(By the Associated Press.)
New York, Sept. 7.—Dispatches to Dun's Review indicate that fall trade is beginning to be felt, even in retail branches, while wholesale and jobbing distribution is now on a liberal scale.

Bank exchanges show constant gain, practically all trade centers contributing to the increase. Total exchanges this week at all leading cities in the United States are \$2,585,266,899, which is 20.5 percent larger than for the corresponding week last year and 62.2 percent larger than for the first week of September, 1904.

Boston, Mass., Sept. 7.—The National Shawmut Bank of this city has engaged one million dollars in gold coin for import from London. The transaction is based upon the conditions arranged by Secretary Shaw a few days ago in an effort to relieve the money market.

TWO SHIPS OF WAR ON THEIR TRIALS.

(By the Associated Press.)
Rockland, Me., Sept. 7.—The battleships New Jersey and Louisiana were both on the measured mile course off here today engaged in government acceptance trials. The New Jersey was tried yesterday and although no official report has been made it was understood here today that she did not come within a knot of the speed attained at the builders trial six months ago. Another effort to reach the desired speed was made today.

DRIFTING HELPLESS IN AERIAL DERELICT

(By the Associated Press.)
Chicago, Sept. 7.—A dispatch to the Tribune from Oconto, Wis., says: Drifting helplessly fourteen miles, two thousand feet above the earth in an airship he could not control, William Mattery, a Chicago aeronaut who made an ascension from here last night, disappeared from view.

When last seen Mattery's craft was hovering uncertainly over Green Bay, still buoyant, and drifting over Lake Michigan, Mattery made the ascension against his judgment, knowing that the machinery had been broken and spliced, but the crowds insisted that the story of a broken propeller shaft was told as a ruse to avoid making an ascension. "Take good Mattery went up just to 'make good.'"

Believe the Aeronaut Drowned.
Green Bay, Wis., Sept. 7.—People living along the west coast of Green Bay have fallen up to noon today to discover any trace of the aeronaut who took a flight in an airship from the county fair ground in Oconto yesterday afternoon. The general opinion here is that the airship descended into Lake Michigan and that the aeronaut was drowned.

THE REQUEST OF DIAZ

Ambassador Thompson Reports from Mexico That Statements of Anti-American Feeling and Revolution Against Diaz Are Untrue—St. Louis Junta Should be Suppressed.

(By the Associated Press.)
Washington, Sept. 7.—Declaring to be false the report of a bitter anti-American feeling in Mexico and an organized revolution against President Diaz, David E. Thompson, the American ambassador has made an exhaustive report to the state department setting forth in detail information which could not be conveyed in his previous confidential dispatches. He has renewed his request that, in compliance with the wishes of Mexico's president this government should take steps to suppress the Mexican revolutionary junta at St. Louis, which publishes in Spanish a paper called Regeneracion. He contends that articles that have appeared in certain newspapers of the United States discussing alleged dissatisfaction with the administration of President Diaz and asserting that an insurrection of possibly far-reaching consequences is incubating are wholly without foundation, and of inestimable harm to Mexico. He characterizes the troubles that already have occurred as nothing more than small labor riots. Mr. Thompson deprecates the fact that such publications give "a most exaggerated importance" to the work of men who have fled from Mexico and who continue to endeavor to breed a spirit of unrest in that country.

Situation Not Critical.
After observations made by Mr. Thompson under instructions from the department, he gives as his opinion that the situation there is not at all (Continued on Page 2.)

TWO BRIDGES DYNAMITED

Rebels Turn Back Force to Repair Then

GUERRA NOW MOVING

He is Nearing Pinar Del Rio—Mencal Will Visit Him There and the Two Men Will Confer Upon the Terms of Peace in Cuba.

(By the Associated Press.)
Havana, Sept. 7.—Two bridges on the Western Railway between Pinar Del Rio and San Luis, south of that city, were blown up with dynamite this morning. A force of men sent to repair the bridges, which were built of concrete and steel, was stopped by a body of rebels, numbering at least 500 men.

General Avalos, commander of the government force in the province of Pinar Del Rio, has telegraphed to the authorities here asking them to send the rapid-fire guns to the scene of the bridge destruction on the Western Railway in order to enable him to protect the workmen sent to rebuild the structures. With proper protection the railroad company officials think they can repair the bridges in five days. Pinto Guerra's force, however, is becoming increasingly numerous in that part of this country. The people there do not think that the government can suppress the insurrection.

The insurgent forces commanded by Pino Guerra are moving nearer to the city of Pinar Del Rio. General Mencal, it is stated, probably will visit Guerra personally and confer with him regarding peace terms. General Loyne Castillo has been seriously wounded on the forehead by an insurgent subaltern who struck the insurgent officer with the flat of his sword.

Advices received here from Cienfuegos today confirm the reports that 150 of the government troops in the province of Santa Clara have joined the insurgents in the vicinity of Cienfuegos.

LARGE MEETING IS LOOKED FOR

Mass Meeting of Cotton Farmers Tomorrow

FIX MINIMUM PRICES

Time Is 11 O'clock in Metropolitan Hall—It is Hoped to Have the Minimum Set by the National Executive Committee Now in Session at Hot Springs, Ark.

It is expected that a large number of Wake county farmers will attend the mass meeting of cotton growers called to meet in Metropolitan Hall tomorrow at 11 o'clock.

It is an invitation to all the cotton farmers of the county to be present and show that they are interested in the work of the Southern Cotton Association, which is striving to offset the tendency of cotton prices to drop. The leading farmers are earnestly determined that the price of cotton shall not be forced down this season below the cost of production, and the probability is that the meeting tomorrow will declare its faith and allegiance to the principles of the Southern Cotton Association, and its purpose to support it in its demands. The proceedings will be watched with interest by both buyers and manufacturers.

It is hoped that by the time of the meeting tomorrow the executive committee of the national body, now in session at Hot Springs, Arkansas, will have fixed the minimum for this year's crop. If the news of the committee's action can be had before this meeting it will greatly help the farmers of Wake in giving them something definite to go on. The county association at its meeting here several days ago recommended 11 cents as the minimum, and it is likely this will be the price set at the mass meeting tomorrow also, unless word comes from the executive committee at Hot Springs that a different price has been set by it.

A big crowd is looked for in town tomorrow on account of the continued downward tendency of prices lately.

HIGH SCORES IN THE INDIVIDUAL MATCH

(By the Associated Press.)
Sea Girt, N. J., Sept. 7.—The largest number of entrants ever recorded in an individual rifle competition in this country reported here today when firing in the national individual match was started. There were 747 experts at the contest for honors, a cash prize of \$1,000. It is thought that some of the low scores men at each stage will drop out of the contest and it may be that towards the end those who have no possible chance of capturing a prize will be eliminated by order of executive officers so that the match can be finished within a reasonable period.

At the conclusion of the first stage 20 yards, some of the high scores were:
Corporal Hughes, New Mexico, 47 out of 50; Lieutenant Silvester, New Jersey, 46; Sergeant Pfeil, New Jersey, 46; Captain Shields, Pennsylvania, 46; Captain Tate, U. S. Infantry, 45.

A Tall Mulatto Who Says He Is From South Carolina and Came Here Last May, Says He Works at Colored Restaurant Near Johnson Street Station.

A tall mulatto is in the lock-up, having been arrested this morning as the burglar that was seen in the room of Thomas E. Moore last Saturday night. He gave his name as Tom Ellis and says he came from South Carolina and is twenty-three years old.

The capture was made by Mr. Moore himself this morning about 10 o'clock. The negro came into Mr. Moore's store on West Peace street this morning with one or two others. Mr. Moore was away at the time at the market. Mrs. Moore, who was in the store at once recognized the man as the very one she had seen in their room on the night of the robbery with a long knife in his hand. A night lamp had been burning and she had a good look at him that night.

She got a message to Mr. Moore as soon as possible, but before he came the man had gone from the store. Mrs. Moore had watched him, however, and told her husband when he came that the negro was in the colored restaurant near the Johnson street station.

There Mr. Moore went and saw him by his wife's description in the place with quite a number of others. Mr. Moore went away to get some one (Continued on Page 2.)

GENTLE BOUND OVER ON MURDER CHARGE

(Special to The Evening Times.)
Salisbury, N. C., Sept. 7.—George Gentle went home this afternoon but not until he gave bond of twenty-five hundred dollars justified and approved by the clerk. Gentle was bound over to the November term of court charged with murder in the first degree. Judge Ferguson said he thought the case should be thoroughly investigated and without expressing an opinion as to guilt or innocence believed, the case might develop other things.

Mr. Klutz said he thought the case had been investigated. The solicitor had brought out all the evidence and a faithful jury had heard the testimony. He said he wanted to try the case at once, but Judge Ferguson said there was no need of that now. Gentle's justified bond was signed by three entire strangers.

Mrs. Pinkman was brought into court this morning and given till tomorrow to get up costs in the case decided against her yesterday. Judge Ferguson did not wish to pass judgment and will not, but thinks she should pay the costs.

(By the Associated Press.)
Chicago, Sept. 7.—Mrs. Charles H. Frye was today granted a divorce from Professor Charles H. Frye, who was once head of the Cook County Normal School and who recently returned to his home after an absence of thirty-one years. A Mrs. Goddard of Herley, S. D., declared that twenty years ago she had married Frye under the name of Goddard, without knowing that he had a wife in this city. Frye, who was in jail facing a trial for bigamy was given his relief after the granting of the divorce and in company with Mrs. Goddard started for Hammond, Ind., to be re-married. The laws of Illinois forbid the marriage of divorced persons within one year of the time of the granting of the divorce.

CROOKED DEAL BY A CONGRESSMAN.

(By the Associated Press.)
Portland, Ore., Sept. 7.—At last night's session of court in the land frauds trial Judge Hunt announced that unless further evidence was introduced showing the connection of Congressman J. N. Williamson with the alleged conspiracy, the case as regards Williamson would be thrown out.
Prosecutor Penny then called Dr. A. J. Smith of this city, who testified that in 1892 Williamson made a loan from him of \$4,800 upon 12,000 acres of school lands which were, Williamson said, located adjoining the proposed Blue Mountain reserve and which Williamson told ought to be included in the reserve. The day after the loan was made Williamson told Smith that because of Smith's kindness Williamson intended to let him in on the deal, which would net him thirty thousand dollars. Smith agreed and took a note for two thirds of the \$4,800 allowing Williamson to retain the rest as pay for Smith's share. Smith testified that he later found out that the scheme was "off color" and dropped out.

Public Money Deposited in

LETTER FROM MR. SHAW

He Says Government Funds Are to Be Used in Legitimate Business as Distinguished From Speculation, and if There's a Surplus Return it to the Treasury.

(By the Associated Press.)
Washington, Sept. 7.—Secretary Shaw has made public a circular letter dated today to all national bank depositaries in which he says in effect that he expects public moneys in depository banks to be used in the communities where it is deposited and not loaned through brokers and other agents in New York for speculative purposes.

The letter is as follows: "I am advised that many banks, scattered throughout the country, are loaning their surplus funds through brokers and others in New York on call at high rates of interest. Money loaned on call is well high universally for speculative purposes. I recognize the right of any individual to speculate in stocks or in lands, and the legal right of any bank to loan money at appropriate rates of interest, at home or abroad, on ample security, even with knowledge that it is being used for speculative purposes. I am not willing, however, that government money shall be enticed away from the locality where it has been deposited for the purpose of being used in this way. Public deposits are made in aid of legitimate business as distinguished from speculation whatever its nature. Depository city banks are expected to loan at regular rates or not at all and they must not be tempted to act as agents instead of correspondents for other depository banks in making call loans at high rates.

"If you have more money than your community can appropriately absorb please return it to the treasury for it can be promptly placed where it will do much good. This does not apply to banks with large reserves regularly on deposit with city correspondents."

Bankers Are Surprised.
New York, Sept. 7.—Secretary Shaw's letter on the use of public money for speculative purposes created a great deal of surprise in banking circles in this city, where it was believed that a good deal of the money to be deposited by the government at interior points would speedily be diverted to this centre. Special interest was shown in the secretary's order enjoining depository banks from lending government funds at high rates. It was recognized by New York bankers that the treasury department is in a position to maintain a close watch on the operations of the depository banks in this connection because of the report made by them five times a year to the comptroller of the currency.

Call money was loaned at 4 per cent just before the closing of the stock market today.
