

**THE FUNERAL OF YOUNG CLYDE JONES.**

The funeral of Clyde Jones, the young man who was killed by Arthur Hodge, was conducted yesterday afternoon by Rev. J. C. Massee, pastor of the Tabernacle Baptist Church, at the residence of Mr. Needham E. Bagwell, corner of Bloodworth and Martin streets.

The pall-bearers were: Messrs. Walter Bagwell, Ernest Wall, Ollie Wall, Harvey Holder, Bert Wall and Roscoe Wall. The interment took place several miles west of Raleigh in House Creek township at the Charles Finch place, where the young man's parents are buried.

Mr. Bagwell, for whom the youth was working at the time of his death, desires to thank the many friends who did everything they could for the young man and after his death paid a tribute of esteem by participating in the funeral.

Reprint, News-Herald: "There is at least one effectual, safe, and reliable Cough Cure—Dr. Shoop's—that we regard as suitable, even for the youngest child. For years, Dr. Shoop bitterly opposed the use of opiates or narcotics in medicine, offering \$10 per drop to any one finding Opium, Chloroform, or any other poisonous or narcotic ingredient in Dr. Shoop's Cough Cure. And the challenge is as yet unanswered. Here is one manufacturing physician who welcomed with much satisfaction, the new Government Pure Food and Drug Law. The public can now protect itself at all times, by insisting on having Dr. Shoop's, when a cough remedy is needed." Sold by Henry T. Hicks.

**A Miraculous Cure.**

The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. For twenty years W. L. Rawls, of Bell, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface. This caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists.

viding a government based upon each citizen's self-respect and the mutual respect of all citizens—that is, based upon a rigid observance of the principles of justice and honesty. It has not been easy to instill into the minds of people unaccustomed to the exercise of freedom the two basic principles of our American system—the principle that the majority must rule, and the principle that the minority has rights which must not be disregarded or trampled upon. Yet real progress has been made in having these principles accepted as elementary, as the foundations of successful self-government.

**Work of Congress Complimented.**

I transmit herewith the report of the governor of Porto Rico, sent to the president through the secretary of state.

All the insular governments should be placed in one bureau, either in the department of war or the department of state. It is a mistake not to so arrange our handling of these islands at Washington as to be able to take advantage of the experience gained in one, when dealing with the problems that from time to time arise in another.

**In conclusion, let me express my admiration for the work done by the congress when it enacted the law under which the island is now being administered. After seeing the island personally, and after five years' experience in connection with its administration, it is but fair to those who devised this law to say that it would be well-nigh impossible to have devised any other which in the actual working would have accomplished better results.**

General Negt of Port Arthur fame, is paying the penalty of popularity at the hands of autograph seekers. But the form which this has taken in Japan has about it a touch of sentiment inasmuch as the relatives of soldiers who fell before Port Arthur are seeking the General's autograph inscription to place on the tombstones of the dead.

A group of several engineers and capitalists, headed by William O. Weber of Boston, believe they have revolutionized the industrial system by a new device utilizing the power of the tides so as to manufacture compressed air. A plant is about to be erected at South Thomaston, Me., to demonstrate the value of this invention.
