SILKS, WOOLENS, FLANNELETTES, DRESS GOODS, BROADCLOTHS, OUTFINGS, AND SHOES.

Our Stock of Ladies', Misses and Children's Hats is nearing completion and when ready will be the greatest ever shown here.

AGENTS FOR BUTTERICK PATTERNS

William Woollcott.

MR. MERCHANT

ARE YOU PREPARED TO HANDLE YOUR FALL BUSINESS?

When you bought your Fall Stock of Goods, did you take any thought of how your Daily Transactions with your Customers would be handled? Isn't it possible that through carelessness or possibly dishonesty you can lose a dollar here or a dollar there. Or possibly you failed to change a Customer with a bill of Goods sold on Credit. Have you ever had such to happen. If it happened once, can't it happen again.

A NATIONAL System takes care of every transaction that occurs in your Store. It makes a record of your Cash and holds every clerk individually responsible. It forces the proper Record being made of Goods Sold on Credit. It meets every demand made on it and gives you an itemized record of every transaction. IT COSTS YOU NOTHING FOR IT SAVES MORE MONTHLY THAN ENOUGH TO MEET THE PAYMENTS.

THE NATIONAL CASH REGISTER CO., CAROLINA TRUST BUILDING Raleigh, North Carolina

LITTLETON FEMALE COLLEGE

is located in Warren county, North Carolina, immediately on the Seaboard Air Line railroad, about 100 miles west of Norfolk, Va., in a section that has a wide reputation as a health resort.

There are three buildings, all under one continued roof, in a large and beautifully shaded campus.

We are equipped with practically all the modern improvements usually found in the best boarding schools, including hot water heat, electric lights, bath and toilet rooms, etc.

We have a patronage of about 250 pupils, over 200 of whom are boarding pupils.

The 25th annual session will begin on Wednesday, September 19, 1906. For large, illustrated, free catalogue, address

J. M. RHODES, President, LITTLETON, N. C.

TAKE HIM, SAY MOORS

No Objection to the Removal of Stensland

A Dispatch From Minister Gummere, Our Representative in Morocco, Conveys This Information to the State Department at Washington.

(By the Associated Press.) Washington, Sept. 5.—The Moorish authorities will interpose no objections to the removal to America of Paul O. Stensland, president of the Milwaukee Avenue Bank of Chicago. A dispatch to this effect has been received at the state department from Minister Gummere at Tangier, dated today.

Instructions to Gummere. Washington, Sept. 5.—Additional instructions were sent by the state department today to Mr. Gummere, American minister to Morocco, relating to the desired surrender of Paul O. Stensland, president of the Milwaukee Avenue State Bank of Chicago to Assistant State's Attorney Olson of Illinois, who apprehended the fugitive banker in Tangier. Mr. Gummere was directed to inform the state department in detail what the attitude of the Moroccan government will be on the subject of the surrender of Stensland in the absence of extradition treaty between the two countries.

The failure of the department to hear yesterday from Mr. Gummere was due to the fact that the message sent him by the state department did not possess the key. He asked the department to repeat in phraseology that he could understand and this was done. A prompt reply is now expected. Until this arrives Mr. Scott, the solicitor for the department, will be unable to prepare the ruling asked for by Mr. Adewas to the powers of the United States to secure Stensland and to recover the deposit of \$12,000 made by Stensland in the French bank at Tangier.

Assistant Secretary Bacon has returned to Washington from a brief vacation and has assumed control of affairs at the state department. He will determine the course of this government when a reply has been received from Mr. Gummere.

There Men Would Bring Him. Chicago, Sept. 5.—The state's Attorney Healy today received a message from Assistant State's Attorney Olson, who is now in Tangier, Morocco, with Paul O. Stensland, the fugitive banker, asking that he (Olson) and James Keely, managing editor of the Chicago Tribune, who made the arrest of Stensland, be appointed to bring Stensland back to this country.

On receiving the telegram, Assistant State's Attorney Harbour wired to Governor Deneen at Springfield, and the governor has made a written request to President Roosevelt, that Olson and Keely be delegated to bring Stensland back to the United States. According to Assistant State's Attorney Harbour no warship of the United States will pass Morocco for at least fifty days, and if Olson and Keely are delegated by the president, they will either place Stensland on a vessel coming to the United States, or they will charter one for the purpose.

A messenger will leave Chicago today for Washington with the extradition papers asking for Stensland. The messenger will continue to Morocco with the papers if the state department cannot by means of cablegrams induce the sultan to surrender Stensland.

Mistake Kept Him From Cell. Chicago, Sept. 5.—A cable dispatch to the Tribune from Tangier says: "But for an error of the state department at Washington in sending instructions to Minister Gummere in a cipher to which he did not have the key, Paul O. Stensland last night would have been a prisoner in the Moorish citadel. As it is, he still is confined on the top floor of the Bristol Hotel, guarded by a representative of the American legation and six soldiers of the Sultan."

Today it is expected intelligible instructions will arrive. Then the banker must leave his pleasant suite of rooms and go to a cell.

The process of incarceration will be simple. The American minister will present the request of the government to Kabor Belzagi, the basha ruler of Tangier. The basha will express great pleasure in being able to oblige, and into jail the arrested fugitive goes. Russia was Stensland's ultimate goal; he so confessed yesterday. Stensland said he knew it was not a particularly safe place from his point of view but thought he would have a chance. He believed there was enough riot and rebellion there so that a stranger might be unnoticed.

STRIKING CARMEN ARE FORCED TO BACK DOWN.

(By the Associated Press.) San Francisco, Cal., Sept. 5.—The strike of the carmen on the United Railways which have been completely tied up since August 26 was practically ended last night when, at a mass meeting the carmen voted to return to work and submit the question of wages and hours to the committee of arbitration. The action of the carmen was practically forced by their national organization and is a complete back-down from the position taken at a mass meeting several days ago.

DIED OF FRIGHT BORN OF DREAM.

Columbus, Ohio, Sept. 5.—Seized with a frenzy of fright at a dream that a negro was trying to kill her, Miss Annie Morgan, 37, was overcome with an attack of heart trouble last night and died within a few minutes.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

A DEAL WITH ADDICKS

Burton to be Renominated in Delaware

Addicks Withdraws Opposition in Consideration of Burton's Promise to Aid Him in His Fight to Break into the Senate.

(By the Associated Press.) Dover, Del., Sept. 5.—The renomination of Congressman Hiram R. Burton by the republican state convention which is in session here today was practically settled prior to the assembling of the convention at a conference between Congressman Burton and J. Edward Addicks. After the conference Mr. Addicks said he had withdrawn his opposition to Burton, but had done so in consideration of Burton's promise to aid him in his fight to succeed United States Senator Allee, whose term expires next March.

Today's convention has been named the "joint harmony convention" and is the first one in which both regular and union republicans have participated that has been held in Delaware for several years. Besides naming a candidate for congress the convention will nominate candidates for state offices. There is opposition to the renomination of State Treasurer Rawlins and State Auditor Dick.

The convention met at noon and after the temporary organization a recess was taken until 2 p. m. At the afternoon session Congressman Burton was renominated. State Treasurer Rawlins was also renominated and Thomas C. Row named for state auditor.

HUGHES SILENT ABOUT RUNNING.

(By the Associated Press.) New York, Sept. 5.—Charles E. Hughes, who conducted the legislative insurance investigation last year, arrived home today from Europe on the steamer Cronia. He would not state positively that he would refuse the republican nomination for governor if it were tendered to him, nor would he say that he would accept. In fact, he was careful not to commit himself one way or the other as to whether he would or would not be a candidate.

EIGHT BLOCKADERS PLEADED GUILTY

(Special to The Evening Times.) Greensboro, N. C., Sept. 5.—In the federal court this morning before resuming trial of Officer Hardin eight blockaders pleaded guilty of illicit distilling. They are also included in indictments with the officer for conspiracy to defraud the government. Sentences are withheld till the termination of the trial in other cases. Those pleading guilty were James Combs and Garfield, Audrey Foster, the star defendants with the officers charged with permitting running of stills after having reported them destroyed.

FOR CONGRESS IT IS MAYNARD AGAIN.

(By the Associated Press.) Norfolk, Va., Sept. 5.—Latest returns from yesterday's democratic primary election in the second district of Virginia give Harry L. Maynard, incumbent representative, a majority of 99 over his opponent, Colonel George C. Cabell. Three precincts in Norfolk county and two in Nansemond county are yet to be heard from.

The vote in all is small and it will be impossible for Cabell to overcome the Maynard majority though this may be decreased to a small extent.

The Norfolk Ledger-Dispatch says that Congressman Maynard has been re-nominated.

The nomination is equivalent to an election.

There May Be a Contest.

A mistake of ninety votes discovered this afternoon in the primary returns reduces the majority of 99 given to Congressman Maynard to 9 majority only, with the three Norfolk county and two Nansemond county precincts still to be heard from. The two Nansemond precincts are not expected to change the result, but there now seems to be some doubt as to whether the missing Norfolk county precincts will go for Maynard, as has been claimed and conceded up to this time. The final result is now very uncertain and it will take the official count to settle the election, which may result in a contest either way.

THE KERSHAW GROUNDS BUT IS SOON FLOATED.

(By the Associated Press.) Baltimore, Sept. 5.—The steamer Kershaw, Captain Bond, of the Merchants and Miners Transportation Company which sailed last night for Boston, went ashore near Sandy Point, but was subsequently floated and is now on her way back to this port in tow. Nothing is known as yet of the particulars of the accident nor of the condition of the vessel.

MUST USE THE BOOKS

City Schools Shall Comply With the Law.

State Superintendent Writes City Superintendents It Is Their Duty To Comply With and His Duty to Enforce the Law—Instructions as to Depositories.

The state superintendent of public instruction is sending notices to the superintendents of the city schools in the state notifying them that the law plainly requires the use of the books adopted by the textbook commission for the next five years in their schools; that it is their duty to obey the law and his duty to enforce it. Some of the schools have in the past refused to use the books adopted.

State Superintendent Joyner is also sending letters to the county superintendents of schools insisting that they see to it in co-operation with the county boards, that there are depositories for the books throughout their counties in easy reach of all the people. Also that they report to him the failure of any publisher to keep a supply of the books at any of the depositories. Accurate lists of all the depositories in each county are to be furnished the state department.

To Rival Baltimore.

J. Ogden Armour, head of the big American packing firm, has broken ground for one of the costliest residences in Chicago or any of its suburbs. There are now on the building site a number of earth-digging machines that rival those used by the large railroad systems of the west. The location is three miles west of Lake Forest on a tract of 800 acres, that cost all the way from \$200 to \$500 an acre.

Fifty men and 25 teams are now engaged in making the excavations. There is a little village of tents and boarding houses, stables, blacksmith shops, engineers' and architects' quarters and a preliminary waterworks system. W. J. Newman, of Chicago, invented and built a powerful steam shovel to do the work of his particular contract. Heretofore such shovels have been required to do the work on the bottom, but this one operates from the top. There is a steam locomotive, a train of small cars and a mile or more of steel track.

Already there has been excavated the basement. It is 500 feet long and 180 feet wide, its sides supplying the foundation for a structure of many angles. At the north end is the excavation for a laundry, planned to be the largest and most complete that ever has been attached to a private residence. It will be detached from the main building, but will be connected with the basement by means of a tunnel.

The former sloughs of the vicinity will be converted into a pair of lakes, one of which will be 40 acres in extent. A boulevard will separate the two bodies of crystal clear water, the edges of which are planned to be a great showing of flowers and shrubbery.

Active operations have been under way to create a water system that will abundantly supply these two lakes. One well four feet in diameter, dug to the depth of 36 feet, has already yielded a big supply of water. The well has been fitted with a 10-inch pipe. In addition to this, another well is being sunk to the depth of 2,200 feet to secure an artesian flow. It is being fitted with a 12-inch tube. It is thought that three wells will keep the lakes brimful all of the time besides furnishing water for all of the other needs of the place. Mr. Armour has planned to get away from the railroads in building an abode that, in some features, will rival the famous Biltmore of George Vanderbilt, at Asheville, N. C.

There are five railroads running north and south through the vicinity of Lake Forest. There is the Chicago and Milwaukee electric line, three lines of the Northwestern and one of the Chicago, Milwaukee and St. Paul. Mr. Armour has gone west of all of them. He will enter his place by a boulevard that will be a continuation of Deerpath avenue. This driveway will be carried over the right of way and tracks of the Chicago, Milwaukee and St. Paul railroad. The approach of a viaduct is now banked and will require 25,000 cubic yards of earth.

The sight of all passenger and freight trains will be completely shut off from Mr. Armour's residence and grounds. An embankment 22 feet high will be thrown up for a distance of more than a half mile.

The western slope of this high wall will be sown to grass and planted in shrubbery, so that the sight of the heavy traffic of the road will be obscured and its noise muffled. To have a speedway for both horse tournaments and automobiles. There will be a driveway 7 more than 10 miles around the property and winding through its shaded parks. At the extreme north end of the residence grounds will be located the private stables.

A vast area of slough and swamp will be filled up from the excavations of the lakes. By a system of ditches already commenced the low lands will be drained, finally sending the surplus into the north branch of the Chicago river. There will be an immense amount of filling in.

The low places of the residence grounds will be filled up and turned over to a landscape man, who will be employed to turn the place into one of the most beautiful places in the state. It has been planned to include 300 acres in the residence grounds.

The residence superstructure in great part will be of marble. The basement plans show a great variety of conveniences, some for the servants of the Armour family. There is a receiving and packing room, valet's room, kitchen storage room and a commodious wine-room. In the southeast corner of the basement has been planned an organ room.

There is One Soda Cracker and Only One. You do not know that Soda Cracker until you know

Uneda Biscuit

To taste Uneda Biscuit is to fall in love with them. You never forget that first taste, and you renew it every time you eat Uneda Biscuit —
