

A. & M. VICTORIOUS

Boys From Davidson Lose In Fast Game

Large Crowd Witnessed the Game at the Fair Grounds Yesterday—The Weather Chilly, but the Enthusiasm Was Warm Enough—A. and M. at Greensboro Today.

In a fast, interesting game, full of good plays and errors galore for both teams, the baseball team of Davidson College met a hearty defeat yesterday at the hands of the husky A. & M. nine. A chilly wind whizzed across the grounds, and the sky several times looked dark, but some Raleigh folks wanted to see a ball game—and they saw it.

The crowd was of goodly proportions, although the price was half a dollar, and the enthusiasm was all that could be desired. Davidson's colors were prominent among the school girls present, but the red and white of A. & M. predominated. One fair rooster carried two pennants, one of which was waved for Davidson's encouragement during the first part of the game, the other for the delight of the A. & M. boys after the game was over.

It looked as though the game really belonged to Davidson at the end of the fourth inning, when McMillan, after a three base hit over by the race track, scored on Walker's fly through Staple's glove. This put the score three to three, and Davidson stock arose a point of two. But Drake in the next inning eased the minds of the home folks by a pretty home run on a heavy hit into extreme right field. The crowd waited with suspended breathing as Drake raced against the ball to get to the home plate first. There was a dive, a slide, a cloud of dust, and Drake won by an infinitesimal part of a second. The entire A. & M. aggregation got on its feet, and hundreds of throats strenuously proclaimed the joy that was uppermost after an untieing of the score. The joy increased when Thompson and Temple both selected his in right field and chased around home, making the total six, against three for Davidson.

Donaldson went into the pitcher's box for Davidson in the sixth inning, but the game was lost, and it was beyond his powers to redeem it, although his efforts were hearty.

One of the most spectacular plays seen here this season was successfully put in practice in the second inning by Thompson, Farmer and Drake. There was a Davidson man on third, another on second, and also one at the bat. Thompson threw the ball to Farmer, who was standing some ten or fifteen feet from his base, in the direction of second. Farmer then quickly tossed the ball to Drake, catching the runner at second before he could comprehend what was going on.

The A. & M. team left this morning for Greensboro to play Guilford College this afternoon. There will be another game here tomorrow between A. & M. and Randolph-Macon.

NEGRO MURDERER TO STATE'S PRISON

(Special to The Evening Times.) New Bern, N. C., April 16.—Essex Best, a colored man, of Bayboro, Pamlico county, was sentenced to twenty-five years in the penitentiary for the murder of John Johnson, a negro. Judge Neal is presiding at Pamlico court.

The crime was committed early in January and was as cold-blooded an affair as has ever been done in this section. Johnson was acting the part of Santa Claus at a church entertainment, and on leaving the church went to Best's house in his disguise and frightened members of Best's household. Best drew his gun and filled Johnson's body with shot.

A DAY OF REPORTS BY D. A. R. OFFICERS

(By Leased Wire to The Times.) Washington, April 16.—Reports of national officers today formed the principal feature of the second session of the Daughters of the Revolution. Chief interest centered in the report of Mrs. M. E. S. Davis, treasurer-general, in which it is said, will be embodied a full explanation of the society's investments in railroad bonds, a transaction which recently brought opposing factions of the society together. Mrs. Davis' report will be called up late this afternoon.

The sessions began at 10:30 o'clock this morning. Mrs. McLane wore a gown of mouse-color. Mrs. Alfred Franklin Smith, of Lexington, Ky., opened the session with the singing of "The Red, White and Blue." Mrs. Teunis S. Hamilton, chaplain general of the society, was the first officer to present her report. Mrs. Hamilton is concluding her sixth year in the office and as she is not eligible for re-election, the "administration" and "opposition" parties will each present a candidate for the office.

MORE CRITICISM OF THE PRESIDENT

(By Leased Wire to The Times.) Washington, April 16.—The Central Labor Union in a resolution offered by W. W. Beattie, of the Commercial Telegraphers' Union, last night criticized the president for his attitude toward the three men, Haywood, Moyer and Pettibone, charged with the assassination of the governor of Idaho some months ago.

The statement made by the president in his answer to the Harriman letter some days ago, in which he declared that Harrison was as dangerous a character to a community as were the three alleged assassins, or Eugene V. Debs, caused the union to challenge his declaration.

A NEW FLEET OURS; THAT OF THE PACIFIC.

(By Leased Wire to The Times.) Washington, April 16.—For the first time in the history of the American navy there has come into existence the Pacific fleet, comprising three squadrons, one with headquarters at San Francisco and two in Asiatic waters.

Admiral J. H. Dayton yesterday cabled the navy department from Manila that he has hoisted his flag on the armored cruiser West Virginia as commander-in-chief of the entire Pacific fleet. In organization the new fleet will correspond to the Atlantic fleet, under command of Admiral Evans.

DEATH OF A SISTER OF SENATOR HANNA.

New York, April 16.—Mrs. Salome Hanna Jones, sister of the late Senator M. A. Hanna, died in Roosevelt Hospital in this city at the age of 64. Mrs. Jones was a social leader in Cleveland before her second marriage. She was then Mrs. George Chapin. After her second marriage, Mrs. Jones lived in Thomasville, Ga., where the members of the Hanna family were frequent visitors. She was also a leader in the society in her southern home.

She leaves two sisters and two brothers, Leonard Hanna, Melvin Hanna, Mrs. S. Prentiss Baldwin, and Mrs. J. Morse.

The American Missionary Association is the first organization in the country which has voted to celebrate the centennial of the birth of Whittier on December 17. The executive committee will issue invitations to congregational churches asking them to unite in the celebration.

Keep Cool, Save Money

For cool cooking, less work and least fuel-expense use a **NEW PERFECTION Wick Blue Flame Oil Cook-Stove**—the ideal stove for summer. Does everything that any other kind of stove will do. Any degree of heat instantly. Made in three sizes and fully warranted. At your dealer's, or write our nearest agency for descriptive circular.

The **Rayo Lamp** is the best lamp for all-round household use. Made of brass throughout and beautifully nickelled. Perfectly constructed; absolutely safe; unexcelled in light-giving power; an ornament to any room. Every lamp warranted. If not at your dealer's, write to our nearest agency.

STANDARD OIL COMPANY (Incorporated)

SOME PRINTERS IN OUR CONGRESS

Mention of John M. Farquhar as one of the blooded cattle in the union herd recalls an article written by Amos J. Cummings for Washington Union's Year-Book in 1901 on "Printers in Congress." When Amos went to congress he found three other union printers there, John Nichols of Raleigh, N. C., Jacob H. Gallinger of Concord, N. H., and John M. Farquhar of Buffalo, and in the article mentioned he had the following to say of the major:

"He was a national character, known by printers throughout the United States and Canada. He was president of the National Typographical Union two terms (1860-1862), and a true-blue. How many a fight we have won together on the floor of organized labor on the floor of the house! John was a splendid talker and as bold as a lion. I have seen him in rough-and-tumbles with Sam Randall, William S. Holman, A. M. Dockery and other eminent economists, who were venting their theories at the expense of laborers and mechanics in the employ of the government, and he always carried himself magnificently, never falling to attack his own political party when it was at fault on such questions. He fought at my side for hours in an effort to secure justice for the printers at West Point, but were both finally knocked out by the ruling of the chair on a point of order. The house was certainly wita us, but we went to grass under the ruling. When the old eight-hour bill and prison contract labor bill were under consideration, John went into the fight right royally, and struck blows that resounded throughout the land. He was also instrumental in restoring the hand presses in the Bureau of Engraving and Printing. At all times, I found him at the front, battling loyally for his fellow-craftsmen. At one time, he came into the house while I was in a heated discussion over a political matter. As I sat down, flushed with the excitement of the encounter, he rushed over to my desk in evident agitation, saying: 'What's the matter, Amos? Have you found a rat printer in the employ of the government?' There was a hearty laugh from those who overheard the inquiry. It was a sincere one, however, and it was easy to see that John's soul was in arms, and that he was eager for the fray. John, like myself, had also been a soldier in the Union Army, but his term of service was in the west, in the Twentieth Corps. He enlisted as a private in the 89th Illinois Volunteers and rose to the rank of major. He disappeared from the house in 1891, and was succeeded by the renowned Daniel N. Lockwood. It is safe to say that organized labor never had a more energetic and thoroughly equipped advocate in congress than John Farquhar."—Buffalo, N. Y., Progress.

Mrs. Dacie, formerly known as "La Domino Rouge," has received a most flattering offer to appear in Paris, where she was one of the most successful attractions ever booked at the Casino in that city. Mile Dacie has never appeared in Paris without her famous mask, and there is great curiosity to see her. In private life Mile Dacie is the wife of Mr. M. A. Luecher, who won many friends here in Baltimore when he was house of Albaugh's.

The warrant for a town meeting at Claremont, N. H., is over five feet long and contains 41 articles.

The production of Indian corn in Portugal and possessions in 1906, writes Minister C. P. Bryan, of Lisbon, amounted to about 20,000,000 bushels, which large crop restricted the demand for foreign corn.

ANOTHER TRAIN IS WANTED TO CLINTON

General Passenger Agent C. W. Craig and General Superintendent A. W. Anderson of the Atlantic Coast Line held a conference with the corporation commission this afternoon in regard to giving additional service on the Clinton branch of the Coast Line, between Warsaw and Clinton. At the present time there is only one passenger train each way daily, and a double daily service is asked. Passengers reaching Warsaw on the morning train from Wilmington have no way of reaching Clinton until late in the afternoon, making it take a day and a half to make a round trip from Wilmington to Clinton.

WILL BRING NEGRO TO STATE PRISON

Neal Gant, the negro who attempted an assault upon Mrs. J. H. Swilgood in Davidson County yesterday and was caught late yesterday evening, was carried to Greensboro last night for safe keeping, but it was decided this morning that it would be best to bring the negro to Raleigh and place him in the penitentiary. Officers are expected to arrive with the negro bright on the evening train and he will be kept here until the time for the trial.

He was carried before Mrs. Swilgood and she identified him.

The Price of Health. The price of health in a malarious district is just 25 cents: the cost of a box of Dr. King's New Life Pills," writes Ella Slayton, of Noland, Ark. New Life Pills cleanse gently and impart new life and vigor to the system. Etc. Satisfaction guaranteed at all druggists.

Gertrude Quinlan, who has been playing the grotesque comedy role of Flora Wiggins for three seasons in "The College Widow," will sail for Paris this week for a long rest and vacation. Miss Quinlan will create another part next year in a new play to be produced by Henry W. Savage.

and the southern lines more than six hundred miles.

THIS EARTHQUAKE HAD BEEN PREDICTED.

(By Leased Wire to The Times.)

Washington, April 16.—At least one man who has studied seismic disturbances has succeeded in predicting the locality of an earthquake months before the shock occurred.

He is Dr. Charles Willard Hayes, of the United States Geological Survey, who made a report for the government on seismic conditions in Nicaragua in 1898. In this report he made the statement after the recent destructive earthquake at Valparaiso that he would not be surprised if the next section of the American continent to be visited by a seismic disturbance would be somewhere between San Francisco and Valparaiso, probably in Mexico.

Dr. Hayes, when asked if he would venture to predict the locality in which the next earthquake might occur, said that he did not wish to go on record as making any prediction on a matter concerning which scientific knowledge was so limited, but was of the opinion that it would not be unreasonable to look for one in northern South America in the United States of Columbia. Asked whether a disturbance there would be likely to affect the region of the Panama Canal, he thought that Panama might feel tremors from a considerable shock, but that it was unlikely that any damage would result.

In speaking of the earthquake in Mexico yesterday, Dr. Hayes said this morning:

"While it is impossible to predict with any accuracy the location and time of the occurrence of an earthquake, our knowledge of the geological structure of the earth enables us to determine within certain limits the probable areas where seismic disturbances are most likely to occur. The course of these disturbances may be expected to follow a general line of adjustment of the earth's crust along the western slope of two American continents, the line being somewhat broken in Central America."

"Preventives" will promptly check a cold or the Grippe when taken early or at the "sneeze stage." Preventives cure sore throats as well. Preventives are little candy cure tablets, and Dr. Shoop, Racine, Wis., will gladly mail you samples and a book on Colds free, if you will write him. The samples prove their merit. Check early Colds with Preventives and stop Pneumonia. Sold in 5c and 25c boxes by Henry T. Hicks.

Channing Pollock's stage version of "In the Bishop's Carriage," is proving one of the most successful of the Liebler productions this season.

Appropos of Rida Johnson Young's new play, "The Boys of Company B," the Times predicts that the play will have a long run, as Mrs. Young has undoubtedly struck a popular chord in it.

A revival of "When Knighthood Was in Flower," with Frace Merritt in the role created by Julia Marlowe, is being arranged by Ernest Shipman. The play is to be presented in New York the latter part of April.

Every Rexall Formula Is Public Property—And Always Has Been

This is an age of inquiry. Not since the time of the Civil War has there been so much agitation in the minds of the people on various subjects.

People "want to know" about everything. We do not say that the public has grown skeptical—quite the contrary. We believe it is a day and age of enlightened, intelligent inquiry after facts.

Each man and each woman now-a-days wants to do his and her own thinking. They are not looking for any concentrated essence of wisdom boiled down and given to them in capsule form. They want to figure out for themselves what is right, and what is wrong, and what to do about it.

Public sentiment has forced the government of the United States to pass a law compelling medicine manufacturers to state on their labels any injurious ingredients their remedies may contain.

We believe that the Rexall remedies have had as much to do with the creation of this sentiment as any other one single element in the country.

Why? Simply because the Rexall remedies, from their inception several years ago, started out on an entirely new line.

The first principle in the Rexall platform was one remedy for each ill—not a cure-all.

Second—no secret combinations. Every formula has always been open to the public; anyone can know what he is taking when he buys Rexall—and always could.

Third—every Rexall remedy has been sold on the basis of "money back" if you are not more than satisfied.

This is frank, square, open-handed business, that's all. But it made Rexall the greatest success in the medicine world in a very short time.

Rexall "GO" HAIR TONIC

The famous Rexall "GO" Hair Tonic is one of the 200 Rexall Remedies. It is composed in chief of Castoreum, Uta Naphthol and Pilocarpin.

Rexoceria is one of the latest and most effective germ-killers discovered by scientists, and in connection with Uta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known to-day. Per bottle, 50c.

Will keep things lively down on Fayetteville Street. The first big April sale is on, and it is appealing to bargain-seekers with a vengeance. Store crowded and the throngs are emphatically pleased.

NEW, SEASONABLE LINES AT PRICES "LEFT-OVER GOODS" USUALLY SELL.

We are a little late this month with our **BARGAIN SALE**, for Easter business was so great we had to lay aside everything else. We have never had as much business before in all our experience in the Dry Goods selling.

We are giving the people what they want at the right price, and they are enthusiastically showing their appreciation by buying here in tremendous quantities. Nay, it seems the whole town is trading here.
