The Shame of the Press.

Newspaper editors responsible for the wholesale butchery of negroes in Atlanta are attempting to explain the conditions which brought about the rioting of Saturday and Sunday, but not one word comes from them of their part in inflaming the public mind to that point where nothing short of a lust of blood would satisfy the half-mad populace.

The south, of course, must bear the brunt of the abuse which will be heaped upon it, yet we must remember and endeavor to have our friends and enemies in the north remember that Atlanta is not a southern city in the strict sense of the word. It is the Yankee metropolis, as the Richmond News Leader remarks.

On the heels of this Mr. Graves says we must separate the races, an idea so theoretical and impracticable that any man with brains must realize at once the impossibility of it.

There might have been some excuse for the slaughter if the negroes who were guilty of criminal assaults had been killed. But innocent men were dragged from street cars and shot; decent negroes, working quietly in barber shops, were murdered when begging for mercy; others were hacked to pieces in the street.

When respectable negroes were murdered it was the most natural thing in the world to find their friends ready to assassinate innocent white men.

Governor Terrell was among those in the mass meeting who condemned the newspapers, and yet the chief of Governor Terrell's staff is supposed to be the owner of the Atlanta News, the red-headed newspaper which has championed the cause of the mob.

The white women who have been commending the News and the Georgian must not forget that they incited unspeakable crimes—crimes far worse than the crimes of the mobs.

Municipal Ownership Taxes.

While the champions of municipal ownership are very loud in their claims of cheap water rates in towns owning their water plants, such advocates are unusually silent when the rate of taxation on the people and their property in municipal ownership towns is mentioned.

Winston, levies a tax of 15c on every \$100 of property and 45c on each poll. Concord, levies a tax of 35c on every \$100 of property and \$1.05 on each poll.

Greensboro, when its plant is completed will levy an annual tax of about \$11,000. Charlotte, levies an annual tax of about \$22,550.

In nearly every one of the municipal ownership towns the special tax for water works is levied in addition to the regular charges for water, but in many of them this special tax is so mixed with the other levies that it is hard to ascertain the exact rate levied for water works alone.

These taxes are in addition to the regular charges for water, and are levied on all the property and on each poll, and are levied on the people who do not use the city water as well as on those who do.

None of these municipal plants pays any state or county taxes, and hence that much revenue is lost to the state and to the county.

The Birmingham Age-Herald points out a number of bad points in the railroad law which it says are hurtful to southern shippers, merchants, cotton brokers and others.

By all means let us have that auditorium. Raleigh needs it every hour, but if the citizens are not willing to produce the wherewithal it will be the easiest matter in the world to have the board of aldermen issue bonds.

If the New York Sun had reference to Mr. Jerome when it declared that the next governor of New York would be a democrat and that the next governor would be the next president of the United States, it must think mighty hard of the quitter.

If the republicans of New York could nominate Elihu Root for governor he would be the man for Bryan to beat two years hence.

The legislature might throw a little common sense into that Watts law. But we must remember that Atlanta always was a scare-head town.

The South Must Decide.

Unless the South acts speedily and with peremptory resolution the proachment of government ownership will surely be intruded as the paramount issue in American politics, and the battle of 1908 will be fought on this line.

Mr. Bryan is a generalizer, but the man who makes the public ownership of the railroads of this country a governmental policy must be a master of detail.

There are rivers and harbors—a pork barrel. We have unworthy rivers and harbors improved in this country that should never have been touched; there are other worthy rivers and harbors neglected because they were not represented in Congress by stout and persistent log rollers.

It is an infinitely bigger question than 16 to 1, and infinitely more vicious in principle. It is as momentous a question as secession, and the South knows what that was.

Tell us how you are going to turn the trick. Mr. Bryan, and the probable consequences.—Washington Post.

THE LAUNCHING OF THE "NORTH CAROLINA."

A dispatch to the Wilmington Messenger conveys the information that the new United States cruiser North Carolina will be launched at Newport News on October 6, and that the event will be one of the greatest in the history of the United States.

"When completed," we are told, the "North Carolina" will be the most powerful cruiser afloat. Some months ago will elapse before the ship will be ready for service.

Stops enroute in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas Electric Oil, monarch over pain.

The lowest-priced paper in North Carolina with the same news service as The Raleigh Evening Times is \$6 per annum. The Times may be had at the old price, \$4 per year, if your subscription is paid in advance for one year before October 1st.
