Glimpse at Inside of Excelsior Steam Laundry

Wonderful New Machines at Work
Manned by Seventeen Employees—
How Wear and Tear Are Eliminated and Something About the System.

The Excelsior Steam Laundry, with its new equipment of the very latest machinery, is doing work that laundries in this state would do well to imitate. A reporter of The Evening Times called at the Excelsior's establishment yesterday afternoon and was shown all through it.

Every machine was running at its fullest capacity. The great steam heated bosom press, the neat cuff press and the steam ironer for neck and yoke bands—the very latest products of the Adams & Erb Co. of Philadelphia—were turning out work with a neatness and dispatch that was astonishing to the visitor.

The Mangle machine for ironing flatwork—that is, sheets, handkerchiefs, napkins, etc.—was turning out products at the rate of eighty feet a minute. The articles were simply allowed to slide through a great system of rollers and they came out on the other side neatly ironed.

These are not near all the important machines of the Excelsior Laundry. There are various others, such as the great revolving tubs and starching apparatus, and the new improved shirt washers.

How the laundry managed to keep straight the thousands of garments that it handles every day puzzles the reporter.

Every thing is so thoroughly systematized, the manager answered, that not an article, however minute, is lost. We can put our hands on our record books and tell you the exact number of pieces that any man you can name had done up at this establishment, at any time you might name. I know it looks like we

RHEUMATISM

Cannot Be Cured with Medicine
New Treatment Just Discovered

The main ingredient in rheumatism medicine is salicylic acid. It is not generally known, however, but it is a fact that this acid eats out the vitals and ruins the stomach. Thousands of chronic rheumatism medicine takers are suffering more from the effects of this drug than from the pains of rheumatism.

Up to within a recent period medical science has been baffled and the real cause of rheumatism unknown until a celebrated Boston physician, Dr. S. N. Merrick, discovered the true cause of this terrible malady. Dr. Merrick, realizing the great benefit to humanity the discovery of how to cure rheumatism without medicine would be, has written a lengthy treatise in book form. The treatment is simple and does not interfere with your daily routine of living.

All rheumatism is caused by the deposit of hard or bone-making material in the joints or muscles or some other locality in the body. Dr. Merrick's book tells you, chronic sufferers, and all others, young and old, who are complaining to have pains in your joints and bones (which denotes the incipency or beginning of rheumatism), how to treat yourself in your own home without medicine. A prominent banker and broker of Columbus, who was cured of rheumatism and gout by this treatment, says: "This book should be in the hands of every rheumatic sufferer and all others, to read for their own protection." For further particulars, cut out this article, stamp your name and address on a separate piece of paper, and send to the H. HUGHES RIGGLEMAN COMPANY, COLUMBUS, OHIO, nc-1

Sallybury, N. C., June 27.—Preliminary work upon a new office building for the Southern Railway was begun yesterday on the Southern yards at Spencer, and it is to be a large brick structure, 50 by 100 feet. The lower floor will be used as a storehouse and the second is for the employes in the clerical department and the local officials of the road. This building is to have a platform of 600 feet, and when finished the whole thing swells the Southern's expenses about \$100,000.

THE WOMAN SCREAMED;
THE NEGRO BRUTE FLED.
(Special to The Evening Times.)
Wilson, N. C., June 27.—Yesterday morning, near Black Creek, an unknown negro attempted to assault Mrs. Scott, a respectable lady. The arrival of a party who heard her screams prevented the accomplishment of the deed's purpose, though he had Mrs. Scott by the throat at the time. The negro ran, but parties are hunting the surrounding country. The negro is believed to be one of the hands working on the new railroad. Mrs. Scott was not hurt.

PIPE ORGAN FACTORY FOR McLEANSVILLE.
(Special to The Evening Times.)

An site about one-fourth of a mile from the depot has been chosen, and a building will be erected at once. Homes for operatives will be built, and one or two warehouses may be added soon.

GIRL CHARGED WITH EFFORTS TO POISON

(Special to The Evening Times.)
Sallybury, N. C., June 27.—Cora Solter, a negro, is in jail here charged with an attempt to take the life of her father and mother, Jack Solter and his wife, and in fact the whole family. The girl is but sixteen years old and suspicion rested upon her because the family had been mysteriously sick several times, the last time the worst. Upon the advice of a physician an investigation was instituted with the result that the girl was arrested. She implicated Henry Winford, who was arrested and tried without conviction. Then the girl was taken. Deputy Mike Kimball was the officer and coming home late decided to give the girl dinner and take it himself. While waiting for the trial, Mr. Kimball decided to change clothes and stepped into a room in his house. The girl lit out and although the officer had nothing but a thin gauze shirt on, he put out for the girl and chased her more than a mile when his son aided in the arrest. She admitted that she had used rough on rats and observing how it made the rodents swell up, she had an interest to see how it would turn out on her relatives. She will be held for trial in August, her bond of \$200 being entirely beyond her grasp.

The parents of the girl believe she was driven to her act of meanness because they had corrected her on account of some of her associations. Mrs. W. M. Harris, the wife of one of Sallybury's progressive grocers, died yesterday afternoon. She had been seriously ill several days, catarrh of the stomach having developed recently. Mrs. Harris was 36 years old and leaves a husband, four children and two brothers. She was reared several miles in the country and was one of its best women.

The Fourth next week is to have more than usual attractions. General Joseph F. Aarnsfield is to have charge of several companies which will spend July 3rd and 4th in encampment here. They will be under Capt. Max L. Barker of the Rowan Rifles Guard, and he will be assisted by Dr. C. E. Smith and W. R. Cox. The strictest military regulations will be observed. These several organizations will engage in sham battle on the 4th, this being one of the greatest attractions of the event.

The Sallybury and Rowan lodges Knights of Pythias play a game of ball tomorrow under the auspices of the Daughters of the Confederacy and Miss Bessie Henderson is financier of the game. It is hoped to have enough people to swell the monument fund considerably.

THE ROBBERY OF AN EXPRESS OFFICE.
(Special to The Evening Times.)
Asheville, N. C., June 27.—The express office at Hendersonville was broken into and the robbers escaped with their booty. While it is known that a good many articles are missing, it is not known what the thieves made could be ascertained, as the officials are keeping the affair under cover in the hope of running the men down.
