

Success Lies in Results

What REXALL Has Done:

In a little over three years REXALL Remedies have become the most widely known and trusted medicines in the world—have scored the biggest success in the history of the drug business. Why?

Because they're made of the purest drugs—but not that alone.

Because the most skilled pharmacists that can be employed make them—but not that alone.

Because they are based on the prescriptions of the most successful physicians in the world—but not that alone.

Because they represent the combined wisdom and experience of over a thousand of the foremost retail druggists in this country, of which we are one,—but not that alone.

All these things have been indispensable.

They CURE—that's why.

Every one of the three hundred REXALL Remedies is a tested and proved success for the particular ailment it is designed to cure—one for each human ill. They're not "cure-alls."

Not patent medicines, either—we'll tell you the formula of any one of them if you want to know it.

We can hold up any REXALL Remedy before you and honestly say: "We know what this is made of and all about it. It has cured thousands. It will cure you. Our reputation, the possession of your good will, our whole business existence depends on this REXALL Remedy giving satisfaction to you."

Isn't that what you want to buy, rather than the sort for which you can hold no one in sight responsible?

THIS "REXALL" GUARANTEE IS ON EVERY PACKAGE

"This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you and we want you to have it."

The *Rexall* Store

A few of the 300 famous REXALL Remedies, one for each human ill, are:

FOR NERVES—AMERICANIS ELIXIR

The Rexall Americanis Elixir is a tonic nerve food composed chiefly of free Phosphorus, Glycophosphates, Iron Pyrophosphate and Calaisya.

The wonderful results of this remedy are due to the fact that it supplies Phosphorus to the nerve cells in a manner in which it can be immediately and easily taken up by them.

The Glycophosphates, actual nerve-tissue builders, are one of the most recent and valuable additions to this branch of medicine and unquestionably a more efficient remedy than the well-known Hypophosphites.

The Iron Pyrophosphates are the most easily assimilated form of iron which give tone and color, and the combined alkaloids of Calaisya Bark have a tonic effect on almost all the functions of the body. 70c. and \$1.50 a bottle.

REXALL "93" HAIR TONIC

The famous Rexall "93" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin.

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known today. Per bottle, 50c.

"REXALL" ORDERLIES

The New Laxative

If you suffer from constipation or a sluggish liver, we want you to try this newest member of the Rexall family. It has never failed.

"Rexall" Orderlies have all the virtues and none of the defects of those laxatives and cathartics already known. They are harmless vanilla-flavored tablets that effect a re-adjustment of Nature's functions—no griping, no nausea, no purging.

Pleasant to the taste—they give immediate relief.

A trial will prove to you that they are the best laxative and cathartic ever prescribed. 10c. a box of twelve; 25c. a box of 36.

NEW B. & L. A FOR RALEIGH

Organization to be Effected Tomorrow Night

MR. RAY AT HEAD OF IT

Prospects Bright for a Building and Loan Association for Raleigh, With More Subscribers Than Any Former Organization—All Interested Urged to Attend Meeting.

Raleigh is to have a new building and loan association, and from the marked interest that has been already taken in the enterprise, the new organization will likely grow to be a power in Raleigh.

The name of the company will be the People's Savings & Loan Association, and the organization will be perfected at a meeting of the stockholders tomorrow evening at 8 o'clock, at the rooms of the Chamber of Commerce.

Mr. B. W. Ray, of Leaksville, and until recently assistant manager of the Carolina Life Insurance Company of High Point, has been in Raleigh for some time in the interest of the new company. In fact, Mr. Ray is solely responsible for the enterprise, he having done all the canvassing and work.

A larger number of shareholders will start with the People's Savings & Loan Association than comprised any former building and loan association ever organized in Raleigh. There is little more that can be said in favor of the new company.

Mr. Ray has had considerable experience in the building and loan business, and if he continues with the People's after its organization tomorrow night, he will doubtless make a success of the undertaking. Mr. Ray has already shown that he is a man that does things, and he should be commended by everybody and an appreciation of what he has done for the city in giving it another splendid building and loan association should be shown.

All interested in the new company, whether stockholders or not, are invited to the meeting tomorrow night.

Wisdom About Eggs.

1. In choosing eggs always pick out those that have a dull, opaque-looking shell in preference to those that have a shiny one.
2. To boil a cracked egg, wrap it up in paper before putting it in water; none of the contents will then escape.
3. Eggs that have been cooked (boiled) and not eaten can be treated as uncooked ones and boiled over again the same time as before.
4. To insure an egg not cracking when boiling hold it in a spoon containing hot water for a few seconds before placing it in boiling water.

TROUBLE AMONG THE C. & O. STOCKHOLDERS

(By Leased Wire to The Times.)

Richmond, Va., Oct. 23.—At the meeting of stockholders of the Chesapeake & Ohio Railway here yesterday the charge was made that the annual report was misleading, and H. T. Wickham, counsel for the company, replied that the charge was made only by stockholding gamblers. Subsequently Mr. Wickham apologized but those who had made the charge continued to criticize the report.

John P. Branch, one of the oldest stockholders in the road, sharply attacked the report, charging that while the officers were guilty of no wrong the report was, nevertheless, misleading, in that large sums had been charged to profit and loss, which ought not to have been so charged. Others took part in the discussion which reached a very warm stage, when Frederick W. Scott, another stockholder, directly accused Henry T. Wickham, general counsel for the road, of insulting and badgering the minority stockholders. The report, however, was adopted but the minority stockholders left the meeting.

Pointed inquiry from minority stockholders developed the assurance that they might expect more than the usual one per cent dividend in the future. The assurance came from the lips of President Stevens, who said that judging from the earnings of the road for the past several months the net earnings for the ensuing year would be the greatest in the history of the company and that the stockholders would have every reason to expect a larger share in dividends.

Conference on Trusts at Chicago. (By Leased Wire to The Times.)

HOW OWL WORKED SMITH

A Story of Indian Imitation of His Neighbor

Owl, Democrat, Explains Situation to Smith, Republican, and Whist Latter Sleeps Former is Elected President—Dr. Dixon Goes to Robeson.

Auditor B. F. Dixon will leave tomorrow for Robeson county, where he will deliver two educational addresses.

Friday he will speak to the Croatan Teachers' Institute at Pates and Saturday he will make a talk before the white teachers of the county at Lumberton.

Dr. Dixon stated today that he had never spoken to an audience of Indians before, and had never seen the Red Men of Eastern Carolina. He is familiar with the Indians of Western Carolina, however, and told a story of Indian imitation that came under his observation in 1901.

In Swain county the Cherokee have a little republic of their own, and each year elect a president. An Indian by the name of Smith had been carrying off the honors. Smith was a republican. The democrats put up a wise old chap by the name of Owl.

"Just before the election," said Dr. Dixon, "Owl went to Smith. 'Look here,' he said, 'Nantahala stands nine votes for you and nine for me. There is no use of that precinct voting.' So on election day Smith's republicans all went hunting and Owl's democrats went to the polling place and carried the republic for Owl.

"Naturally this bit of stratagem did not please Smith and he contested the election. Smith believes to this day that he was made a victim of deceit, and has told me so."

And the doctor laughed.
