CALL TO LABOR UNIONS 5 NEGROES BREAK JAIL

Mass Meeting in Asheville Force Door and Bars of Craven's Calaboose

Under Auspices of Central Labor Union to Express Sympathy With Officials of Western Miners' Union Under Arrest in Idaho.

(Special to The Evening Times.) Asheville, N. C., March 22.—Members of the various organized labor unions of the city and others will hold a mass-meeting at the court house this evening under the auspices of the Central Labor Union for the purpose of expressing sympathy with President Charles H. Moyer and other officials of the Western Miners' Union, under arrest and now in jail in Idaho, charged with the murder of ex-Governor Steuneger, who was blown up by a dynamite bomb during the latter part of December, 1905.

The official call for the mass-meeting tonight is signed by M. A. Creasman, president, and Phillip Neal, secretary. The call states that the object of the meeting is "For the benefit of working people of all classes."

While this is one of the objects of the meeting union men are authority for the statement that the primary object of the gathering is to take action relative to the arrest of the western mine leaders and to adopt resolutions condemning the arrest and imprisonment of alleged innocent men. Among those who are down for addresses are J. M. Stoner, J. M. Westall and others.

Governor Pattison Better.

Columbus, O., March 22.—According to information from Governor Pattison's residence today, he is better than last night, although he was in bed at the time the information was given. The governor has a severe cold and fever. Two physicians stayed at his lounge last night. It was stated today that the governor passed a fairly restful night.

TUCKER DRUG COMPANY.

At 4 O'clock This Morning They Wrenched Bars Out of Cell Doors and Battered Out Grating in Window.—Reward of \$10 for Each Man.

(Special to The Evening Times.) New Bern, N. C., March 22.—Five prisoners escaped from Craven county jail at 4 o'clock this morning. They wrenched bars out of cell doors, and with a large plank forced open a door between the corridor and lobby. With the same plank they battered out the grating in the window.

A reward of \$10 for each man is offered by Sheriff Hiddle. Following are the names of the men: Ed. Banks, yellow, age 25, weight 175; Harry Douglass, very black, face bumpy, five feet tall, weight 150 pounds; Will Jones, ginger bread color, slender, weight 130 pounds, age 21; Cornelius Staton, dark, weight 150 pounds, height 5 feet, age 25; Cleveland Taylor, dark, weight 180 pounds, height 5 feet, age 22 years.

Will Jones has surrendered to an officer. He was seen on the street, and having no good chance to run gave himself up without resistance. It is said that two others are being pursued.

A STEAMER AND SCHOONER COLLIDE

(By The Associated Press.)

Cape Henry, Va., March 22.—The German steamer San Miguel, bound from Baltimore for Port Maria, and the schooner Ralph M. Hayward from New York collided 12 miles off here at 10 p. m. last night, heading west, north-west. The schooner is leaking badly and is beached at Lyn Haven Inlet.

The tug North America has gone to her assistance. The steamer San Miguel proceeded to Baltimore this morning. Her main mast was carried away, and deck trimmings and stack were dismantled. A large hole appears on the water line, on the port side, aft amidships.

Norfolk, Va., March 22.—The four-masted schooner Harry T. Hayward, Captain Coleman, from Punta Gorda, Fla., to Baltimore, loaded with phosphate rock, was the sailing vessel in collision with the German steamer San Miguel off Virginia Beach last night.

The San Miguel, taking the Hayward in tow, brought her to the Virginia capes, where she was picked up by the tug M. L. Marshall, Davis and beached.

The schooner Hayward seems to have suffered more than the steamer, but no one aboard either vessel is reported hurt. The schooner is a vessel of 1,050 net tons, and was loaded with something like 2,000 tons of dead weight cargo. While the San Miguel is a steamer of only 394 tons, and was light bound from Baltimore to the West Indies to load fruit for the states, the steamer is considerably hurt, and will require a good many repairs after reaching Baltimore. Her mainmast and funnel were broken off and deck fittings are either gone or badly damaged.

PRINTERS' STRIKE IN NORFOLK OFF

(By The Associated Press.)

Norfolk, Va., March 22.—The printers strike in Norfolk, to have gone into effect next week, was today declared off. All of the employing printers of the city agreed to concede the eight hour day, beginning March 25. The nine hour day prevails in the job offices and one hour will be cut off without effecting present wages.

Some of the members of the Typographical Union declined to sign the eight hour agreement, but promised to work their shops on the eight hour basis. The Typographical Union conceded the point and the result is a harmonious arrangement in the place of differences that otherwise might have created chaotic conditions.

THE JURY HAS BROCK'S CASE.

(By The Associated Press.)

Philadelphia, Pa., March 22.—Judge McPherson, in the United States circuit court today, delivered his charge to the jury which for over a week has sat in judgment on George Philler Brock, former cashier of the Doylestown National Bank, indicted for embezzling, abstracting and misappropriating about \$4,000 of the funds of that institution. Henry Lear, brother-in-law of Brock, and former president of the bank, was convicted on similar charges, and is now under \$10,000 bail. His case having been appealed, immediately following the delivery of Judge McPherson's final instructions the jurors retired.

Because of Liquezone," is a Tale Told Everywhere.

We Paid \$100,000 for the American rights to Liquezone, after hundreds of tests had been made with it. After its power had been demonstrated, again and again, in the most difficult germ diseases. These we spent, in two years, more than ten times that sum to let others test it at our expense. The result is that millions of people, scattered everywhere, have shared in the benefits of this invention.

What Liquezone Is.

The virtues of Liquezone are derived solely from the gases, by a process requiring large apparatus, and from 2 to 14 days' time. No alcohol, no narcotics are in it. Chemists of the highest class direct the making. The result is to obtain from these harmless gases a powerful tonic-germicide. The great value of Liquezone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin; and this gas-made product, when absorbed by them, stops their activities. We publish an offer of \$1,000 for a disease germ that it cannot kill. But to the deadly Liquezone is exhilarating, vitalizing, purifying. It is helpful in the extreme.

That is its main distinction. Common germs are poisons when taken internally. That is why medicine proves so nearly helpless in a germ disease. Liquezone is a tonic.

"I'm Well

Because of Liquezone," is a Tale Told Everywhere.

We Paid \$100,000

Germ Diseases

Most of our sickness has, in late years, been traced to germ attacks. The list of known germ diseases now numbers about one hundred. Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some destroy vital organs, as in Consumption. Some—like the germs of Catarrh—create inflammation; some cause indigestion. Directly or indirectly, nearly every serious ailment is a germ result. Such diseases call for Liquezone—not drugs, which can't kill germs.

Every germ attack, no matter what its symptoms, calls for a germicide. The mildness of Liquezone makes some of its results seem almost incredible. But in that mildness lies the power that

germ diseases need. And diseases which have resisted medicine for years often yield at once to it.

MORE EVIDENCE IN THE SPRIGGS CASE

(By The Associated Press.)

New York, March 22.—Testimony corroborating that given by Hattie Warren and Cora Chester yesterday in the trial of Robert Spriggs, colored, proprietor of a resort where it is alleged white women were detained against their will, was given at today's session of the trial by Henry Berbenich, a policeman.

Berbenich was one of the officers who raided the Spriggs place on July 25 last. Counsel for Spriggs moved for acquittal on the ground that the evidence did not warrant a conviction, but the court denied the motion. Mark Alter of Spriggs' counsel said in his address to the jury that he would show that Hattie Warren had become a voluntary inmate of Spriggs' house, and that she is "under indictment for a most heinous crime." Spriggs then testified in his own behalf.

Battleship New Jersey.

(By The Associated Press.)

Quincy, Mass., March 22.—The battleship New Jersey, which was constructed for the government by the Fore River Shipbuilding Company, left the Fore River dock today for a run through Massachusetts Bay for an unofficial test of her engines and crews. It was planned that the warship would anchor at Boston harbor tonight, and that on tomorrow she would be placed on the drydock at the Charlestown navy yard. The official trial trip of the New Jersey will be held on March 28 or 29, when she will be required to make 19 knots an hour.
