PEOPLE'S PARTY DELEGATES MEET

May Call Convention of All
Reform Forces

ORGANIZE NEW PARTY

PEOPLE'S PARTY.
Conference Called to Order at St.
Louis by Jas. H. Ferriss of Joliet.
Will Push on for Government Own-
ership of Industries Possessing
Government Functions.

(By the Associated Press.)
St. Louis, Mo., June 27.—The national
committee of the People's Party met
in annual conference here today at the
Olympic Theatre, delegates being pre-
sent from almost every state in the
union. The gathering is for the pur-
pose of discussing the political situa-
tion and will assume somewhat the
appearance of a convention before ad-
journment tomorrow evening. It is
said that possibly the party members
will endorse a man for the presiden-
tial nomination. The conference pro-
visional committee which is advocat-
ing a mammoth national convention of
all the reform forces of the nation,
the object being to organize a politi-
cal body of unity, harmony and
strength, met at the Southern Hotel
today.

The conference was called to order
by James H. Ferriss, national chair-
man of the party of Joliet, Ill.

The conference opened with an ad-
dress by Chairman Ferriss, who
stated in part:

"This is the first meeting held by
the national committee since the of-
ficial healing of the differences be-
tween the mid-road and fusion fac-
tions of the party. The party is at
peace within itself. The nation
suffers with us, believes in our sin-
cerity and rejoices in our success.
Since peace came to the party, a co-
incidence no doubt, the nation polit-
ically has turned about face. The
people, not the money barons, make
progress in the ascendancy. The ca-
lanity howlers are now the hoisters.
Today there are no disorganizing or
discordant spirits among the national
committees. The rate bill does not
meet popular demands, but is a step
showing at least that the statesmen
desire to do something for the peo-
ple. Populists will push on for gov-
ernment ownership of those indus-
tries possessing government func-
tions. Theodore Roosevelt, Senator
La Follette and Thomas Lawson,
William Jennings Bryan, Governor
Folk and W. R. Hearst, nicknamed
populists by their Wall street despisers
are great men of their parties, and
it is their populist tendencies alone
that have made them more highly es-
teemed than their ordinary fellow
partisans. It is so recognized by
their party managers, for Bryan,
Hearst or Folk will be taken to de-
feat a republican for the presidency.
Likewise, the republicans understand
they can defeat the democrats with
no other than Roosevelt. The gen-
eral tendency for reform is revealed
in the organization of new parties
for labor and public ownership in
various parts of the nation, practi-
cally along populist lines and at-
tempts are being made to gather
these under one banner for the cam-
paign of 1908."

After an hour devoted to short
talks from different delegates con-
cerning populist principles recess was
taken.

FIRE RAGING IN COAL BUNKERS

(By the Associated Press.)
San Francisco, June 27.—Fire is
raging in the coal bunkers of the
trans-Pacific liner American at the
Pacific Mail docks.

Story of Letter to Mrs. Thaw

(Continued from First Page.)

had covered about one third of the dis-
tance to London when the shooting oc-
curred. The Minneapolis was probably
out of range of wireless communica-
tion from Sable Island yesterday. The
hope of getting word quickly to Mrs.
Thaw is by cable to London, thence by
wireless transmission from the White
Star liner Majestic, which leaves Liver-
pool at 5 p. m. today. The Majestic
should be within communicating dis-
tance of the Minneapolis next Friday.
A cable message might also be sent
to Southampton and put aboard the
Kaiser Wilhelm der Grosse, which
leaves that port today. If these steam-
ers fail to pick up the Minneapolis, a
cable message will be sent probably to
the Marconi station at Poldhu, reaching
Mrs. Thaw about fifteen or twenty
hours before she arrives at London.
The Minneapolis will be in communica-
tion with the Lizard about 9 a. m. on
July 1, and is expected to arrive at
London the next day.

Evidence of Insanity.
Burr McIntosh, for many years a
friend of Harry K. Thaw, who was
with him just before the shooting, is
positive the man was insane. He says
that only last Monday morning Thaw
accused a person who was practically
a stranger of paying attention to his
wife, and had threatened to kill him.

"This man," said Mr. McIntosh,
"was John A. Forgiveon, a well known
real estate operator who was standing
in front of his place. Thaw approached
him, although he knew him only slight-
ly and exclaimed:

"Are you still in love with my wife?
If you are I'll kill you." Mr. Forgiveon
was amazed, and then, seeing that Mr.
Thaw was delirious, replied that he
had not even the honor of Mrs. Thaw's
acquaintance and had never seen her.
"I have known Mrs. Thaw since boy-
hood and I have noticed that in the last
few years he had been erratic in his be-
havior. I have not the slightest doubt
that he was insane when he committed
the deed."

"Mr. Thaw was jealous of his wife.
He was in love with her, and she seem-
ed to be in love with him. Within the
last few months he seemed to be pos-
sessed of a mania that everybody was
making love to her."

My interview with Mr. Thaw in the
prison of the West Thirteenth Street
station was very brief. I warned him
not to discuss his case until he had seen
a lawyer, and consequently I did not
seek to learn anything from him con-
cerning it. His first question was,
"How's Evelyn?"

The only statement secured from
Mrs. Thaw was one made while she
was on her way to the office of her at-
torney yesterday. She said:
"The incident last night is too painful
to discuss. I am not a fanatical man
of justice. I am here with my lawyer,
and I shall not try to get away."
"I hope poor Harry will soon get out
of his trouble. I did not think he would
do it."

Harry K. Thaw's first night in the
Tomb's prison under a charge of murder
was an uneventful one. He retired
early, slept soundly and peacefully
through the night, and arose appar-
ently rested and refreshed. Thaw's
whole appearance was changed today.
He seemed much brighter than at any
time since the tragedy, and for the
first time since he has been in cus-
tody he appeared to take a lively in-
terest in his surroundings. He was
neatly and partly dressed when the
morning gong sounded at 7 o'clock,
and greeted the guard when the officer
visited his cell. After a light break-
fast, which was supplied by the prison
custody, Thaw asked for and was given
all the morning newspapers. He
glanced through them hastily, giving
particular attention to the headlines
and illustrations in connection with
the story in which he was the central
figure.

He seemed to be greatly pleased
when informed that Mrs. Thaw had
expressed intention to visit him in the
prison during the day.

According to the prison officers,
Thaw began to regain his composure
soon after he was placed in the cell
in the Tomb yesterday. He spent a
quiet evening, and long before the
hour for "lights out" began prepara-
tions for retiring for the night. Dr.
McGuire, the Tomb's physician, called
at the prisoner's cell just before 10
o'clock and asked if anything could be
done for him. Thaw replied in the
negative. The physician remarked
that he supposed Thaw had been ac-
customed to having a stimulant of
some kind before retiring, and that he
would miss it. He told the prisoner,

THAT DELIGHTFUL FLAVOR
given by the juices of luscious fruits,
ripe and fresh, makes the drinks at
our Soda Fountain so popular.
The fact that all these syrups are
absolutely pure appeals to everyone's
good sense who values health.

The
Tucker Drug Co.
The **DEPENDABLE**
DRUGGIST.....

however, that under the prison rules
he could not be permitted to indulge
his habit. Thaw admitted that the
physicians surmise was correct, and he
appeared grateful when the physician
told him he had left two portions for
him, in case he should be restless dur-
ing the night and unable to sleep.
However, he was strongly urged not to
call for them unless he felt himself un-
able to do without them. This morning
the liquor remained untouched, the
prisoner having enjoyed a good night's
natural sleep.

Seventeen letters were received in
this morning's mail at the prison for
Thaw. Most of them were from
women.

Thaw Examined.
The examination into Thaw's mental
condition by the three prominent
alienists selected for that task by the
district attorney's office was continued
today. The prisoner was taken from
his cell to the criminal court building,
where the examination was conducted
in a library adjoining the district at-
torney's office. In addition to the alien-
ists selected by the prosecution, Dr.
Austin Flint, Dr. Carlos MacDonald and
Dr. William Mabon, former superin-
tendent of Bellevue Hospital, there,
were present, Dr. McGuire, the Tomb's
physician, and Dr. Foster, represent-
ing the defense.

Funeral services over the body of
Stanford White, the murdered man, will
be held tomorrow. The body will be
taken to St. James, L. I., in a special
train. The services will be held in the
Episcopal Church, there and the body
will be buried at St. James.

Mrs. Thaw Visits Husband.
While Thaw was still in the criminal
court building undergoing examina-
tion by the alienists, Mrs. Thaw called
at the prison to see her husband. She
was accompanied by Josiah C. Thaw,
the prisoner's brother. They were
obliged to wait in the Tomb's consulta-
tion room until the alienists permitted
Thaw to return to the prison. The ar-
rival of Mrs. Thaw at the prison had
been anticipated, and a crowd number-
ing several thousand pressed around
the prison entrance when her car ar-
rived.

Mrs. Thaw was obliged to wait about
half an hour before word was brought
to her that her husband had returned
to his cell. Both she and her brother-
in-law then were subjected to search,
as is customary in the case of all vis-
itors at the Tomb. Nothing was taken
from Mrs. Thaw, but the attendant
gave Josiah Thaw a numbered check in
place of a small pen knife which they
found in his pocket. He was informed
that he could exchange the check for
the knife when he was about to leave
the prison.

Mrs. Thaw and her brother-in-law
were then conducted to Thaw's cell on
the second tier. The prisoner and his
wife greeted each other affectionately.
"You don't look very pert," she said,
as the attendant left them alone for a
long talk.

Dr. Allan McLane Hamilton, the
alienist, was called into the Thaw case
today by counsel for the defense. Dr.
Hamilton held a long consultation with
former Judge Olcott, with a view, it is
said, to select a corps of expert on in-
sanity to examine the prisoner.

PRES. CHAS. D. M'IVERS TO V. M. I. GRADUATE

(By the Associated Press.)
Lexington, Va., June 27.—The final
commencement exercises of the Vir-
ginia Military Institute, presided over
by General Scott Shipp, superintendent,
took place today, when forty-seven
graduates received their diplomas, the
largest class to graduate in a number
of years. The valedictory address was
by Cadet E. A. Saunders of Richmond,
Va., after which the diplomas and de-
grees were conferred.

The address to the graduating class
was by Charles D. McIver, L.L.D., of
North Carolina. The exercises con-
cluded in the hall with the delivery of
the Jackson-Hope medals to the first
and second graduates, Richard Stearns
Dodson of Norfolk and William Robert
Nichols of Petersburg, Va., respect-
ively.

The battalion then was marched to
the parade grounds, where the promo-
tions and appointments in the battalion
for the next session were read. The
final military ball will be held tonight
in the gymnasium.

Mrs. Huntington Dead.
(By the Associated Press.)
San Francisco, Cal., June 27.—
The mother of Henry E. Huntington
died today at the residence of her
daughter, Mrs. Holliday.

Alexander Muir Dead.
(By the Associated Press.)
Toronto, Ont., June 27.—Alexan-
der Muir, author of Canada's national
hymn "The Maple Leaf," died sud-
denly last midnight.

Two Large Stores in Roxboro Plas-
tered With "Tie Hold."
Roxboro, N. C., Feb. 20, 1906.
Gulford Plaster & Cement Co.,
Greensboro, N. C.

Gentlemen: I have just finished
up two large stores in Roxboro for
Mr. J. A. Long, and used your Tie-
Hold for the plastering, both on
laths and brick.

I must say that in all my experi-
ence as a practical builder for forty
years I have never used anything
that has given greater satisfaction.
It makes good sound work and trow-
els to a fine finish for calking or
decoration. Thus saving putty and
plaster, which frequently shells or
cracks.
