(By Leased Wire to The Times) New York, Nov. 13 .- "Waterland" the amphiblous automobile invented by Jules-Reyelllers, of Paris, proved; its ability foday in a lest here, to travel as perfectly through the rough! waters of the Hudson as over roads; so rocky and uneven that ordinary motor cars could not follow. It pushed through soft sand, over bouldees, and with one side on hard ground and the other on soft. After an exhibition on land the automobile entered the water. The wheels carried it through the shallow water half a dozen yards. Then the prispeller kicked up a great spume astern. (Special to The Evening Times.) Pittsboro, Nov. 13-Burgiars attempted to blow open the safe of W. L. London & Son, at this place last

They gained an entrance to the building through a rear window of the office with tools stolen from a nearby blacksmith shop. They evidently became frightened, as they left all the tools and a stick of dynamite on the floor near the safe, after having drilled a hole nearly through the safe door. The robbers carried away a few goods from the store and about twelve dollars from the eash drawer.

REDUCTION IN REFINED SUGAR

(By Leased Wire to The Times.) New York, Nov. 13-Late yesterday afternoon the Federal Sugar Refining Company reduced its selling price for refined sugar 5 points to the basis of 4.65 net, less I per cent, for cash. The American Sugar Relining Company and other refiners have not as yet made any change in their quotations. It is expected in some quarters that the larger refiners will reduce their selling prices in the near future. The local raw sugar market today was steady.
