Increase Your Yields Per Acre

The Bounty Of The Fields

Of thousands of Southern farmers depends upon the life-long study and experience of the men who direct this business and who mix a fertilizer which "raises" crops (often a dozen) bushels of grain per acre, where only one grew before. The name of it is

Virginia-Carolina Fertilizer.
By its very liberal use, a week or two before, or at planting time, as well as second application, multitudes of farmers in the South have "raised" their yields per acre, and with the larger profits which these increased yields brought, paid off the mortgage on their farms. These fertilizers contain just the ingredients necessary to force your plants to their greatest possible fruitage. Don't be fooled by any cheap fertilizer which "cheats" substitute.

OLD STATE DOING WELL

Tar Heel Sons Sing its Praise in New York

Woodrow Wilson, F. H. Busbee and Others Speak at Annual Dinner of North Carolina Society—Negro Problem, Socialism and Automobiles.

The North Carolina Society of New York to the number of 290 had their eighth annual dinner at the Waldorf-Astoria last night. The speakers were Hon. Claude Kitchin, Dr. Woodrow Wilson, the Hon. Fabius H. Busbee and the Hon. Charles F. Moore, Randolph H. Holland, president of the society, presided. Governor Heyward of South Carolina was in town, but was not at the feast. Gov. Glenn of North Carolina sent his regrets.

A toast was drunk standing to the president of the United States and to the army and the navy.

Mr. Kitchin spoke of the race problem in his state and how the state had taken care of it. "By the moral change in the constitution the political status of half a million of persons has been fixed for the time at least," he said. "We will give the negro the rights due him, and here a new responsibility is put on the white man to see that he gets them. It is a test and trial of our honor, but the black man shall have absolute justice in everything, his rights shall be sacred. The black man has accepted the situation and sees that it is necessary for both races.

"Now he is driven to us for the protection of his wife's honor. But by it all we intend to lift him to a higher manhood and a better condition. Everybody knows that the black man will always be under the political domination of the white man, no matter in what state of the union he is. Let us not forget that he is our neighbor, and that we must look after his rights, his liberty and his prosperity. Our laws are merciful and we are pouring out money like water for him.

"North Carolina leads every state in the size of the families and in the number of the children. The record was made before the Rooseveltian theory had its rise. We have fewer foreign born population than any other state in proportion to the population. That will tell in time for the republican institutions of the country.

President Wilson of Princeton spoke on "The Young Man's Burden."

"The burden of the young man of our generation is very interesting," he said. "For in his time will be introduced some new turns in the affairs of the continent. Do you not see that the country is very large and does not consist of any one part of it? The difficulty about reform is on account of the provincialism who lives in one part of it. Others are doing as much thinking about us as we are about them.

"The thought of any country is made up of what the bulk of the common people think. The uncommon ability and the common thought make up a statesman. Only that man can head a country who can think in terms of all its parts. We have to consider that the bulk of the land does not understand the other parts thoroughly.

"Now, we are getting ready to apply the old thoughts about morals to business. Insurance policyholders are going to think straight a long distance. They will invest their thought and principles in the premiums. The companies will respond.

"The young man is the one with little money, and he will walk with an interrogation point in front of him, questioning all enterprises. The young man is the conservative. The old fellows who have been 'left' are the radicals. They thought they were going to arrive, and when they didn't come socialism and anarchy. To steer at all you must have some points fixed, and these you find in the conservative ideas of the young.

"It is the burden of the young men to take care of you. Unspooled, they ought to be able to see things as those who are immersed in them cannot see them.

"There are serious times ahead of us, and if we of sober minds don't sit right in the saddle others will

Not the mere temporary relief that the old "remedies" gave, not the little help that the doctor's prescriptions give; but **ABSOLUTE AND COMPLETE CURE.** That is what Rheumacide does. Rheumatism is caused by an excess of uric acid in the blood. It is an internal disease and requires a strong and vigorous internal remedy that will cleanse the blood of all its germs and yet act through such natural methods that it builds up the entire system.

climb up. All who have gone wrong are not bad men. Some of them are splendid men who did not have funds big enough to keep them on the right track.

"Socialistic thought is a bad thing, but to stop it you must do better thinking. But there is no evidence to show that you are doing any thinking. You think that as long as you can sit tight everything will be all right, but pretty soon the steel will get the devil in him, and begin bucking. You must soon do some of the best riding you have ever done. We have given too many pledges to the world to go wrong. We can't afford to let the world think that the bucking horse will get the upper hand of us.

"Nothing has spread socialistic feeling in this country more than the use of automobiles. To the countrymen they are a picture of arrogance and carelessness. And the country is not all made up of those cooler spirits whom reflection will pacify. Our opinions are largely dependent on what part of the country they are formed in. Yet it doesn't indict the whole nation that a few are crazy.

Among those present were Howard R. Bayne, Dr. William M. Polk, Justice Bischoff, the Rev. J. Novitt Steele, F. H. Busbee, John H. Finley, Alfred P. W. Seaman, Col. C. E. Thorburn, Marion J. Verdery and W. L. Penfield.—New York Sun, February 28.
