## GREAT BATTLE ON GRIDIRON

### North Carolina and A. & M. Will Meet Here Tomorrow

## BETTING FAVORS MEN FROM CHAPEL HILL

### Both Teams on Edge for the Contest and Greatest Struggle Ever Seen Here Will Be Witnessed—Crowds Coming for the Game.

Raleigh will to-morrow be the scene of the greatest football contest that takes place in the State this season, when the A. and M. and the University of North Carolina teams will battle for the championship of the State. All preparations for the battle have been made and the friends of both sides are confident of victory. The game will be called at 3 o'clock and 30-minute halves will be played. Coach Williams, of Davidson College, will act as referee. Williams was at one time the star end on the University of Virginia team. "Dossy" Trenchard, an old Princeton end and former coach of the University of North Carolina team, will act as umpire. Trenchard acted as umpire in the game last year between these two teams and gave perfect satisfaction.

For the last few days the practice games of the A. and M. team have been secret. None except students of the college was allowed inside of the enclosure during the practice. This was done in order to keep the signals and plays from being made public.

To-night the A. and M. students will hold a great mass meeting, at which the faculty and the local alumni will be present. Speeches encouraging the team will be made by Dr. Winston, members of the faculty and the students. Great enthusiasm prevails and the farmer boys are determined to win, and if hard playing and enthusiastic rooting amount to anything they will win.

The A. and M. team is in good condition, and all of the men will be in their regular positions except Thompson and Clardy, who will not be able to play on account of injuries received in practice games.

The two teams are about even in weight, Carolina being just a little the heavier. The average weight of Carolina's team is 172 pounds, while that of the A. and M. is 169.

The probable line-up of the two teams will be as follows:

- |                      |             |
|----------------------|-------------|
| A. and M.            | University. |
| Bykes, center        | Parker      |
| Parkins, right guard | Seigle      |
| Sykes, left guard    | Gardner     |
| Beebe, right tackle  | Story       |
| Full, left tackle    | Meadows     |
| Gregory, right end   | Brown       |
| Stevenson, left end  | Townsend    |
| Steele, quarter back | Robinson    |
| Wilson, right half   | Snipes      |
| Hardie, left half    | Wibborne    |
| Shaw, full back      | Abernathy   |

The betting on the streets started off the first of the week even, but as the day of the game approaches Carolina supporters are giving slight odds, the latest bets being 7 to 5.

A special train will be run from Chapel Hill, bringing a large number of the University students and others. The Seaboard Air Line shoofly will be held in Raleigh until 6 o'clock so as to give a large number of Wake Forest students a chance to return after witnessing the game. This train will leave the union depot at 5 o'clock, the regular leaving time, and go to the Fair Grounds. After leaving the Fair Grounds, at 6 o'clock, it will make no stop at the union depot. That Carolina's men realize that to-morrow's contest is to be to the bitter end, and the best team will win, is seen from the following from The University Tar Heel:

"Next Saturday's contest with the A. and M. is perhaps the hardest one of all those which we must win. The A. and M. stars say they have the strongest team in the South. We hope that Saturday's score will disprove it. But one thing offers no room for doubt. Our Varsity eleven will meet a team whose defeating requires every ounce of strength and energy in the make-up of the team.

"It really seems as if every one in Chapel Hill were going to Raleigh Saturday. Let us go not in expectation of a walk-over, for be assured there will be none; but rather in re-

aliation that a general struggle for victory must be fought. Thus if we win we shall deserve to win. If we lose we shall at least do good."

## THE SOUTHERN ARE COMING.

### Five Hundred Chapel Hill Boys to Cheer for the Winners.

(Special to The Evening Times.) Chapel Hill, Nov. 10.—Five hundred students will come down to Raleigh Saturday to witness the football game between A. and M. and Carolina. The game will be a hard-fought one and will be a hard and strenuous fight. The teams are evenly matched; a comparison of the two teams, however, cannot be made, as neither have been up against the same teams. There will be little sporting on either side, and the victory will only come after a hard and strenuous fight.

Messrs. Manlius Gray and H. H. Phillips left yesterday morning for Charlottesville where, as representatives of the University of North Carolina, they meet the representatives of the University of Virginia in an intercollegiate tennis tournament. They expect to play the doubles Tuesday afternoon and the singles Friday.

Busbes, of Raleigh, who were sent to Chapel Hill to find out the consensus of opinion here regarding the proposed removal of the law department to Raleigh, were here the past week, pursuing their investigations. On returning to Raleigh they reported adversely as to the change. If this change is made it will be done in the face of the council of those who have the University in charge.

Dr. Thos. Hume, before a large audience in Gerrard Hall Tuesday night repeated the historical address delivered by him at the centennial celebration at the University of Virginia. It was a most interesting address, dealing with the rise of the entire Y. M. C. A. system of the world from the association at Virginia, the constitution of which was written by Dr. Hume himself.

### Tells Convention That New Regulations Are Imperative Now.

(By the Associated Press.) Chattanooga, Tenn., Nov. 10.—Surgeon General Wyman, of the Marine Hospital Service, spoke to the quarantine convention here to-day on the importance of more satisfactory regulations to handle the yellow fever situation. In concluding he said: "In further considering the prevention of yellow fever, it is necessary to dwell upon the destruction of mosquitoes and the screening of yellow fever patients to prevent the stegomyia mosquitoes becoming infected by biting said patients and carrying the infection to others. There is still need of public education in this matter and urging upon all an acceptance of the mosquito doctrine. This work of education has been carried on to a most commendable degree in the city of New Orleans and in other cities and localities recently infected, and circulars describing the methods for the destruction of mosquitoes, showing the necessity of screening first cases and in threatened localities the necessity of screening all cases of fever, have been sent to be posted in every post-office in the Southern States.

"The remarkable triumph achieved in New Orleans is of too recent occurrence to require more than mention, even if time permitted a description of the details. That victory will be recorded on one of the brightest pages of history and its good effect is incalculable."
