RUSSIA HAS MORE TROUBLE

Railroad Strike Situation in That Country Shows no Change

WILL THE CZAR GRANT UNIVERSAL SUFFRAGE?

A Congress Composed of Railroad Employees Met and Adopted a Resolution Demanding an Eight Hour Day and Other Concessions.

(By the Associated Press.) St. Petersburg, Oct. 22.—The railroad strike situation shows no signs of amelioration. Moscow is isolated, except the line to St. Petersburg. The strike is part of a general scheme of the Social Democrats to compel the Emperor to grant universal suffrage and complete political freedom, but the plan of the leaders is to avoid a collision with the authorities. The president proposes to make tests of the strength of the various organizations, preparatory to an inauguration of a general strike of all classes in support of the radicals about the time the National Assembly meets. A congress of railroad employees has adopted a resolution in favor of universal suffrage, political freedom, amnesty right to organize strikes, liberation of arrested strikers, an eight hour day, schools for employees' children and the abolition of martial law, railroad gendarmery and capital punishment. Kharkoff, Russia, Oct. 23.—A railroad strike has broke out here. No trains are running.

NEW ORLEANS IN GALA ATTIRE.

The City is Being Elaborately Decorated in Honor of the President's Visit. (By the Associated Press.) New Orleans, Oct. 23.—New Orleans is assuming the aspect of the carnival season. Many business houses are already elaborately decorated for the President's visit and with the streets thronged there is no longer evidence of either fever or quarantine. It is believed all restrictions against travel in Louisiana and Mississippi will collapse this week. Only Alabama and Texas are now barred against Louisiana and the fact that Texas has reopened intercourse with all non-infected points is taken to mean that all restrictions will shortly be abandoned. The railroads have announced low rates for the President's visit and everything points to a rush of people from all over Louisiana and Mississippi for the occasion, and once deserted hotels and boarding houses are rapidly filling up.

CONDITIONALLY PARDONED.

Two Prosecutors in Case of C. C. Curtis Intercede and Judge and Solicitor Recommend Relief. C. C. Curtis, of Guilford county, whose home is in High Point, today received a conditional pardon from Governor Glenn, in that he would be "on good behavior, and sober and industrious." This was on account of the careful investigation by the Governor and the request of the two prosecutors in the case, which was on a charge of the larceny of a watch, which was found in the man's trunk. Curtis was tried the August, 1904, term of Guilford court, and was sentenced to a term of three years in the State's Prison. It seems the watch had been removed by another and placed in the trunk of Curtis, without his knowledge.

A Run-Away and a Fall-Off.

Considerable excitement was occasioned this afternoon by the running of a horse attached to a wagon of Upchurch, the grocer. The main part of the run was on Blount street about the corner of Polk. The driver was not hurt, but the wagon was badly smashed. Later in the afternoon a small boy, about 12 years old, was slightly hurt by a falling horse at the corner of Fayetteville and North Exchange streets. He was riding along, when the horse stumbled against the paving of the street and fell, carrying the youngster down with him. The boy was assisted to his feet by Col.

T. P. Blair and Mr. James Jordan, of the city department, and the report stated was also recovered by them. The boy again returned into the middle and went on to his home. He is a son of Mr. Green, who has recently come to Raleigh, and resides at 111 North Blount street.

MUST STAND TRIAL.

New York State Senator Charged With Conspiracy to Defraud. (By the Associated Press.) Washington, Oct. 22.—The Supreme Court has decided that State Senator George E. Green, of New York, must come to Washington for trial on a charge of conspiring with George W. Thaw and others to defraud the government in the purchase of supplies for the Post-Office Department.

GEORGE MEREDITH, NOVELIST.

Receives Severe Injuries, Which Cause Concern Owing to His Advanced Age. (By the Associated Press.) London, Oct. 22.—George Meredith, the novelist, while leaving his residence at Box Hill for a walk, slipped, fell and broke one of the bones of his left leg. The accident is causing great concern owing to his advanced age.

Protests Against Hearst Dismissed.

(By the Associated Press.) New York, Oct. 23.—The Board of Elections has dismissed the protests against W. R. Hearst for mayor and other nominees of the Municipal Ownership League for city officers. The board decided the petitioners have a right to use the name "The Municipal League" and also to use the emblem on the ballot of a pair of scales.

HIGH POINT ITEMS.

News of Interest from the Busy Manufacturing City. (Special to the Evening Times.) High Point, N. C., Oct. 23.—Mr. Sid Green, an acquaintance here of William Berkley, the "mysterious man," who died at the Junior Order Hospital Saturday, says that Berkley has no father or mother and that the nearest relatives are an aunt and uncle living six miles from Suffolk, Va. The dead man has a wife living in Rocky Mount by the name of Mary Berkley, but they had not lived together for five years. Several times during his illness he called the name of "Mary" and this who he referred to. The man seemed to be brooding over something that had caused a disgrace upon his name rather than for something he may have done, is the opinion of those who knew him best. He was a rather illiterate man and the Mr. Green referred to above did most of his correspondence for him here and also at Mebane, both of them coming here from Mebane together, and Mr. Green is the only man that knew anything at all definite about the man. The names of the uncle and aunt at Suffolk are not known, and as no word has been received from any one in regard to the man he was buried here yesterday afternoon at 4 o'clock, charity furnishing a shroud and coffin and a place in the cemetery for a last resting place. The man would most probably have gotten well had he manifested any desire to make a fight for it, but all the time seemed anxious to pass in his checks, repeatedly expressing a desire to die rather than live. The congregation of South Main Street M. E. church has started a subscription for a new house of worship. The structure will be of brick and as modern a church building as in the city. Pastor George F. Kirby already has about \$3,000 pledged, and just started the movement a day or so ago. The High Point Buggy Company is putting in a new cubular 30-horse power boiler for heating purposes.

China "Showing Off."

Peking, Oct. 23.—Much curiosity is felt regarding the military manoeuvres which began to-day in the neighborhood of Tiao-ling-Foo under the command of Gen. Yuan Shi-Ki, Commander-in-Chief of the army. The manoeuvres will be on entirely modern lines, and upward of 40,000 men of all arms will be in line. They are the first of the kind ever held in China and will continue until the 26.

ONLY ONE NEW CASE.

Which is Not Believed to Have Actually Been Yellow Fever. (By the Associated Press.) New Orleans, Oct. 23.—Only one new case and no deaths. This case was that of a 2-months-old baby, and there is reason to believe it was not actually yellow fever.

Cruiser West Virginia on Hand. New Orleans, Oct. 23.—The cruiser West Virginia, which is to take the President North, is anchored at the mouth of the river.

HIGHER WAGES AT FALL RIVER

The Owner of Five Cotton Mills in That City Has Granted an Increase to Wages, Amounting to 14 Per Cent.

Fall River, Mass., Oct. 22.—M. A. D. Morgan, of New York, owner of five cotton mills here, has granted the Fall River strikers the greatest plan in the world, the largest offer of an increase in the wages of his employees, amounting to 14 per cent, which was the scale before strikers were out of factories. The Board's mills have suffered with others here from the scarcity of help, and he takes this means to fill up his factories and prepare for the new crop he will start up shortly. The Manufacturers' Association has granted a 14 per cent increase and have agreed to put into operation in addition a share scale, or profit sharing system.

IN THE POLICE COURT.

It Was Very Evident That It Was Monday After Fair—May Minor Cases Disposed of.

Judge Rodgers' court presented a busy scene this morning, and he looked very like the Monday after the Fair. The first case on the docket was a charge against Theodore King, a very quiet looking boy, for an assault on his sister and father. His father, C. B. King, was the only prosecuting witness. He said that the boy had been very rough with his home folks for some time past, and that yesterday morning he was caught hitting his sister with a whip, such as was seen on the Fair grounds, and that when he remonstrated with him, the boy struck him on the head. The boy was fined \$14.35, which he afterwards collected among his many tough looking friends standing about.

John Arrington and Amy Walker were charged with obscene conduct on the streets. Arrington was given thirty days on the roads, and the woman was made to pay \$8.55.

Roscoe Miller was made to pay \$18.55 for carrying a concealed weapon, and on a charge of being drunk, judgment was suspended on the payment of costs, which amounted to \$3.35.

Fat Braswell, a white man from Durham, and Bud Pool, were on for an assault. Braswell was let off with the costs, and the case against Pool was dismissed. The man Braswell was also charged with the larceny of some money from his companions, but as it appeared that they were all drunk, and that no one knew anything about it, he was dismissed on this charge.

Southern School Histories.

There are many school histories of the United States, some by Southern writers, but most of them by Northern writers. Few or none are satisfactory in both sections. The Southern people use largely the histories written by Northern authors, but find fault with them on account of their bias, inaccuracy and want of proportion. These defects appear particularly, it is said, in the treatment of the Colonial period, in the color given to events between 1800 and 1861, in false interpretations of the Constitution of the United States, in the distorted account given of the Civil War and its meaning and in the suppression or misrepresentation of the crimes of the so-called period of "reconstruction." The New England writer, it is declared, exaggerates the doings of his section in every period, to such an extent that Virginia and Maryland's greater and more important work in the Colonial period is dwarfed. Often mere ignorance of the Southern people and their history causes disproportionate treatment of topics, but more frequently popular Northern delusions in regard to the South are offensively voiced. This has led the organizations of Confederate Veterans to take steps to get a truer statement of historical facts, accurate and free from bias. There is no reason why the animosities of the antebellum period should be perpetuated by repeating the falsehoods of the politicians of that and the succeeding period. The part played by the Southern people in our history is glorious enough, it is held, to be narrated without eulogy. All that is wanted is truth and a proper sense of proportion, to the end that a just picture of the past may be placed before the rising generation.—Baltimore Sun.

WAS CAPTURED AT WALLACE

Negro Who Attempted Escape Aboard Upon a Young White Man Yesterday in Charlotte and Jailed, but a Lawyer is Expected.

By the Associated Press. Wilmington, N. C., Oct. 22.—A negro, who was arrested yesterday in Charlotte, and jailed, but a lawyer is expected to appear for him today. The negro, who was arrested yesterday in Charlotte, and jailed, but a lawyer is expected to appear for him today. The negro, who was arrested yesterday in Charlotte, and jailed, but a lawyer is expected to appear for him today.

TAKES A DIP IN THE OCEAN.

Mr. Roosevelt and His Party go from St. Augustine to Island of Anacostia in Launch and Went to Bathing—Attended Services at Protestant Episcopal Church.

By the Associated Press. St. Augustine, Fla., Oct. 22.—President Roosevelt, accompanied by his party, went to St. Augustine at 10 o'clock, and is not scheduled to make a stop of any length until he reaches Mobile today at 4:30 p. m. His day in St. Augustine was a quiet one. He attended services in Protestant Episcopal church at 11 o'clock. The pastor, Rev. James Coffin, preached from the text, "Worthy the Lamb that was slain." He made no reference to the President in his sermon. The church was crowded. At the conclusion of the services the President was taken for a short drive about the city. After luncheon the President, accompanied by Secretary Loom, Surgeon General Riker, John McIlhenry and John Greenway, the latter two of whom have been his guests on the trip South, drove to Fort Marion, where they boarded a launch and went to Anacostia, an island. Here the party donned bathing suits and had a bath in the salt water.

The President thoroughly enjoyed the bath and seemed in excellent condition to tackle the hard work that lies before him this week. When the party left the hotel for the fort, the mounted policemen of St. Augustine, who had been waiting in front of the hotel, started ahead as an escort. The Secret Service man who was on the box with the driver of the President's carriage said to one of them: "We don't need you now."

"That's all right," responded the officer. "We will go along, its coming to you, anyhow." They galloped to the fort, where they stood at attention while the President boarded the launch and steamed away. Dinner was served at the hotel last night, after which the President drove to his train. St. Augustine was full of strangers Sunday, attracted here by the President.

A large crowd lingered around his hotel all day, anxious to catch a glimpse of him. He received but few visitors, however, and got the rest of which he stood in need. This week will see the end of his trip. After visiting Mobile to-day he will spend to-morrow at Tuskegee, Montgomery and Birmingham. Wednesday he will devote to Little Rock, Ark., and then he will visit New Orleans, leaving that evening on a government vessel for Washington.

LINCOLN'S PRIVATE CAR.

Steps Taken for the Preservation of Famous Wartime Relic. The famous old Lincoln car, in which that great President journeyed to Washington, and in which his body was afterward borne for entombment at Springfield, Ill., rolled into the railroad yards at Minneapolis a few days ago for delivery to its new owner, Thomas Lowry, who bought it from speculators who had been exhibiting it at various points. When the dingy old coach was at rest on a siding car checkers looked for the initial and the number, but all signs familiar to the railroad men of today were missing.

Resigned His Position.

(By the Associated Press.) Philadelphia, Pa., Oct. 23.—Dr. Edward Martin, director of the Department of Public Health and Charities, sent his resignation to Mayor Weaver. The position paid \$10,000 a year.

The house, however, with the car under its last travel by slow stages from Jackson where it has been lying, is expected to be ready for the journey to the State's history.

The car, which was destroyed by fire in a canal bridge, when it was used to transport Thomas Lowry that his representative might to provide a final resting place for the car. Mr. Lowry, who is a representative of the State of Minnesota, it will be understood, when the original light weight coach which the city from St. Louis, and called mechanics will restore it to its original condition so far as possible.

Veranda of the way which was known to President, who were witnesses of events connected with the 1861 from Washington to Springfield, and those who were familiar with the car, and railroad men of was the car, will be the appreciative visitors to inspect the car. Although which was the coach was a magnificent work of the car builders at that time, a railroad point of view it is hardly worth even wrapping with the light construction, its little hand rails on the diminutive platform and buffers which would offer little resistance to the palace car of today. It is a lone representative of pioneer railroading equipment.

In exterior the coach is a dark brown. It has a dozen or more of the windows on each side set high from the ground, and otherwise is of an obsolete type of car architecture. Inside, it has been stripped as it was used to admit the casket of Abraham Lincoln, and until restored will not appear as it did when it was the President's base of war operations.—Exchange

\$4,500,000 BONDS FOR SALE.

The Whitney Company Formed to Build and Operate a Hydraulic-Electric Power Plant on Yadkin River.

T. W. Stephens & Company, New York, are offering for public subscription \$4,500,000 First Mortgage Six Per Cent. Gold Bonds of The Whitney Company. This company was formed to build and operate a hydraulic-electric power plant on the Yadkin River in the central part of North Carolina.

The locality in which the power station is being built is in the midst of a large number of cotton mills, whose demand for cheap power will undoubtedly utilize the entire capacity of the Whitney plant. There are 257 mills within a radius of 80 miles using about 75,000 horse power per annum—mostly steam. The Whitney Company development at present will be 40,000 horse power with sufficient land and water rights to develop an additional power of 50,000 horse power per annum.

Steam driven plants are now costing from \$35 to \$50 per horse power per annum while The Whitney Company evidently expects to sell their power at about \$25 per horse power per annum.

It is believed that the economic conditions in the textile trade in the South will be materially affected by the saving which the mills will be able to make under the new conditions. The enormous growth of the manufacturing cotton industry in the South will be materially accelerated by the developments such as are now taking place at Whitney and several other points in the Southern States.

Meeting of Capital Hose Company.

The adjourned regular quarterly meeting of the Capital Hose Company will be held to-morrow night at 8 o'clock. Prompt attendance is desired, as business of importance will be transacted.

GOVERNOR FOLK AS A FIREMAN

Telephoned Fire Department, Then Attempted to Extinguish Flames

SAVED THE PORTRAITS OF HIS PREDECESSORS

The Fire Which Was Under Control Only After Hours of Hard Fighting Resulted in \$10,000 Damages, Covered by Insurance.

(By the Associated Press.) Jefferson City, Mo., Oct. 22.—The Governor's Mansion was damaged today by fire. Today Governor Folk, aroused by the cracking of flames, telephoned the fire department and then attempted to extinguish the fire with two fire extinguishers. This proved ineffective and after seeing his wife and their five guests safely out of the Mansion, the Governor devoted himself to saving the portraits of his predecessors. The fire is believed to have started from a fuse. After hours of labor the blaze was extinguished. The Mansion was fully insured.

A THREE WEEKS TERM.

Wake Superior Court Convenes This Morning—No Important Cases Disposed Of.

Wake Superior Court convened this morning with Judge Cook, of Warren presiding, instead of Judge H. M. Justice, with whom he exchanged courts. Judge Justice will hold Cabarrus and Cleveland courts for Judge Cook.

In the case of Willis Johnson against Mary Johnson, an action for divorce, on the ground of abandonment, judgment was rendered for the plaintiff.

The case of John N. Harrell against Annie L. Harrell an action for divorce, was continued.

The case of Florence C. Clifton, administratrix of John H. Clifton, against the Seaboard Air Line, was continued on motion of the plaintiff.

All of the other cases coming up on to-day's calendar were continued. This term of court, is a civil term, and will continue three weeks unless the calendar is disposed of before that time.

Yankees Appreciate Governor Glenn.

The Impression Governor Glenn made while among the real Yankees of the New England country is of the type of a seeming listlessness. Our Governor has been invited to deliver one of the principal addresses at the next meeting of the Grand Army of the Republic in the States of New Hampshire and Vermont. There is every likelihood that Governor Glenn will accept the invitation and treat the upper-folks to a few more lessons in Southern knowledge—and knowledge of the South.

The gain in new building and industry in North Carolina is greater than at any period in the State's history.

The North Carolina Home Insurance Company

OF RALEIGH, N. C.

Should receive its proportion of this prosperity as compared with the percentage of new business given to it in period of less industrial activity. Give it the insurance on the desirable new properties you have to offer. It will help to build up our home State and continue the great era of prosperity now enjoyed by our people.
