New Haven, Conn., Jan. 4 .-- The tory of the death of Charles & Lin wards, of New York, at the Hiller | By homestead on College strest has Tuesday night was apparently doep as ever when the coroner resumed his invostigation to-day. As far as an init

mation of the progress made in the inquiry could be obtained. Coronar Mit and the detectives who are an him are practically at a loss for partne clues in the case. Coroner Mis, how ever, has given no sign of discours ment over the baffling situation and he started in for the fourth day of invest tigation.

Search for the weapon with w the murder was committed went on today, with a gang of workmen continuing their inspection of the sewers 14 the vicinity of College street by the coroner's order. This search is below made on the theory that the murderer in leaving the scene of the crime disposed of the revolver by dropping it in a sewer pocket. The catch basin at

the corner of Temple and Wall streets were opened to-day and search made there

The fact became known to-day for the first time that the authorities have some reason to think that Mr. Bdwards was not shot as he lay in bed in the guest chamber, where his body was found, but that he was carried into the chamber after the shouting and placed in the bed. This theory is bused on on one of the stockings worn by Mr. Edwards.

He was found in bed dressed in underclothes and stockings. stocking was wrong side out, as if the wearer had put it on that way by mis did not disclose the name of the man, but it is suspected that they have the new foreign minister, the Marquis number of small drops of blood.

HIMSELF A FREE TRADER.

(By the Associated Press.) London, Jan. 6.-Lord Rothschild in a speech at Watford to-day in support of the protectionist candidate, Thomas Frederick Halsey, the sitting member, announced himself as a "free trader" in favor of the negotiation of tariff treaties with other countries. He said he had nover hidden the fact that he was a free trader. He objected strong-ly to the taxation of the fuel ly to the taxation of the food of the people, and could not understand how in the peculiar situation of this island protective tariffs could be built up. At the same time he must also say he was In favor of negotiation, not to use the word retailation.
