THE GENTLE COMPANY, NEW YORK CITY.

**THEATRICAL.**  
**LEE, WIZARD OF THE MIND.**

Lee, Wizard of the Mind, the world's most eminent hypnotist, has been engaged for a series of exhibitions of his weird art and will be seen at the Academy of Music for five nights, commencing tonight. The great metaphysician and doctor of psychology has just returned from a five years' sojourn in India, where he amazed the Hindu priests with his marvelous knowledge and skill in the occult science. The high priests of the temples imparted to him secrets of their craft which no other living white man today possesses. Besides giving his demonstrations with subjects, the great Lee will expose the Hindu mysteries to the audience.

**A Criminal Attack.**

on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It is generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c. at all druggists.

**IS ARRESTED FOR ROCKING A TRAIN.**

Deputy Sheriff J. L. Ellis, of Clayton, today brought to the Wake county jail a negro by the name of William Smith, alias "Frog" Puller, who is charged with rocking a train.

Mr. Ellis said that Smith rocked a Southern train near Clayton Thursday afternoon, one of the rocks coming near striking the flagman. Smith will be given a hearing tomorrow before Justice of the Peace Sparks if witnesses can be summoned to Raleigh in time. Meanwhile he is confined in Wake county jail in default of a bond of \$100.

Smith has the reputation of being a bad negro. He has been in many a fracas with some of the negroes of his neighborhood, but this is the first time so serious an offense has been charged against him.

**THE WEATHER.**

(By Leased Wire to The Times.)

Washington, D. C., Oct. 28.—Forecast for North Carolina for tonight and Tuesday: Fair and much colder to-night with heavy frost; Tuesday, fair, fresh northwesterly winds.

The low in the northwest Saturday has moved quickly to the east and now lies central over southern New York and eastern Pennsylvania; it has caused considerable rain along the lakes, in the middle, New England, and southern Atlantic States. Over the Mississippi Valley the pressure is high attended by generally cold and clear weather. In the extreme north-west the pressure is falling accompanied by higher temperature and some rain. The Mississippi Valley high will move to the east causing fair and much colder weather accompanied by a heavy frost tonight. Tuesday will be fair.

A. H. THIESSEN,  
Section Director.

If you take DeWitt's Kidney and Bladder Pills you will get prompt relief from backache, weak kidneys, inflammation of the bladder and urinary troubles. A week's treatment for 25 cents. Sold by King-Crowell Drug Co.

**Beckwith-Hardison.**  
(Special to The Evening Times.)

Lumberton, Oct. 28.—Invitations have been received here to the marriage of Miss Beulah Hardison, of Mocksville, and Dr. R. B. Beckwith, of Lumberton. The marriage will take place Wednesday at five o'clock in the afternoon, November 6th, in the Methodist church at Mocksville. Miss Hardison is a daughter of Mrs. Mary Elizabeth Hardison. Dr. Beckwith is a prominent physician and esteemed citizen of Lumberton and the announcement of this marriage will be read with interest. They will visit Jamestown Exposition and other points on their bridal tour of two weeks.

Take something now and then to help the stomach. Kodol will do this. It is a combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by King-Crowell Drug Co.

**CATARRH BLOOD UNHEALTHY SYSTEM DERANGED**

The entire inner portion of the body is covered with mucous membrane; this membranous tissue is abundantly supplied with blood vessels, veins, arteries, and capillaries. Each of these is constantly supplying to this tissue or lining, blood to nourish and strengthen it and keep the system healthy. When the blood becomes infected with catarrhal matter it is not able to furnish the required amount of healthful properties, but feeds the parts with impurities which disease the membranes and tissues so that they become irritated and inflamed, and Catarrh, with all its disagreeable and dangerous symptoms, is established in the system. There is a constant ringing in the ears, a thin, watery discharge from the nostrils, the breath has an offensive odor, slight fever often accompanies the disease, and gradually the entire health becomes affected and the system upset and deranged. In its earlier stages, when Catarrh is confined to the nose and throat, sprays, washes, inhalations, etc., are soothing and in a way beneficial, because they are cleanly and usually antiseptic, but such treatment has no curative effect, because it does not reach the blood.

To cure Catarrh the blood must be purified, and this is just what S. S. S. does. It goes down into the circulation and attacks the disease at its foundation; it removes the cause and makes the blood pure and healthy. Then the blood vessels are filled with fresh, reinvigorated blood, which is carried to all the mucous surfaces and linings, the inflammation and irritation are corrected, the symptoms all disappear, the health is improved and Catarrh is permanently cured.

Book on Catarrh and any medical advice free to all who write.  
THE SWIFT SPECIFIC CO., ATLANTA, GA

**FAMOUS ATHLETE OUT OF COMMISSION**

(By Leased Wire to The Times.)

New York, Oct. 28.—Martin J. Sheridan was compelled to abandon athletics on account of an injury sustained in the meet at Madison Square Garden. It is possible he may never compete again. While training for the indoor national championship events held last Friday and Saturday night he strained the muscles of his stomach. He stopped his training for a few days and although the soreness had not entirely disappeared, he took part in seven events during the two nights of the meeting, securing first in one, second in two, and third in four. This great athlete of modern days was then obliged to consult a physician. The doctor told Sheridan he had gone too far and that it would be many months before he could safely risk the terrific strain of tossing weights and engaging in other such strenuous pastimes as hurling, vaulting and jumping.

Sheridan was the biggest point winner for the American team at Athens and is easily the greatest all-around athlete this country or any other country has ever produced.

**DR. ALDEN CONSTRUES DOCTOR ROOSEVELT**

(By Leased Wire to The Times.)

New York, Oct. 28.—Dr. Felix Adler, in an address before the New York society for ethical culture in Carnegie Hall on "President Roosevelt's distinction between good and bad wealth," said:

"President Roosevelt has drawn a distinction between wealth which he condemns and that which he approves. He does not desire to create the impression that he is engaged in a crusade against wealth righteously gained, but is aggressively inclined against swollen fortunes. It is his mind to bridge the corporations. Undoubtedly this reflects the sentiment of a preponderance of the people and is significant for that matter.

"No matter how honestly he may come by it, no person is entitled to a fortune beyond his needs. Under the present system the game is played many times with loaded dice, so to speak. It doesn't mean that merchants are sharper. But the system gives them unfair advantages. There is a distinction between business and industry. In the former a man may start a huckster, and in his wanderings finally acquire a store and credit, and go in for himself eventually. This is not true of industry. A factory hand in many cases is not able to rise. He can't get away to study things around him. He is tied down to a certain place and is a fraction of industry. When you talk about a man rising from the bottom to the top you refer to the business man.

"I join with President Roosevelt in his view of riches. When wealth flows in excess of what you require, distribute it freely for your own accord. In this way you spare yourself with your finer senses. One of the wealthiest men of this country goes about proclaiming that every time he sees a very rich man die he sees him die in a state of sin."

**His Dear Old Mother.**

"My dear old mother, who is now eighty-three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children, too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all druggists.

**It's An Achievement to Produce Clothing OF THE KIND WE SHOW**

It's a lot of satisfaction to us to be able to show Clothing of such evident merit to men who appreciate the qualities of style, workmanship and fabric. A knowing customer will take such garments as these and expatiate on their merits, and it doesn't take salesmanship to sell them. The man who knows what he wants and what he should have, hasn't got farther to look for his ideal in Clothing than right here.

The Fall lines of Suits, Top Coats, Rain Coats, for men and youths reach the standard we hoped for. Not a designer or a manufacturer has done an iota less than we demanded, and we demanded such. If you're interested in the style, interpreted as style should be, there's much to interest you here.
