Seubsard Passenger Train Building dl Miles an Hour Barely Bocapes Barning Reidge-Stopped. by Applying Emergency Brakes.

Columbia, E. C., Oct. 2 .--- The Seaboard's through southbound passenger train No. 31., due here at 10:15 through a burning bridge, spanning what is known as Jumping Gully, 60 gineer and crew had was the smoke and flame they sighted 200 yards engine was reversed and the omergoncy brakes applied. The engineer got his machine under control within a car length of the north side of the bridge, where the fire was concentrated and where 20 feet had been crowd of passengers, numbering optaion is that the fever is beyond about 50, and they were eloquent control; that it will remain in Penin their praise of the splendid work of Engineer D. K. Wright and Conductor Walter Gibson and others.

While the conductor walked back five miles to get a telegraph station the crew and the passengers got out and quickly organized a fire brigade, general international sanitary conwhich fought the flames on the bridge with great energy and final eral Wyman presiding. Secretary of success. Among the best fighters State Root and the assistant Secrewere a coach full of Italian cigar tary of the Treasury delivered adworkers and their families, bound dresses of welcome. for Pango, bla. The passengers passed resolutions commending the engineer and crew.

The train was running an hour late and was tied up at the bridge over x hours. It was finally brought on and was tied up at the bridge over six hours. It was finally brought on over the bridge, which a wrecking crew patched up. The train was made up of a mail car, express car, diner, sleeper and two day coaches.
