

THE RALEIGH EVENING TIMES.

VOLUME 27.

RALEIGH, N. C., TUESDAY, NOVEMBER 27, 1906.

PRICE 5c.

DUNNE TO GIVE TILLMAN GUARD

And the South Carolinian
Laughs in Scorn

I'LL SAY WHAT I PLEASE

Negroes Seek to Enjoin Him From
Speaking in Chicago, But They
Take Advice of Level-Headed
Lawyers and Think Better of the
Matter.

(By the Associated Press.)
Chicago, Nov. 27.—Mayor Dunne today announced that he would detail a number of policemen in plain clothes to mingle with the throng at the lecture of Senator Tillman tonight, and see that no violence or insult was offered the senator. Among the number were several colored officers, who received instructions from Chief of Police Collins to watch for any possible outbreak. They were selected because of their acquaintance with the colored population of Chicago. It is not expected by the chief of police that there will be any trouble.

A number of colored men early today sought the advice of lawyers regarding the procuring of an injunction restraining the senator from delivering his lecture. They were informed that such a step might possibly succeed, but the chances were against it, and even though it was successful it would not fail to have the ultimate effect of embittering racial feeling. The project was abandoned.

Senator Tillman was expected to arrive in the city early this afternoon. When Senator Tillman arrived in this city this afternoon he was met at the depot by a committee of ladies who have in charge the interests of the hospital in behalf of which the senator is to lecture. Mrs. Adele Keeler, the head of the committee, after greeting the senator, said:

"We hope, senator, that you will not say anything that will be likely to stir up trouble."

The senator replied:
"Mrs. Keeler, I think I will say just about what I feel like saying in my lecture."

No other statement was made by the senator who was immediately driven to his hotel.

A force of about a dozen police officers in uniform, and a number of others in plain clothes were in the depot under the command of Assistant Chief of Police Schuetler, but there was no demonstration of any kind, nor was there any gathering of colored people in or about the depot.

Janesville, Wis., Nov. 27.—Senator Tillman was here today for half an hour enroute to Chicago. He anticipated no trouble, and said it is strange if a United States senator cannot speak in a northern city without police protection. In his Chicago address he will not deviate from his attitude regarding negroes. He laughed at talk of a body guard.

ANNUAL REPORT UNION PACIFIC.

(By the Associated Press.)
New York, Nov. 27.—The annual report of the Union Pacific system for 1906 shows gross transportation receipts of \$67,581,542, an increase over 1905 of \$7,958,593, and other income of \$49,329,815, an increase of \$3,888,066. The surplus for the year, after payment of fixed charges, dividends and appropriations for betterments, additions and new equipment, was \$8,032,248, an increase of \$812,968. The sum of \$4,200,000 was devoted to betterments, additions and new equipment, and \$2,206,610 was charged to operating expenses as a reserve fund for maintenance, renewals, etc.

DINNER TO AMERICAN TARIFF COMMISSION.

(By the Associated Press.)
Berlin, Nov. 27.—Herr Von Tschirsky, secretary for foreign affairs, gave a dinner last night in honor of the American Tariff Commission. Ambassador Towner, Baron Von Stengel, secretary of the Imperial treasury; Herr Von Muehlberg, the under secretary of the foreign office; the German delegates to the tariff conference and other persons distinguished in public life, including Prof. J. W. Burgess, president

of American history at the University of Berlin and dean of Columbia University, New York, were present. Herr Von Tschirsky made a short speech in which he expressed his pleasure at the presence of the American representatives. Mr. Towner responded expressing confidence that an understanding between Germany and the United States would be reached upon a mutually satisfactory basis and proposed the emperor's health.

Frank H. Mason, American consul general at Paris, who formerly held the same position in Berlin, and who has arrived here to assist in the tariff commission's deliberations, was today officially presented to the foreign office officials by Ambassador Towner.

Y. M. C. A. HOME IS LOST IN FLAMES.

(By the Associated Press.)
New Britain, Conn., Nov. 27.—Fire this morning destroyed the handsome Y. M. C. A. building and spread to several other buildings in the neighborhood, causing a loss of over \$100,000. The fire started in the rear of the Y. M. C. A. building and spread with great rapidity, a general alarm being sounded a few moments after it was discovered.

EDUCATORS FILL RICHMOND TODAY.

(By the Associated Press.)
Richmond, Va., Nov. 27.—Richmond is filled with educators today. Officers, teachers and superintendents are holding separate conferences preparatory to the general education state conference which meets tonight.

FAY SEEMS MASTER OF THE SITUATION

(By the Associated Press.)
Hamilton, Ont., Nov. 27.—Street cars have been running all morning and there has been no disturbance. At 10 o'clock the strikers met to consider the proposal to submit the whole matter to arbitration, the members of the Ontario Railway and Municipal Board to be the arbitrators, but they adjourned until 3 o'clock without doing anything. In order that President Mahon of the International Union, who is expected in the city at noon, might advise them.

Strick Fay, who is conducting the strike for the men, is still in the city. No further proceedings have been taken against him, and he has been advised that he has not committed any offense against the laws of the country. The authorities now deny having ordered Fay to leave the city and they say they merely advised him to leave.

REMINISCENCES OF WINTER OF '92-'93

Capt. Jack Duncan was talking today about the winter of 1892-93, the coldest season ever known in these parts. He said that the ground was frozen the whole winter, no one knows how deep. The cotton stalks froze so stiff that they broke off at the roots. The peach trees froze so hard that they failed to bloom at all the following spring. There were only three or four days on which it did not rain or snow. These were October 17, November 21 and December 23. The snow was on the ground for thirty days, and the sleighing was the finest ever seen in Raleigh. There was also excellent skating. The merchants in town suffered because the farmers' hands would be so stiff with cold when they came to town that they could not open their pocketbooks. Never before were the farmers heard to complain so much as they did the next spring, but in the fall the crops were better than ever before. The fruit crop was great, the crop of blackberries unusually large, also the dewberries. The only drawback to the entire season was that the following summer there were very many cases of sunstroke.

HEDRICK'S CASE NEARS THE JURY

(Special to The Evening Times.)
Salisbury, N. C., Nov. 27.—Testimony in the case of Hedrick, for the killing of Whitaker because of the latter's relations with Hedrick's wife, was completed here today at 12 o'clock, and at 2 o'clock this afternoon A. H. Price began argument for the prosecution before the jury. All the testimony offered by the state this morning was given with a view to proving the sanity of Hedrick and to show that Whitaker's pistol was mislaid as the result of disuse. Nothing of special interest has featured the trial today.

EVIDENCE OF A DOUBLE CRIME

Heart-Sickening Revelation
in Gillette's Trial

THE DEAD'S TESTIMONY

Scene of Dramatic Pathos in the
Crowded Court Room—Dr. Douglas
on the Stand, Gives More Ex-
pert Testimony as to Conditions in
Cases of Drowning.

(By the Associated Press.)
Herkimer, N. Y., Nov. 27.—With interest heightened by the declaration of the medical experts that Grace Brown was clubbed before she fell into the water of Big Moose Lake, there was a larger crowd than ever at the Gillette murder trial today. More than a thousand persons were turned away, and those who got seats were on hand as early as 7 o'clock to secure them.

Only two of the six doctors employed by the district attorney to perform the autopsy on Grace Brown's body have been on the stand. The prosecution probably will conclude the work of questioning two more of them today. The prosecution cannot complete its case before Thanksgiving, and the case will not go to the jury before Wednesday of next week. Coached by Dr. Sultors of Herkimer, the defending counsel are doing everything in their power to shatter the contention of the district attorney as advanced to the jury through the medical experts called to the stand.

Body of the Dead Child.
A sensation was created in the court room when the prosecution offered as evidence the dead child of Grace Brown. District Attorney Ward offered the exhibit as No. 99.

"It has no bearing on the case and is only offered as a means of making the people's case spectacular," said Mr. Thomas, of counsel for Gillette. Mr. Ward, the district attorney, insisted that the exhibit be introduced. "I would like to exhibit the girl's body here," said Mr. Ward. "I have a right to take it from its grave if I want to, and bring it here."

The exhibit was admitted.

Conditions in Drowned Bodies.
Dr. Douglas today gave several comparisons between the conditions usually found in drowned bodies and the conditions found in the body of Grace Brown. He said:

"The liver in cases of drowning is livid; in this case it was pale. In cases of drowning, the hands become muddy and finger nails dirty. They were clean in this case. There is water in the pleura cavity in cases of drowning; there was no such water in this case. No watery fluid flowed from the lungs in this case, as is customary in drowning cases. The liver in this case was normal. In cases of drowning it is contracted. There was but little water in Grace Brown's stomach; there is considerable in cases where a person is drowned. The diaphragm in this case was elevated three inches; when the lungs are filled with water it has a tendency to depress the diaphragm."

On re-cross examination Dr. Douglas was asked if the three days that Grace Brown's body lay before the autopsy were not sufficient time to allow the water that would naturally collect in the lungs of a drowned person to escape. He said there were means by which the water might be removed.

(Continued on Page Seven.)

THE NOVEMBER OPTION SOARS

(By the Associated Press.)
New York, Nov. 27.—There was a sensational advance in November contracts at the opening of the cotton exchange this morning on covering of belated shorts, who purchased about 2,000 bales and sent the price up 50 points or \$4.50 a bale over the closing figures of last night. The sales were made at 11.70, the highest price of the season. The rest of the list sympathized only slightly with the strength of November, owing to heavy realizing by professional longs.

NORTH APPEALS TO THE GINNERS

Complete Record Depends
on Accurate Reports

A MAJORITY GIVE THEM

But in Some Sections There Are
Signs of a Concerted Effort to
Understate the Quantity Ginned
in the Hope of Influencing the
Price of the Crop.

(By the Associated Press.)
Washington, Nov. 27.—In his annual report Director of the Census North says concerning the cotton reports that it has been the earnest desire of the bureau to bring its system of reporting to the highest degree of efficiency.

"A complete record of the quantity of cotton ginned," it states, "is not possible unless the ginners report accurately the output of their gins. That the great majority of them do this, I have no doubt; that many have failed to do so is made evident by the distribution report; and in some sections there are signs of a more or less concerted purpose to understate the ginnings. In the hope of thereby influencing the current market price of the crop. There can be no question that the census ginning reports have been worth many millions of dollars to the cotton planters by protecting the market from assaults of speculators, whose privately gathered statistics no longer carry weight when they differ from those of the census."

Director North recommends the enactment of more rigid laws to enable census officers to secure information.

ATTEMPTS TO WRECK

Three Futile Efforts Made
Near Goldsboro

The Sheriff, Notified of These Trials
to Derail Atlantic Coast Line
Passenger Trains, is Conducting
an Investigation.

(By Southern Bell Telephone.)
Goldsboro, N. C., Nov. 27.—Three unsuccessful attempts were made last night to wreck passenger trains on the Atlantic Coast Line near this point. The train from Norfolk, due here at 9:30 o'clock, while running at full speed near Freemont, struck a cross tie which had been placed on a sharp curve, but fortunately the locomotive did not leave the rails.

Northbound train leaving here at 9:35 ran into cross ties this side of Pikeville, without sustaining any damage. The engineer decided to move cautiously after that, and a few minutes later he hit another obstruction of the same kind.

The sheriff was immediately notified, and he proceeded to make an investigation, but thus far has been unable to get a clue which might lead to the arrest of the wreckers. No apparent reason can be given for the attempt.

KILLED HER MOTHER AND THEN HERSELF

(By the Associated Press.)
Upper Sandusky, O., Nov. 27.—Coroner Sturtz has rendered a verdict that the death of Mrs. Henry Harman and her daughter Mary was a case of murder and suicide. He says the daughter killed her mother and herself with morphine.

It was at first believed that the two women had been asphyxiated by escaping gas in their home.

CUTTING OUT 'QUIDS' AND EXPECTORATION.

(By the Associated Press.)
Lincoln, Neb., Nov. 27.—Chancellor E. Benjamin Andrews has taken another step toward driving tobacco from the University of Nebraska. Smoking on the campus was prohibited a year ago. Yesterday a new order was issued against chewing and spitting. Members of the law classes are threatened with expulsion if they persist in chewing and spitting tobacco around the corridors and the corners of the class rooms.

THE BIG INLAND WATERWAY PLAN

The Association Met in Wil-
mington Today

PAPER BY J. H. SMALL

He Explains the Great Project,
Showing That the First Step is
to Urge Appropriation Sufficient
to Construct the Waterway From
Norfolk to Beaufort.

(By Southern Bell Telephone.)
Wilmington, N. C., Nov. 27.—The first meeting of the Inland Waterway Association, after the organization of that party at Columbia, S. C., two years ago, convened at 11 o'clock today in the rooms of the Chamber of Commerce. Chairman James H. Chadbourne of Wilmington is presiding, and delegates representing the business and commercial organizations of Norfolk, Washington, N. C., Elizabeth City, Fayetteville, Georgetown, S. C., Charleston, Columbia and Savannah are in attendance.

Following the introductory remarks of Chairman Chadbourne the association was welcomed to Wilmington by Mayor A. M. Waddill. J. N. McNeill of Fayetteville responded.

Congressman J. H. Small read an exhaustive paper covering all phases of the matter. It was explained in detail and he showed, first, that an appropriation will be urged sufficient to construct the waterway from Norfolk to Beaufort inlet. Two surveys have already been made, he said. The first called for a depth of sixteen feet, which would cost approximately ten million dollars. The second survey, which will probably be approved by the association, calls for a depth of twelve feet and will cost about \$7,000,000 and one-half million dollars. The hope of the association is that the waterway will be ultimately extended to Florida.

There will be a session late this afternoon at which Senator F. M. Simmons will make an address.

TROPIC ZEPHYR IN THE CABINET.

(By the Associated Press.)
Washington, Nov. 27.—Secretary McCall came to the cabinet meeting today with a big portfolio, which it was generally supposed contained his report on the situation growing out of the alleged discrimination against the Japanese in the matter of school facilities in San Francisco.

The secretary went to San Francisco at the direction of the president more than a month ago, when the agitation affecting the Japanese was at its height, and since his return ten days ago, has been working on his report.

All the members were present at the meeting for the first time since the beginning of the political campaign.

Nearly the entire time of the session of the cabinet, which lasted from 11 until half-past 1 o'clock, was devoted to listening to the president's report of his trip to the Isthmus of Panama and the conditions existing there, which he pictured in glowing terms.

CASE OF DAVIS TO SUPERIOR COURT.

(Special to The Evening Times.)
Lexington, N. C., Nov. 27.—The case of C. Spencer Davis goes up to the superior court. On the 21st he killed Hugh Weaver in Hampton township, this county, claiming self-defense.

Mr. H. B. Varner left last night for Washington to appear before the postal commission as a delegate from the press association of this state. In an effort to prevent the commission from reporting to congress unfavorably the second-class rate of postage for newspapers as it now stands. The proposition is to raise this rate from one to four cents per pound.

REVELATIONS BY A TRAIN BANDIT.

(By the Associated Press.)
Kansas City, Mo., Nov. 27.—A telephone message from Marshall, Mo., says:
"The man who on Sunday night robbed the passengers on the east-bound Alton-Burlington passenger train near Glasgow, Mo., here today

admitted that his real name is Claude Rumsey, and that he is the man who robbed the passengers on the east-bound Rock Island Overland Limited near the same point on the night of November 8th. Yesterday Rumsey said it was his brother who committed the Rock Island robbery.

"Rumsey said also that his home is in Chicago, where two brothers and a sister live. He refused to give his home address in that city.

"Secret Service Officer Cain, of Chicago, and Rolla Green, of Marshall, in the employ of the Chicago & Alton, questioned Rumsey for four hours before his preliminary hearing began this afternoon."

LECTURE ON GOETHE'S FAUST AT TRINITY.

(Special to The Evening Times.)
Trinity College, Nov. 27.—Dr. Rudolph Tombo, Jr., professor of German language and literature in Columbia University, lectured before a large and deeply interested audience here last night. His subject was Goethe's "Faust." He dwelt at some length on the great central theme of the masterpiece. He showed how it related itself to the life of Goethe throughout the sixty years of its composition and how it was a voice in an age of intellectual bondage calling for freedom.

The Band to Give a Series of Sh
Trinity feels a peculiar interest in Columbia, since so many of its teachers have come from that institution. At present there are three instructors here who received training at Columbia: Dr. W. H. Glasson, Dr. L. L. Hendren and Prof. C. H. Edwards. Trinity now has four graduates doing post work there: B. S. Womble, J. Blanchard and Misses Emeth Tuttle and Mary Thomas.

THE 'FRISCO TROUBLE AS VIEWED BY JAPAN.

(By the Associated Press.)
San Francisco, Cal., Nov. 27.—Arthur May Knapp, editor of the Daily Advertiser of Yokohama, arrived on the Siberia from the Orient yesterday.

Asked about the impression created in Japan by the Japanese school exclusion in San Francisco he said he did not think it had or would ultimately lessen the cordiality of the entente existing between Japan and the United States.

"The matter has attracted much attention and been discussed extensively in the vernacular press of Japan," he said, "but the impression at Tokio when I left was that it was purely a local matter and was confined to San Francisco. No one believes that the United States wishes to discriminate against Japanese."

THE BAND TO GIVE A SERIES OF CONCERTS.

The Third Regiment Band has announced a series of concerts to be given during the winter in Raleigh, Henderson, Durham and other places in North Carolina. This band needs no introduction to the people of Raleigh, who have seen what it has accomplished since its organization little more than a year ago. It ranks among the foremost military bands in the south.

The open air concerts given at the capital square during the past summer are pleasantly remembered by the enormous crowds who had the opportunity of attending them. Under the able direction of Prof. Gustav Hagedorn of Cincinnati, the band has attained a remarkable proficiency in rendering high class music.

The first concert will be given next Tuesday night, December the fourth. Seats are on sale at the Tucker Building Pharmacy. Seats for out of town patrons may be reserved through mail.

NO COMPULSORY VACCINATION.

The board of health of the city of Raleigh met today at 12 o'clock and decided that the smallpox situation was so well under control that it was not necessary to call for compulsory vaccination. It was voted, however, to recommend to the school committee that all the children in the public schools be vaccinated. The school committee will meet tomorrow, when this recommendation of the board of health will be presented to it for consideration.

SUGAR COMPANY FINED BY JUDGE

(By the Associated Press.)
New York, Nov. 27.—A fine of \$18,000 was imposed upon the American Sugar Refining Company by Judge Hough in the United States circuit court today for accepting rebates from the New York Central Railroad Company.

The company was allowed sixty days to prepare to appeal the case. The rebates amounted to \$25,000.

CROWD CHEERS A. & M. TEAM

How the Men Lined Up This
Afternoon

IN PINK OF CONDITION

Finishing Touches Being Put On,
and Individual Plays Practised—
Band Is Out—No Heavy Work
Today—Nearly Entire Student
Body Going to Richmond Thurs-
day.

A big crowd of Raleigh folks went out to the athletic field at the A. & M. College this afternoon to see the last practice of the football team before the game day after tomorrow in Richmond with V. P. I. The band is out, the day is perfect and all is auspicious. The work done today is very light, just enough to keep the muscles limber. The men lined up at 3:45 as they will face Virginia Polytechnic Institute on Thursday, Temple center, Perkins right guard, Sykes left guard, Debee right tackle, Stroud left tackle, Stevens right end, Edwards left end, Eskridge quarterback, Wilson right half back, Shuford full back, Thompson left half back.

Max Gardner, who with Dr. Joel Whitaker is in charge of the team, says the team is now in the best condition it has been in this year, so far as they have been able to discover. The finishing touches are being put on this afternoon and the individual plays practiced. No heavy work is being done and no scrimmages.

Thirty-five men will be taken in the squad to Richmond tomorrow on No. 66 over the Seaboard, leaving the union station at 11:50 in the morning.

From present indications at the college it is apparent that practically the entire student body will go to the Old Dominion capital to see the team play and root them on to victory in this the crowning struggle of the season. Railroad tickets will be sold at the college tomorrow morning.

The Richmond papers announce that the game will be called at 3 o'clock Thursday afternoon at Broad street park.

Traveling Passenger Agent Gattis of the Seaboard Air Line, which road is running the special from Raleigh, leaving here at 7 o'clock Thursday morning, said today that the reservations for Pullmans keep coming in at a good rate, and there could be no better indication that a very large number are going from this city. It will be a great help to Major Gattis if all those who intend to go will let him know before tomorrow night, for it is very hard to get additional cars at the last minute. "A clear sky and the rigours of the game" would, perhaps, best express what has been going on in Raleigh for the past week or two.

The weather has been ideal and nothing has been allowed to interfere with the hard practice which the A. & M. team has been doing. The team has developed a speed and strength far exceeding any expectations, and the team work is perfect.

There are a number of stars on the team, stars who have been before the line light more than once and have heard the welkin ring with their names and praise. But in the work of the team one thought is pre-eminent, namely, to advance the ball, and all desire for personal glory, and to make spectacular plays is lost, and the eleven become as one, and that one will push on to victory. They have not lost a game this year and they will not allow their record to be broken in this, the last game of the season, if they can help.

Many ladies were out this afternoon at the grounds. The ladies have taken unusual interest in the games this year, and at the practice games many of them have been seen as interested spectators. It had been feared that the interest would flag at the game this Thanksgiving, since the universities do not go up against each other, but the A. & M. team has proven itself to be an opponent worthy of the steel, and the excitement, at least at this end of the line, is as intense as heretofore. The Virginians have truly had a better opportunity of observing the strength of the A. & M. team than the Carolinians, as they have played more games on their soil than on their own, and know the merits of "Babe" Wilson, Thompson, Shuford, Edwards, Stevens and other men of the line, and the swiftness of the little quarter back Eskridge.

PRISONERS POUR TO NORTH RUSSIA.

(By the Associated Press.)
Warsaw, Russian Poland, Nov. 27.—Political prisoners to the number of 239, sentenced to deportation, were dispatched from here during the night on a special train for the northern part of Russia.
