and got cheap rates.

NEW SUGAR RATE SCHEDULE

New York, Oct. 7.—The new agreement regarding rates on coffee and sugar in which western railroads to the gulf ports and certain steamship companies are interested, went into effect to-day. The sugar rate war has been in progress three years and was one of the bitterest and costliest ever waged in railroad circles before an agreement was reached.

GAYNOR AND GREEN CASE

The Last Chapter in the Criminal Case, Closed Today as Far as Canada is Concerned, Upon Their Departure This Morning.

(By the Associated Press.) Montreal, Canada, Oct. 7.—The last chapter, as far as Canada is concerned in the celebrated Gaynor and Green case closed today when the two men left the Bonaventure station of the Grand Trunk Railway on a Delaware and Hudson train at 8:45. A large crowd was present to see them off, but the most notable thing about their departure was the large number of United States Secret Service men. They were in charge of W. J. Flynn, head of the Secret Service Bureau of New York. On behalf of the Dominion Government Silas H. Carpenter, Chief of the Montreal detective force, who kidnapped the two men from Quebec and Inspector McMahon, went with the party as far as Rose Point, N. Y., the boundary line being between Rose Point and Lacolle, Canada. The two prisoners had been notified that they probably would be removed this morning and were ready when Detective Boyd, of the Secret Service called for them in the Debtors Ward of the jail.

The United States officers came with three cabs and the party left the jail a little after 7 o'clock. They drove to the Bonaventure station, where the prisoners ate breakfast in the station dining room. Boyd and White, of the Secret Service, remained with the prisoners, while Chief Flynn and his other men remained outside, keeping an eye on various doors leading in and out of the station. Chief Carpenter and Inspector McMahon, of the Montreal force, kept them company. At half-past eight the prisoners went to the train. First came Greene, accompanied by Detective White, and Inspector McMahon and next Gaynor, accompanied by Detective Boyd and Chief Carpenter. Around these two small groups of other secret service men rallied until the parlor car of the train was reached. The prisoners went into a smoking compartment, with Chief Carpenter, Chief Flynn and Boyd and White.

When asked if they had anything to say before leaving, Gaynor replied that they were glad to go back at last and they would have nothing but kindest remembrances of their treatment in Canada. Gaynor's daughter-in-law was on board the train when the prisoners arrived and his son-arrived at the station just before the train left. On arriving in New York the party will proceed straight to the Pennsylvania Railway station.

ALDERMEN MET LAST NIGHT

The Session Very Short—The Mayor's O'Clock Law Repealed—Will Regulate Building and Condition of Stables—Firemen Elected.

The regular monthly meeting of the Board of Aldermen was held last night. Unlike the several of the recent meetings, the board was in session only 45 minutes. Mayor Johnson called the meeting to order and all the members were present except Alderman Rogers.

Mr. Boylan, chairman of the Street Committee, reported for that committee. He said that the department had expended last month \$1,923, which was \$124.24 more than the budget allowed. This overdraft, said Mr. Boylan, was due to completing the macadam on New Bern avenue. Hereafter the department will be restricted to fifteen street hands for repair work and incidental improvements.

Mr. Grimes, of the Finance Committee, informed the board of the fine showing made for the month of September by the Board of Audit and Finance, which was published in the Times yesterday afternoon. Mr. Grimes also complimented Mr. Harlow Glenn, the city tax collector, in preparing the 1905 tax books.

The report of Chief of Police Mullins was submitted. It showed 116 arrests for September, 63 white and 53 colored.

John Mangum, chief of the Fire Department, reported that there had been eight fire alarms during the month, and fifteen building permits and been granted.

The committee appointed to investigate the dispensary was not ready to report.

The insurance money on the buildings at the city farm burned was given to the sanitary department to replace the buildings.

City Physician P. E. Hines reported that he made 131 visits, gave 60 prescriptions at the dispensary and sent four patients to the Rex Hospital.

The dispensary commissioners through Chairman B. G. Cowper made their quarterly report. It had been found necessary to employ another clerk and Mr. J. G. Upchurch had been elected at a salary of \$55 per month. The total sales at the dispensary for the quarter were \$48,762.04.

President Joseph G. Brown, of the Associated Charities, made application for the usual \$100 appropriation for that institution. This was allowed, and the money will be paid from the emergency fund.

A petition from property owners on South Boylan avenue was read, asking that the avenue be widened, straightened and improved. It was referred to the street committee for consideration.

Alderman Lee introduced a substitute for the stable ordinance previously passed, and it was adopted. The new ordinance provides that no cow or horse stable shall be erected on any lot unless it is located as far, if possible, from the residences on the adjoining lots as it would be from any residence on the lot on which the stable is located, so as to give the least possible offence to neighbors. Stables shall be cleaned and disinfected with some good disinfectant, the same to be approved by the sanitary inspector, at least once a day, and the manure removed once a week from the lot during April, May, June, July, August and September and once each month during October, November, December, January, February and March. The penalty for violating this ordinance is a \$10 fine or thirty days imprisonment. No stable can be erected without a permit from the sanitary inspector. The penalty is the same for violating this. If any stable becomes offensive and complaint is made to the sanitary inspector the latter shall order the owner to carry out the ordinance, and if he fails to do so and does not remedy the trouble complained of, as directed, in five days, he shall be subject to a \$10 fine or thirty days imprisonment.

The water company, on motion of Mr. Jackson, was ordered to place a hydrant on the corner of Worth and Bloodworth streets. It was recommended by the chief of the fire department.

Mr. Harden introduced an ordinance repealing the 9 o'clock anti-back ordinance, and it was unanimously passed.

As chairman of the caucus, Mr. Grimes nominated the members of the police force for the next two

TEXAS WISHES MOB LAW

(By the Associated Press.) Houston, Texas, Oct. 7.—A petition from a number of citizens headed by G. W. Knight, of San Marcos, has been presented to Governor Lanham asking that the State permit mob punishment of negroes who assault women. The Governor is asked to endorse a policy of absolute non-protection to negroes guilty of assault, insuring that they be given no trial by legal faculty of any kind, and that they may be hung instantly as soon as apprehended.

Governor Lanham's response principally is directed to the legal phase of the proposition. It is set forth that it is impossible for him to countenance the policy in view of his oath of office and the State Constitution, which he is bound to protect.
