New York, May 11.—Desperate battles between strike-breakers and strike sympathisers marked the progress today of the great Longshoremens' strike. Three hundred sympathisers gathered at "the farm," an immense open space in front of the litalian Line pier at the foot of West 34th street and in an irresistible rush, swept an squal number of strike-breakers off the piers.

DR. B. F. Dixon, state auditor, stated this morning to a representative of a representative of the Evening Times that he would not be a candidate for governor, but he would be in the race for auditor. A report was sent out from Winston a few days to the effect that Dr. Dixon had made the statement made there that his friends had been all-powerful hatlonal lumber trust. This statement by Barton Smith, representative of the piers.
