

NOTED PEOPLE MAKING BRICK

Working on the Mammoth Penitentiary Kilns

CONVICTS DO THE WORK

Jim Wilcox, Bishop and Ed. Utley Among the Number—Capacity of Kilns 40,000 Per Day—Over 500,000 Lost By Recent Rains and Freezes—T. W. Dewey a Hospital Attendant—Major Martin on State Farm.

The manufacture of brick is the principal work to which the convicts confined within the walls of the state penitentiary are subjected.

These brick besides being of very excellent quality, are made, many of them, by exceptionally noted people, since among the convicts who work in this department much of the time are such prisoners as Jim Wilcox, serving twenty years for the killing of Nellie Cypriess at Elizabeth City.

The Richmond traveling man whom Governor Glenn a few weeks ago declined to pardon from a sentence of five years for shooting to death Thomas Wilson at his home in Charlotte.

Referring to noted prisoners, it is interesting to know that Thomas W. Dewey, who is serving a six year sentence for embezzlement while he was cashier of the Farmers and Merchants Bank of New Bern, is just now devoting his time to work in the prison hospital.

Major W. H. Martin, who is serving ten years for the embezzlement of \$16,000 from the state treasury while he was institutional clerk under State Treasurer W. H. Worth, has been for quite awhile, in fact, for the past year or two, doing service on the state farm, much of the time as steward of the convict camp there.

There are less than 60 convicts consigned to the penitentiary now, and not more than 100 are in the central prison, the others being at work on the state farm and on the Raleigh & Pamlico Sound railroad and other works of that kind.

There are about forty-five women, the great majority being colored. The latter are kept at the farm, the work of those on the farm, as well as those kept in the prison being principally the making and repairing of the clothes worn by the convicts.

Getting back to the matter of the manufacture of brick in the prison stockade, it is of interest to note that during the past two or three months not

less than 200,000 brick have been lost by being damaged by freezing and by the heavy rains. These are of course not a total loss, since the spoiled brick are reground and remoulded, making thereby all the better brick when they are finally successfully burned.

Superintendent Mann has stacked away on the yard for use in the kilns and in the prison the biggest lot of wood ever gotten together in these parts. He has five thousand cords, mostly of eight foot pine and estimates that this will carry the prison through the summer months in the burning of brick. There is a large stock of wood twice as high as the stockade and half the length of the enclosure in the end of the grounds where the brick kiln is located.

The output of the penitentiary kilns is sold several months in advance, so great is the general demand for building material. It is for this reason that the authorities have offered to furnish the money and labor for putting down granolithic pavement in the capitol square walks this spring instead of having the work done with penitentiary brick as was provided in the special act of the last legislature.

The estimates for the work are now being made by Prof. Kiddlek of the A. & M. College, and the whole matter will be finally settled when the board of directors meets in monthly session here next Wednesday. The probable outcome will be that provision will be made for putting the granolithic pavement down on at least the four principal walks of the square, including the taking up of the present brick pavement leading from the Fayetteville street and Halifax street entrances to the state house and the substitution of the granolithic pavement.

WATER BETTER THAN MEDICINE

Physicians, in Many Instances, Now Prescribing Mecklenburg Water, and Recommending Treatment at Chase City.

The genial Col. W. T. Hughes, president of the Mecklenburg Mineral Water Company, of Chase City, has just issued a handsome booklet of which he has a right to feel very proud. It is a most remarkable little publication, containing as it does many of the most flattering testimonials ever printed in behalf of Mineral Waters. A large number of these testimonials are from physicians of renown—men of the medical profession of the highest standing. Not a testimonial was given only by those who had been to the Springs or drank the water at home. In other words every person offering a testimonial was instigated by results obtained after having used the Mecklenburg Water.

Colonel Hughes will send this booklet to anyone who may wish a copy of it. It is handsomely illustrated, gives the analysis of the water, and contains much interesting information.

There is much good being accomplished at the Mecklenburg Hotel and Sanitarium, Chase City, by both the use of the water and the unequalled baths. Nearly one hundred people are at this all-the-year-round resort now. The Mecklenburg Water is probably the South's greatest panacea in the cure of many diseases—notably, indigestion, kidney and liver troubles, rheumatism, skin diseases, etc.

The splendid testimonials printed elsewhere in the Times today should be read by everyone suffering from whatever disease.

Take LAXATIVE BROMO QUININE TABLETS. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

UNIONS PLAN TO FIGHT DUNNE

Chicago Not in Favor of Municipal Ownership

FEAR OF LOWER WAGES

Resolutions Adopted Attacking Socialistic Idea By 29 Unions—All Members Urged to Study Question Carefully Before Agreeing to Give It Their Support.

(By the Associated Press.)

Chicago, March 31.—Strong resolutions threatening a strike of five hundred city employes and attacking municipal ownership of street railways were passed at a meeting last night of the associated building trades, composed of twenty-nine unions and representing 35,000 building craftsmen in Chicago.

In the resolutions it was charged that Mayor Dunne and the council finance committee have refused to make provision for the payment of standard wages to mechanics in the employ of the city despite the receipt of numerous requests from labor unions.

The resolutions also set forth that while the organization does not wish to go on record as being for or against the principle of municipal ownership, it cannot be in sympathy with it if affiliated unions do not receive just treatment from the city. All trade unionists in Chicago are urged by the resolutions to give the matter full consideration and members of the street railway employees' union are requested to make a thorough investigation of municipal ownership of street railways before supporting the operation of such a plan in Chicago.

BURGLARS ROBBED THREE POSTOFFICES

(By the Associated Press.)

Camden, N. J., March 31.—Two crackmen early today dynamited the safe in the postoffice at Bridgeport, N. J., about twelve miles south of here and escaped with \$275. The explosion aroused Frank Springer, whose home is opposite the Springer building in which the postoffice is located. Mr. Springer opened the window of his room and attempted to give an alarm, and one of the burglars shot at him, the bullet imbedding itself in the window sash. The robbers made their escape in a wagon stolen from the farm of Edward Sharp.

Bridgeport, Conn., March 31.—The general store of C. M. Hatch, in which the postoffice is located, was broken into and robbed early today; the robbers getting several thousand dollars after blowing open the postoffice safe. The men stole a horse and wagon from Postmaster Hatch and got away.

Richmond, Va., March 31.—Early this morning the postoffice at the University of Virginia was entered by burglars, the safe blown open with dynamite and \$200 in cash and a large quantity of stamps stolen. There is no positive clue to the robbers as yet.

CHAPEL HILL ORATORS.

Love and Parker Will Uphold Claims Against the Georgians.

(Special to The Evening Times.) Chapel Hill, N. C., March 31.—The annual debate with the University of Georgia will be held in Gerard Hall at Chapel Hill on the evening of April 12. In Messrs W. B. Love and J. J. Parker, who have been selected as Carolina's representatives, the University has one of the strongest debating teams that has ever represented the institution.

Mr. Love is a member of the senior class and he is a strong practical speaker. This will be his first appearance in an intercollegiate debate, but he has had considerable experience in the halls of the Dialectic Society, of which he is an influential member.

Mr. Parker is a member of the junior class and he is one of the most forceful orators in the University. He is a rapid thinker and a convincing and persuasive debater. Although he has never participated in an intercollegiate contest before, he gained considerable knowledge of debating last year as a member of the scrub debating team which contested with the members of the team that represented Carolina in the debate with Georgia held at Athens. Mr. Parker is also a member of the Dialectic Society. It will be remembered that Carolina was victorious in the debate just mentioned and the members of this year's team hope to achieve the same success.

TO DEBATE IN RALEIGH.

Wake Forest and Mercer College Meet Here Easter Monday.

(Special to The Evening Times.) Wake Forest College, March 31. There is much interest here in the intercollegiate debate that will be held in Raleigh on the night of Easter Monday. Our representatives, Messrs. T. B. Ashcraft of Monroe, Jesse Weatherspoon of Durham and Liston Jackson of Marion, S. C., alternate, are preparing for the contest and so are the students also. There will be only a few, if any, of the students who will not go to Raleigh at the time to support our

speakers. A special train will probably be run for the occasion. If not, reduced rates will be given. The debate will be held in the Academy of Music.

Wake Forest is not the only institution that is preparing for this contest; for she is not the only one interested. The men who are to represent Mercer University are also working on their speeches, and from the following quotation from a letter from that institution it will be seen that the debate promises to be a hotly contested discussion.

The letter from Mercer says: "There is now at Mercer healthful enthusiasm and genuine loyalty. The literary societies have experienced revivals and the Mercer spirit of oratory is regaining its place. No single cause has contributed as much perhaps in this direction as the Mercer-Wake Forest debate, which is to come off in April. Those who are acquainted with Mercer's history in intercollegiate debates will recall that she has never yet been defeated. Wake Forest, it is said, has lost only one. We will be represented by Messrs. Griner and Wells, of the senior class, both of whom are strong men—strong enough, we believe, to preserve our record unbroken."

Chances Are That Raleigh Will Get Convention.

(Continued from First Page.)

each room 1,400 could be taken care of, Mr. Cobb added. Mr. Cobb said he considered that Raleigh could house over 4,000 visitors at any one time.

The Capitol Inn, across the street from the southern entrance to the capitol, has room for 100 people.

BUFFALO CALVES IN HARNESS.

When the buffalo calves were about four months old I made them do their first bit of real work. I hitched them to a heavy stone-bout, and by means of reins and ordinary pony bits, I drove them for 5 miles on the road. This trip I made them repeat several times during the days that followed, and they exhibited such splendid strength and courage as I could not have believed possible for youngsters still in their first summer. To be sure, they were a trifle headstrong, and once they ran clear away with the drag; but then even domestic steers will do this if they get a chance.

While the babies were getting used to the yoke, I had made two sets of harness, single and double, and a cart with both pole and shafts. Instructions concerning the making of the cart were few; it was to have but two wheels, and be strong enough to stand the impact of an express train. The two calves took their first experience in single harness quite differently. War Whoop deliberately lay down and rolled on his harness, until I made him jump to his feet again by screaming like a wild cat close to his ear; while Tomhawk celebrated his introduction to harness by kicking and buck jumping for about twenty minutes. But the result was the same; both became used to the harness.

When finally the cart was ready, I hitched them to it, first in the yoke and then in double harness. At the very start there was usually an inclination to run away, but I made this impossible by hitching the heavy drag to the axle of the cart and applying the brake. But after the first two or three drives neither drag nor brake was necessary and have not since been used, even on steep hills, where the little fellows quickly learned to hold back a load.

When between five and six months old, the buffalo team was exhibited at an agricultural fair in New Hampshire where it caused a sensation by the splendid speed it exhibited on the track. All the farmers present admitted that no team of steers of the same age could begin to match it for either speed or strength.

Of course, nothing is absolutely proven by a single experiment of this kind. But this I am inclined to believe, that although more difficult to break, when once broken buffaloes will prove faster, stronger and better of courage and endurance than domestic oxen. If any one doubts this, I know two sturdy, hairy little buffalo bulls that would hugely enjoy an opportunity to try conclusions with their domestic cousins.—E. H. Baynes in Harper's Weekly.

NATURE TELLS YOU.

As Many a Raleigh Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

W. R. Hood, formerly of 311 south Bloodworth street, employed in Whipple & Company's grocery store, says: "When I got my first box of Doan's Kidney Pills at the Bobbitt-Wynne Drug Company's store my kidneys had been giving me considerable trouble for a long time. I had a constant dull aching pain in the small of my back and across the hips, and my urine was very irregular. Some times I had to get out of bed half dozen times during the night. Then again it would be very scant. Then was when I had the most pain and worst pain in my back. The secretions were very dark and contained a heavy sediment. Since using the pills I had not had the pains at all and the secretions have been cleared up to their normal state."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York sole agents for the United States. Remember the name—Doan's—and take no other.

NOTICE OF SALE OF VALUABLE CITY PROPERTY.

Under the authority and direction of a power of attorney made to me by M. T. Leach and E. B. Barbee, I will on Monday, April twenty-third, 1906, at 12 o'clock m., expose for sale and sell for cash to the highest bidder at the court house door of Wake County, the following lot of land situated in the City of Raleigh, North Carolina:

That lot of land situated at the southwest intersection of Blount and Martin streets, the brick building on which was recently destroyed by fire while used by Mr. Geo. Harding as a livery stable. Beginning at said S. W. corner of Blount and Martin streets, runs thence South along the Western line of Blount street 17 1/2 feet to the Frank Stronach line; thence West with said Stronach line 165 feet to Mrs. Lougee's line; thence North with said Mrs. Lougee's line 45 feet; thence East 46 feet; thence North 22 1/2 feet to the S. E. corner of the brick store formerly used by J. E. Pogue as a tobacco factory and G. S. Tucker & Co. for furniture, continuing said line North along the Eastern side of said brick building 70 feet to Martin street; thence East with said Martin street 59 feet, more or less, to the beginning, containing 10,182 square feet. This 20th day of March, 1906. JAMES E. SHEPHERD, Attorney. M-20-4w.

STAGE SENSATIONALISM.

Object of "Play With Mission" Said to be to Make Money. The much discussed "Clansman" is more convincing and therefore more effective on the stage than between covers, because it has the advantage of stage illusions, of fine pictorial effects, and a company of admirable actors. This work of a former popular preacher whose sensational sermons attracted large audiences when he occupied a New York pulpit is advertised as "a play with a mission." Everything about it, and especially the methods employed to exploit it, indicate that the real mission is to make money. "The Clansman" dramatizes that crime which is so often avenged by lynching. Everything in it leads up to the really dramatic and theoretically powerful scene in which the Klux Klan, making use of the device of hypnotism, brings out the horror of the crime, dwelling upon it to the last point of acceptability.—"The Players," Everybody's Magazine.
