

LAST ACT OF MARSHALL FIELD

He Saved the Walsh Banks Situation

HIS OPINION WAS ASKED

Committee Had Been Trying to Agree for Hours When He Was Sent for and at Once Suggested the Plan That Was Finally Adopted—Said He Would Go Ahead Himself.

(By the Associated Press.) Chicago, Jan. 17.—The last act of Marshall Field in the world of finance, in which he had become a dominant figure of recent years, was in connection with the impending failure of the Walsh banks.

It was through his influence and at his suggestion that the clearing house committee adopted the plan of liquidation which was put into effect when the institutions closed. Mr. Field presented a financial crash and a panic that might have dragged down a part of local banking houses.

The committee had been in session with Comptroller of the Currency Hilditch for hours, vainly striving to agree on a solution of the impending disaster. It was late at night before Mr. Field was appealed to. He went from his residence to where the Chicago financiers were in session.

The situation was briefly outlined and he immediately proposed the solution. Several of the committee demurred to accepting the responsibility for the deposits of the Walsh banks. Mr. Field pointed out the stock to Chicago's financial credit. If the banks should be permitted to fail and liquidated his plan be adopted. It had been said that he even declared he would go ahead himself if the banks would not.

The committee and the comptroller adopted the plan and the financial credit of the city and thousands of dollars of depositors were saved.

SENDING BODY HOME

Remains of Marshall Field Shipped to Chicago

Special Train Left New York at 11:30 O'Clock Today—City Where Merchant Prince Lived Will Put On Mourning Out of Respect to the Dead.

(By the Associated Press.) New York, Jan. 17.—The special train bearing the body of Marshall Field to Chicago left this city at 11:03 a. m. to-day, and its route will be over the New York Central and the Lake Shore Railroads. It is expected that the party will arrive in Chicago about noon to-morrow. The special train consists of five cars, a baggage car, two sleepers, a dining car and observation car. Dr. Frank Billings, Mr. Field's family physician, who is one of the party returning to Chicago on the special train, said to-day that all the members of Mr. Field's family were in good health, that they had borne well the strain of watching at his bedside during his illness.

It was announced to-day that Mr. Field would be buried in Graceland Cemetery. It is still undecided whether the funeral will be held from his residence at 1,900 Prairie avenue or from the First Presbyterian church.

Chicago, Jan. 17.—Out of respect to the memory of Marshall Field, who died yesterday in New York, the Field wholesale and retail establishments in Chicago were closed to-day and will remain so until Saturday.

All the stores on State street, Chicago's greatest retail street, and probably the largest establishments elsewhere in the business district, will be closed for two hours Friday. Directors of the Field Museum of Natural History have ordered the institution closed all day Friday. Attaches of the museum will wear badges of mourning for thirty days.

Chicago, Jan. 17.—The following resolutions were adopted unanimously by the Chicago Clearing House Association at a meeting held yesterday:

"Resolved, That the City of Chicago has suffered an irreparable loss in the death of Mr. Marshall Field. The members of the Clearing House Association from time to time enjoyed the benefit of his judgment and advice. His views were always wise and just.

"His life, which was passed in this city, accorded an example of industry, integrity and ability which well entitled him to the affection and respect of his fellow citizens."

HUMOR COVERED HEAD AND SCALP

Battered With Itching for a Long Time—Found No Relief Until Cuticura Was Used—Almost Lady Now Completely Well.

WISHES SUCCESS TO CUTICURA REMEDIES

"After using Cuticura Soap, Cuticura Ointment, and Pills, I am very glad to say my misery is relieved. The itching humors of the head and scalp, which were bothered with pain to a degree, I did not get the Cuticura Remedies more than three times before I began to get better, and now I am completely well. I suffered with this humors on my head, and found no relief until I used the Cuticura Remedies. I think I used several boxes of Cuticura Soap, three boxes of Cuticura Ointment, and two boxes of Pills. I am doing all I can to publish the Cuticura Remedies, for they have done me good, and I know they will do others the same. With best wishes for your success." Mrs. Mattie Jackson, June 12, 1905. Mortonsville, Ky.

12 YEARS' SUFFERING

Cured Sound and Well By Cuticura Soap and Cuticura Ointment at Expense of 75c.

"I had been suffering for twelve years with a sore on my limb, and had physicians give me treatment, and none gave me any relief until I got hold of the Cuticura Soap and Ointment, and I was cured sound and well with one box of Cuticura Soap and one box of Ointment. I have confidence in Cuticura and I would not take ten dollars for one box if I knew that I could not get any more." D. M. Robertson, Sept. 26, 1905. Newton, Minn.

WEST WON'T ABOLISH

Football too Good a Game to Lose

So Say Authorities at the University of Chicago—Reforms are Needed, and That is Why Conference of Western Colleges Has Been Called.

(By the Associated Press.) Chicago, Jan. 17.—Members of the faculty of the University of Chicago believe the wave of football abolition will not strike the conference of colleges of the West. Dr. J. E. Rappert, acting head of the department of physical culture, and dean E. B. Hubbert, head of the divinity school and a member of the athletic board, hold that none of the middle West institutions will do away with the game.

"I know that we would not think of abolishing the game at Chicago," said Dean Hubbert last night. "It is by far too good a game to lose. There are too many level-headed men in the West to see a game going away with the sport. Reforms are needed, it is true, and it is expressly for this reason that the football conference will be held here on Friday. All talk of abolishing the game at any Western college," in the "big nine" is pure nonsense." Prof. Albin W. Small, head of the department of sociology and one of the most influential men on the faculty, said: "It is nonsense to talk of abolishing football. I do not believe any representative of the college will advocate abolishing the game at the meeting on Friday. I am certain Chicago will not change its rules will not do away with it. It is the men behind the game, the officials and the spirit of the universities that count."

AT CROWELL'S OLD STAND

AN UNLICENSED AGENT SKIPPED

Insurance Commissioner Had A. A. Clark Arrested

TRIAL AT CHARLOTTE

Agent Was Adjusting Losses on Southern Cotton Mills Plant Which Was Insured in New England—Company Not Licensed in This State—Good Samaritans Cut Out.

Insurance Commissioner J. E. Young returned this morning from Charlotte, where he and his assistant, Capt. W. A. Scott, had arrested a young man, Arthur A. Clark, of New York, for doing insurance business in North Carolina without license. Clark, however, skipped town before his trial and forfeited a \$200 bond, which goes to the school fund of Mecklenburg county. The case presents some novel features. Insurance Commissioner Young learned Sunday that persons were in Charlotte adjusting the losses on the Southern Cotton Mills plant for companies which had not paid the required license tax to do business in this State. Capt. Scott went to Charlotte Monday morning to investigate the matter. He went to the scene of the fire and found men there busily engaged adjusting the loss. A warrant was secured for the arrest of A. A. Clark and, armed with this, Capt. Scott returned and demanded of Clark his license and what companies he represented. Clark refused to tell. Mr. E. W. Thompson, of Charlotte, stood Clark's bail of \$200 for his appearance last afternoon before Magistrate Hilton.

At the hour appointed for the trial Clark did not appear and he seems to have skipped. The officers of the Southern Cotton Mills will not give the names of the companies in which the plant was insured. They are said to be New England mutual assessment companies and have no license in this State. Insurance Commissioner Young thinks that there were at least eight of these companies and that the State has lost \$2,500 and possible fees by their operating in North Carolina without license.

Insurance Commissioner Young has prohibited the Good Samaritans of Washington, D. C., a colored concern, from doing business in the State. It has about fifty-three lodges scattered throughout North Carolina. Two of these lodges are said to be located in Raleigh. However, there is another branch of the Good Samaritans which has a license in North Carolina and is not prohibited. There is one lodge of this branch in Raleigh.

DURHAM WORKS FOR ORPHANAGE.

(Special to The Evening Times.) Durham, N. C., Jan. 17.—The members of Tar Heel Council, No. 2, of this city have pledged \$1,200 for the purpose of bringing the proposed Junior Order Orphanage to Durham. The East and West Durham Councils will also assist in this work. In addition to the substantial pledges made last night the council appointed committees who are now at work asking donations from the business men of Durham. Two years ago the question of establishing an orphanage by the Juniors was agitated and then Durham offered a site and the largest cash donation of any town.

A BIG BANQUET AT WILMINGTON JAN. 31ST.

(Special to The Evening Times.) Wilmington, N. C., Jan. 17.—Senator F. M. Simmons, Congressman G. B. Patterson, Congressman John H. Small, Hon. Joseph A. Brown and other distinguished speakers of State and national reputation have accepted invitations to address the business men of the city at the annual banquet of the Chamber of Commerce, the date for which has been definitely fixed as Wednesday night, January 31st. The banquet will be at the Orton.

In addition to the speakers from abroad it is also proposed to have brief addresses from a number of Wilmington men, each qualified to speak upon some particular line of commercial endeavor at the port.

The Student Movement.

(Special to The Evening Times.) Trinity College, Durham, N. C., Jan. 17.—Since the visit of Mr. R. M. Harper, traveling secretary of the Y. M. C. A., in behalf of the student volunteer movement, our organization has been doing some good work in this direction. Trinity is expecting to send the four delegates allotted to us, and a number of other men are going. This is the fifth of these conventions. It will be held in Nashville February 28 to March 4.

DIZZY?

Are you dizzy? Does your head swim? Do your eyes blur? Is your stomach sick? In women, these symptoms are often signs of disordered nervous system, or of liver or heart trouble, brought on by carelessness in regulating the menstrual functions. These functions are even more important to women than the bowel functions to either sex. Even if there is no stoppage, still, a gentle, cleansing, menstrual draught should be taken now and then—every doctor will tell you so. Otherwise the menstrual blood will decay inside you, and will be absorbed into your system, causing such pain and suffering as will make you lose all interest in life.

To cure yourself, take woman's best and safest remedy, menstrual cleanser, tonic and pain reliever, is the old, reliable, time-tested medicine, which, for over 70 years, has been a household word in America, viz:

LET COURTS DECIDE IT

National Board of Trade on Railway Legislation

Meeting in Washington Today Declined to Endorse Rate Making Proposition, But Offered Substitute Which It Believes is More Satisfactory.

(Special to The Evening Times.)

Washington, Jan. 17.—The National Board of Trade, which is made up of the leading commercial bodies throughout the country, at its session here today adopted resolutions advocating the determination of questions of railway rates through the Federal courts. The meeting declined to adopt resolutions in favor of conferring rate making power upon the interstate commerce commission and took the course indicated as a solution satisfactory to the commercial interests of the country. The resolutions read:

"The National Board of Trade, believing that the interests of the people demand not only that the rates of transportation should be reasonable and that there shall be no unjust discrimination or preferences, but also that there shall be effective governmental supervision of all interstate transportation agencies, expresses the earnest hope that Congress will, in its wisdom and as speedily as possible, enact such further legislation as may be necessary, with justice to all concerned, to secure prompt and complete correction of any abuses in transportation methods of operations which may, upon due inquiry, be found to exist and, to the end, that rebates and personal discriminations, in whatever form they may occur, and by what device they may be accomplished, be prohibited; the corporations and individuals who in any manner participate in them be subjected to severe penalties, and the most effective machinery practicable be provided for their detection and punishment; also believing that the government should, in the interests of the general public, including the purchasers of transportation as well as the carriers, possess means to prevent the raising of excessive rates in the schedules, it is recommended that whenever a United States court of competent jurisdiction, upon complaint of the interstate commerce commission (which complaint shall be given precedence) shall have determined that an existing rate is excessive, the commission, or some other competent authority be given power to compel the substitution of a reasonable maximum rate, such rate to go into effect within a reasonable time and to remain in force for such period, not longer than one year, as may be determined, the rate so fixed to be subject to revision in the proper Federal court, upon proof that such rate is less than reasonable compensation."

The resolutions were proposed by Mr. Clinton White, of the Massachusetts State railroad commission, and were supported by the representatives of all the larger boards of trade such as New York, Boston, Philadelphia, and Baltimore. They were passed practically without opposition.

The result is considered significant as showing the preponderating public opinion in favor of utilizing existing courts for the determination of questions of rates instead of giving this power to a centralized Federal tribunal.

A PECULIAR SUIT.

Oil Cup Flew from Side of Engine and Put Out Engineer's Eye. (Special to The Evening Times.) Durham, N. C., Jan. 17.—Next week will be the beginning of a two weeks term of court. One of the most peculiar suits brought here in quite a while is by John N. Moore, against the Southern Railway.

Mr. Moore was an engineer, and while at work running the train an oil cup flew from the engine, striking him in the right eye, destroying the sight of that eye and hurting his health otherwise. He has sued for \$25,000. The railroad contends that the accident was of such an unusual order that the road should not be held responsible for the injury.
