The Havana Advices Say That Evans Entire South Side of Kingston Under Water-A Dispatch From No Tidal Wave.

(By the Associated Press.)

Hayana, Jan. 18,-Rear Admiral Evans, in a wireless message to the cruiser Columbia, here states that huge tidal wave has changed the coasline of Jamaica, leaving the entirsouth side of Kingston under water.

No bay is left, and the whole coast line is reported sinking.

REPORTS OF DISASTER GROW WORSE AND WORSE.

(By the Associated Press.) London, Jan. 18.-One brief telegran from Governor Swecienham announcing that four hundred persons were killed, that Sir Fergusson's body had been found in the rules of a clear store day norning and further and consequently buried and adding Kingston was then quiet. that no British officials were killed or injured, was the only additional in-formation from Kingston, Jamalca, received at the colonial office this morning. The difficulties in the way of commanifeating with Kingston, the con-stantly growing lists of the dead and whites, the knowledge that many of the latter will be buried un-identified, and the reports of the threatened enguifment of the remain: of the city combine to increase the anxiety of relatives and freids in this country of people in Kingston who ar besieging all the possible sources of

information in quest of news As the break in the cable is located to the shore, no difficulty ticipated in restoring communication promptly.

The officials here estimate that relied steamers must be ariving at Kingsto: by now and a rapid straightening out of the state of chaos is expected. Burying the Dead.

An undated dispatch from a member of Sir Alfred Jones' party now a Kingston received this morning, says: A ghastly procession of carts passing

all day long to the cemetery conveyed there 250 victims who were buried in batches of twenty. It is believed tha there are four hundred more corpse among the wreckage. The body of Sli James Fergussen; was buried Januar,

The negroes sed the Jamaica relief bill immediately has begun two suits in San Francisco looted some shops, but on the whole on its receipt from the house today fair order is being preserved. Fires without discussion. are still burning."

A special dispatch from Kingston dated January 17 says:

"The recent earquake was more ser-lous than any which had occurred in Jamaica for two hundred and nifty years. The first shock was followed by fifteen minor shocks. The wooden structures stood well but the brick houses collapsed within a radius of six miles. The immunity of two hundred and fifty years led the Jamaicano to forget that they were within the earthquake zone, and they had been building brick houses. But for this probably thehe would have been no loss

of life. There has been no tidal wave. The defences at Port Royal were destroyed and the palisades broken through Black mud is coming to the surface. The conduct of all classes is admirable, no argument to convince him that the but it is hoped that the British cruiser government to which he contributes Indefatigable will soon arrive here his support and renders true allegiance, with marines."
