AN APPALLING LOSS OF LIFE, ETC.

(Continued from First Page.)

terior with detachments of volunteers from the army and fire departments left this morning for the purpose of establishing telegraphic communication with Valparaiso. A train which left Santiago for the north today arrived without any difficulty at Calera. Contrary to the general belief the tunnels were not wrecked, and it is hoped that trains will be running regularly tomorrow.

The government has authorized the provincial governors to spend all the money necessary to help the earthquake sufferers in their districts.

Many Crushed in Prison. When the earthquake first shook this city the prisoners in the penitentiary began singing hymns. There was no loss of life among them so far as known, but at Valparaiso the prison walls fell and crushed 140 prisoners to death.

A telephone message received yesterday from Vinar Del Mar announced that the portion of that town between the Royal Hotel and the custom house is not seriously damaged, but that the rest of Vinar Del Mar is almost totally destroyed.

President Riesco has received dispatches from La Serena, capital of the province of Coquimbo, saying that no damage has been done in the north, but that the majority of the houses in the Amagada district have collapsed, as did a hill between Valparaiso and Vinar Del Mar, destroying railroad communication between those two places.

Despite the fact that the stores of provisions here are intact, a number of merchants have considerably increased the price of provisions.

Ruin and Death in Other Towns. A great deal of damage was done at the mines in the Negotas and Calera districts. A number of houses have fallen at Talca; fifty persons were killed there and 150 wounded. At Melipilla it is believed that all the houses will have to be pulled down, owing to the severe shaking which they received from the earthquake, and at Santa Turina a number of public buildings will have to be razed. At Lillai, seventy houses fell. A number of small villages in the Terremote district were totally destroyed. At Terremote the populace tried to pillage the business house of Rose-Innis, which had remained standing, but the employees of the firm successfully defended the place.

It was stated at the observatory today that it is not likely there will be any repetition of the seismic disturbances in the near future. This has gone a great way towards calming the public mind.

It was at the request of Madame Pedro Montt, wife of the president-elect, that the municipality of Iquique has decided to devote the sum of money which had been subscribed for the celebration of the election of Senor Montt, to the relief of the earthquake sufferers.

ANOTHER VICTIM OF BANK WRECK.

(By the Associated Press.) Chicago, August 20.—Another suicide was added today to the list caused by the wrecking of the Milwaukee Avenue State Bank. Edward Kollerib, 45 years of age, who two months ago deposited \$250 in the institution, today hanged himself from a pile of lumber in sight of a number of men in boats on the lake. Several of the men hurried to his assistance but were unable to reach him in time. Friends of Kollerib claim that the loss of the money so preyed on him that for several days his mind seemed unbalanced.

Receiver Charles G. Dawes today closed the Milwaukee Avenue Co-operative Store, one of Paul O. Stensland's enterprises. The store was closed in preparation for a receiver's sale.

Short Sentences in Favor.

"The English sentence grows shorter and shorter," said an essayist. "Sydney, Sir Thomas More, Lyly and Spenser used sentences of the average length of fifty-five words. Nowadays the sentences of the average journalist are only fifteen words long. Bacon introduced the short sentence. At a time when everybody else was using fifty words he took to twenty-two. Praise be to Bacon. Macaulay used a very short sentence. Its average length was twenty-three words. Dickens' average was twenty-eight. Thackeray's was thirty-one. Matthew Arnold's sentences are long, but beautifully balanced. They are thirty-sevens. Henry James' are longer and though intricate, graceful and well worth puzzling out, for in each of them a wonderful meaning is concealed. They are thirty-niners. Kipling's sentences are twenty-ones.—Philadelphia Bulletin.

Wake Forest Notes.

(Special to The Evening Times.) Wake Forest, N. C., Aug. 20.—The walls and roof of the new infirmary building have been finished and there is every reason to believe that it will be ready for occupancy the first of September. It is two stories high, with upper verandas on two sides, built of concrete blocks and costing \$7,000. Prof. Carlyle is now engaged in raising the remainder of the funds necessary to its completion and equipment. The managing committee of the infirmary are Messrs. W. L. Poteat, R. E. Royall, E. W. Timberlake, J. W. Lynch and L. R. Mills.

The first day of the coming session, August 29, Wednesday Week, will be set apart for registration. Prospective students will do well to be on hand the first day.

Malaria Makes Pale Sickly Children.—The Old Standard Grove's Tasteless Chill Tonic drives at malaria and builds up the system. Sold by all dealers for 27 years. Price 50 cents.

LIGHTNING FIRES CROWDED CHURCH.

(By the Associated Press.) Chicago, Aug. 20.—Three hundred worshippers at the Hegewisch Lutheran Church, 132nd street and Ontario Avenue, were thrown into a panic yesterday by a bolt of lightning which set fire to the building. Two persons were thrown to the floor and rendered unconscious and were later revived. The church was crowded, and because of the heat several of the windows had been opened to admit the air.

A bolt of lightning struck the edifice and traveled downward and through the open window. The wood work was set afire, and the worshippers fled in terror. None was injured in leaving the place, and, acting under the direction of the pastor, several of the men returned to the church and extinguished the fire.

SPLENDID GIFT TO THE PRESIDENT.

(By the Associated Press.) Chicago, August 20.—A special to the Tribune from San Francisco says:

President Roosevelt is to be the recipient of one of the finest collections of orchids ever sent to this country, the gift of Manuel de Yriarte, a wealthy Filipino planter.

Seven thousand varieties are included in the shipments brought to this country by the army transport Thomas, which arrived on Saturday.

When Alice Roosevelt was in Manila she was invited to visit the conservatory of the planter, who is one of the island's wealthiest men. The president's daughter spoke of her father's admiration for the orchid, and the gift which has been sent to this country is the result of the planter's promise to present the chief executive with a "few" specimens from his hot house.

A special car will be secured for the trip across the continent.

IF THE WIND VEERS MILLIONS MAY GO.

(By the Associated Press.) Duluth, Minn., Aug. 20.—Absence of wind is today keeping in check forest fires on the Mesaba and Vermillion ranges. Millions of dollars worth of property in towns and in mines are in peril, and escape depends on the direction and force of the winds. People at various points are "back-firing" to prevent the encroachment of the fires. Great apprehension is felt for the newer towns, where brushwood and trees still stand in close proximity. Fear is also felt for many of the homesteaders north of the Mesaba range. There are hundreds of those. The Mesaba and Vermillion ranges are covered with a pall of smoke.

AN AMERICAN CITIZEN EXPELLED FROM RUSSIA.

(By the Associated Press.) Odessa, August 20.—An American citizen named Genson has been expelled from this city and under a police convoy was taken to the western frontier by order of the governor general. Genson was temporarily arrested a few months ago as an alleged political provocateur. On a similar charge he was arrested again a few days ago, which resulted in his expulsion from the country. Ambassador Meyer was informed of the action taken by the Russian authorities, but said he saw no reason to protest against it. Genson is a Russian Jew, who recently took out citizenship papers.

BRYAN LEAVES GIBRALTAR TODAY.

(By the Associated Press.) Gibraltar, August 20.—William J. Bryan and his party boarded the North German Lloyd Line steamer Princess Irene at 1:30 p. m. today, the steamer being scheduled to leave at 2 p. m.

Mr. Bryan expressed himself as being delighted with his tour, which closed with visits to places of interest in and about the "rock."

The Princess Irene sailed at two o'clock.
