Art Exhibit.

This exhibit is a loan exhibit under the management of the general federation of Woman's clubs. It is a traveling exhibit and is composed of fifty oil paintings, originals, by American artists. Also a good collection of etchings and photographs and prints by masters.

It is exceedingly rare for the people of Raleigh to have an opportunity of seeing a collection of paintings, or of any art exhibit, and certainly every one should avail themselves of this occasion. The collection will be on exhibit at the Woman's Club Building, No. 10 S. Salisbury street, on Monday and Tuesday afternoon from two till six o'clock, and on the evenings from seven till eleven o'clock. In the evenings there will be music and refreshments. A nice surprise will await all those who wish refreshments.

Remodeling will begin on the club building, almost immediately, but the lower floor has been arranged and prepared especially for this exhibit.

Mr. Sherwood Elgers has most beautifully decorated the building in honor of this first visit of the people.

The proceeds will be for the building fund, and the tickets are 55 cents, general admission, public school children who buy tickets from their teachers will be admitted for ten cents.

One ticket will admit any club member to all the openings. Every one is invited most cordially and it is hoped every citizen of Raleigh will attend. Tickets on sale at King-Crowell Drug Co.

No refreshments will be served in the afternoon. Children will be admitted at 10 cents.

Undesirable Immigrants.

Among the curious defectives in the public schools are a few cretins who come mostly from the deep Swiss valleys. These are supposed to lack the thyroid gland of the neck, and their development is extraordinarily slow.

One girl in the public school could not walk until five years of age, nor talk until eight. At the age of fourteen their stage of development is not far beyond that of a child of

kindergarten age. Yet medical research has discovered a method of treatment, and even these may be ultimately made self-supporting.—From the Van Norden Magazine.

A severe cold that may develop into pneumonia over night, can be cured quickly by taking Foley's Honey and Tar. It will cure the most obstinate racking cough and strengthen your lungs. The genuine is in the yellow package.—O. G. King.
