HAMILTON DECLINES CHADWICK MEETINGS

To Appear Before Fowler Earnest, Simple Words of Englishman Move Hearts

Charges Committee With Undue Haste In Its Charges Against Him and Says If It Had Waited a Little More Justice Would Have Been Done All Around.

(By the Associated Press.)
New York, March 21.—Andrew Hamilton, former legislative agent for the New York Life Insurance Company, today sent a reply to the Fowler investigating committee of that company, declining to appear before the committee to be examined as to his work for the company.

In his reply he charges the committee with undue haste in its charges against him, and says that if the committee had waited a while and not rushed so soon into print with premature conclusions it would have been in a better position today, and more justice would have been done to him and to the policy holders.

The communication is in response to an invitation sent to Mr. Hamilton soon after his return from Europe, in which he was asked to furnish evidence to the Fowler committee.

A STANDARD FOR MILK PRESCRIBED.

Printed copies of rules and regulations governing the sale of milk in the city of Raleigh as adopted by the Board of Milk Commissioners at a meeting held March 7, are being distributed about the city. They were prepared principally by Prof. F. L. Stevens, bacteriologist and chemist to the board. The duties of the milk inspector are defined as well as those of the bacteriologist and chemist and the duties of the dairymen. The following rules indicate the standard prescribed as to the quality of the milk sold in the city:

Rule 6. Upon notice from the bacteriologist and chemist that in milk from any dairy the fat content falls below 3.5 or the total solids as determined by calculation from the specific gravity and fat content falls below 12 per cent, the dairy shall receive notice that the milk is below the required standard. Upon second notice the license shall be revoked.

Upon notice that the bacterial content of milk from any dairy exceeds 500,000 per cubic centimeter, the dairy in question shall receive notice to that effect and advice from the milk inspector as to changes necessary to correct the difficulty. Upon second notice the license, at the discretion of the board, may be revoked.

Upon notice of preservations in milk from any dairy the license of that dairy shall be revoked.

Upon notice that conditions leading to improve milk exist in any dairy, that dairy shall receive warning; upon second notice concerning the same dairy, the license shall be revoked.

His Plain Exposition of Bible Truths Last Evening and This Morning—Christian the Bride of Christ—Service Tonight.

The series of consecrative and evangelistic meetings, held by Dr. Chadwick of Leeds, England, began last evening in the Edenton Street Methodist church, before a congregation which even occupied the standing room in the church.

Dr. Chadwick is a plain, simple, unassuming speaker. His first theme was, "Blessed are the pure in heart," and this subject was treated in an earnest conversational manner which carried the truths strongly home to the hearts of his hearers. There is no attempt at high-flown oratory, not a harsh word or a severe criticism, not a sensational statement, simply an earnest plea for a closer and more complete consecration on the part of Christians and a loving invitation to all to become the disciples of the Master.

The song service is conducted by Mr. Lorenze, and the hearty singing by the congregation adds to the effectiveness of the devotional hour. At the second service, which was held at 10.30 this morning in the Edenton street church, Dr. Chadwick took his text from Isaiah, 62 chapter and 5th verse, "As the bridegroom rejoiceth over the bride, so shall thy God rejoice over thee."

Dr. Chadwick in chaste and tender words spoke of the holiness of marriage and its repeated interpretation in the Bible. He said that he did not blame the Roman Catholic church for lifting it to the sanctity of a sacrament; surely the sacred bonds of marriage come next to the ordinance of the church. He brought out the teaching of the Scripture that the Christian was the bride of Christ, and told what this holy compact meant and what faithful and whole-hearted service it required on the part of the Christian.

This afternoon at 4 o'clock in the same church, Rev. Len G. Broughton of Atlanta, who accompanied Dr. Chadwick here, will preach. This evening at 7.45 in the Edenton Street church Dr. Chadwick will conduct the service.

THE KING OF BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE."

It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin

S.S.S.
PURELY VEGETABLE

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

Gentlemen.—S. S. S. is used as a family medicine in our home. I myself have taken and always found it what it is claimed to be. It thoroughly cleanses the system of impurities, increases the appetite, improves the digestion, and builds up the general health. I have given it to my children with the results. It promptly restores the appetite and clears the skin of all eruptions. It is a very fine blood tonic and has my hearty endorsement.
