

MRS. NORRIS' SUIT
Charges Uttering and Publishing Defamatory Words

Formal Complaint Filed Yesterday Evening in \$50,000 Damage Suit By Mrs. C. A. Norris Against North Carolina Home Insurance Company.

Yesterday evening the complaint in the damage suit brought by Mrs. C. A. Norris, wife of Mr. M. T. Norris, against the North Carolina Home Insurance Company for \$50,000 on account of alleged libel and slander, was filed in the office of the clerk of the superior court. Summons in this suit was issued the other day, as reported in The Evening Times.

The complaint, after recital that Mrs. C. A. Norris has been many years a resident here, that the North Carolina Home Insurance Company is a corporation of the state, that Mrs. C. A. Norris on November 17 and prior owned a tract of 51 acres on the Avenis Ferry road, known as the W. H. Norris home tract, upon which was located a two-story frame house which was burned and consumed by fire on the night of November 17, sets forth:

"That at the time of said fire the said building and additions attached were insured in the sum of \$500 and the said insurance at that time was for the benefit of the plaintiff.

"That on or about the 14th and 15th days of March, 1906, and on divers other occasions prior to the institution of this suit, as the plaintiff is informed and believes, the above named defendant corporation maliciously and with intent to defraud and injure the plaintiff, uttered and published the following false and defamatory words, to wit: 'That the said fire (meaning thereby the fire referred to in paragraph four above) by which said building (meaning thereby the dwelling house and additions described in paragraph three above) was consumed was the work of an incendiary and the circumstances attending said burning were such that the defendant (meaning thereby the above named corporation) is informed and believes that the same was done by some one in the interest of the alleged owner' (meaning thereby the above named plaintiff) and in order that she might recover the amount of said insurance (meaning thereby the insurance referred to in paragraph five above)."

Further, that the corporation, as the plaintiff is informed and believes uttered and published of and concerning the said plaintiff certain false and defamatory words of like import and meaning with those particularly set forth in paragraphs six and seven of this complaint."

HOW HEART AFFECTS WATCH.
Timepiece is Uncertain if That Organ Is Irregular, Says a Watch Maker. Nobody would ever think that something the matter with him would cause something to be the matter with his watch, but a watch maker is the cause of much uneasiness in an East End family, and all because he insists that he does his best with a certain watch and that the reason it does not keep good time is because the man who carries it must have an irregular heart beat.

It came about in this wise: The head of the family has a gold watch that cost him \$200 ten years ago. He has carried it ever since, but a year ago it began to act queerly. For some days it lost time, and then it began to gain time; again it would gain time mysteriously and then strangely lose a minute or two a day. It had been to the watch repairer three times in twelve months, and was still acting irregularly a week ago when the man's wife took it to the watch-maker.

"I think I know what is the matter with this watch," said the craftsman. "I don't believe that your husband's heart beats regularly. Now, don't get alarmed. It is not necessarily disease. He may be just one of those men who can't have a watch that keeps good time, simply because of their irregular heart beats."

"You see, a watch has a regular rhythmic movement," said the watchmaker. "It is carried close to the human heart, which ought to have a regular rhythmic movement, too. Now while the watch is beating away the heart is beating also. If its pulsations occur regularly, punctuating the rhythm of the watch at specific intervals, the rhythm of the watch movement is undisturbed; but let the heart pulsations occur irregularly, now pulsating with the tick of the watch, again stopping discordantly in between the ticks, the watch is bound to be affected. Leave this watch here, and let your husband carry your watch, which, we know, keeps regular time. Let him wear it a month, and see if I am not right."

So the woman handed her husband her watch to note the result. She wanted him to consult a specialist immediately upon her return from the watchmaker, but he compromised by agreeing to try the test suggested by the watchman.—Pittsburg Gazette.

The most healthful, upbuilding medicine known to science; gently soothes the liver and nerves, makes digestion easy, brings to all the sweet sleep of youth. Hollister's Rocky Mountain Tea. 35 cents, Henry T. Hicks & Co.

Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all suffering from the same disease, the disease, the physician, ignorant of the cause of suffering, encourages this practice until large bills are made. The suffering patient gets no better, probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that a disease known is half cured.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system.

As a powerful purifying tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "run-down" "run-down" debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve-tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.
