

COXEY SCHEME PROVIDES WORK TO UNEMPLOYED

Washington, Feb. 27.—"General" Jacob S. Coxe, commander-in-chief of the army of unemployed, reappeared upon the scene of his old activities on Capitol Hill yesterday, not as the gallant leader of a host as he did fourteen years ago, but to press upon members of congress the necessity of appropriating \$150,000,000 for the improvement of inland waterways, and incidentally, the employment of the unemployed now in the country.

The general also has an elastic currency scheme, which he hopes will supplant the Aldrich bill. It is to authorize the secretary of the treasury to lend to states, territories, counties and municipalities enough money to put their unemployed to work on public buildings, railroads, canals, highways, and public utilities of all kinds, the loans to be secured by non-interest-bearing bonds, redeemable in annual instalments.

General Coxe says he has found one democrat and one republican in the house who have promised to support his currency bill.

"When will the clans begin to gather in Washington, general?" he was asked.

"They are not coming," he replied. "I expect to pursue a different method this time. Beginning some time this spring I expect to start with a train and tent and make a tour of the whole country, giving free lectures on economic conditions and the cure for them. General Coxe does not deny that he has wheels in his head. He distributed pictures of the wheels. A little girl in his arms is raising the top of his head, inside of which are plainly discernible the wheels.

"Pape," says the little girl, "I want to see the wheels go round."

Below the picture is written: "And so does every one who wants good times again."

OLD SEA DOGS VISIT TEMPLE SON OF INCAS

(By Cable to The Times.)

Lima, Peru, Feb. 27.—A large number of officers of the American fleet, accompanied by representatives of the government and of the commercial interests, went on an excursion today by special train to Mount Meigs. They took breakfast at Matucana.

Subsequently they visited the ruins at Pachacamac and partook of luncheon alongside the historical temple of the Son of the Incas.

Last night's ball at the National Club was a brilliant affair and lasted till 3 a. m. President Pardo and his ministers, United States Minister Combes, the admirals of the fleet, the members of the diplomatic corps and elite of Lima were present. The neighboring streets were brilliantly illuminated for the occasion.

A weak Stomach, means weak Stomach nerves, always. And this is also true of the Heart and Kidneys. It's a pity that sick ones continue to drug the Stomach or stimulate the Heart and Kidneys. The weak nerves, not the organs themselves, need this help. This explains why Dr. Shoop's Restorative has, and is promptly helping so many sick ones. It goes direct to the cause of these diseases. Test this vital truth, and see Henry T. Hicks Company.

WHARTON & TYREE'S FINE ART DISPLAY

Those passing by Weathers & Perry's must notice the beautiful art display of Wharton & Tyree in the window. There are not many pictures in the window, but those exhibited are of the usual high grade of work. These enterprising gentlemen are not only famous for their high-class work in North Carolina, but their fame extends throughout the world. Twice winners of the Luxo medal, they have taken prizes at all exhibitions for their work. The pictures in the window were developed by the new electric machine recently placed in the studio. To appreciate the delicate shades and the high grade of workmanship one must see the photographs for himself.

STATEMENT BY PRES. FINLEY ON REDUCED PAY

(By Leased Wire to The Times)

Washington, D. C., Feb. 27.—In regard to the negotiations which have been going on between the Southern Railway Company and its employees in respect to a reduction of wages, President Finley, of the Southern Railway, today made the following statement:

"Our employees, working under contract, having declined our proposition in regard to a reduction of wages, we still feel confident that there should be an amicable adjustment, and do not propose to proceed in any arbitrary way. We have notified our employees of our great regret that they cannot, at the present time, see their way clear to accept the suggestion as to the wage scale which the management considers imperatively necessary under existing conditions, and have stated to them that we will ask the mediation of the chairman of the Interstate Commerce Commission and the commissioner of labor, under section 2 of the Erdman act, which provides that in any controversy concerning wages which threaten to interrupt the business of an interstate carrier, either party may ask the intervention of the chairman of the Interstate Commerce Commission and the commissioner of labor, and, in the event of such request, requires the officials named to put themselves into communication, with all practicable expedition, with the parties to the controversy, and use their best efforts, by mediation and conciliation, to bring about an amicable adjustment of the questions at issue.

"We have accordingly requested the mediation of the officials named in the hope of arriving at an adjustment of all matters in controversy with our men, which will be cordially accepted by both interests involved."

GOV. RETURNS MONEY STOLEN BY GEN. BUTLER

(By Leased Wire to The Times)

Washington, Feb. 27.—The sum of \$215,820.89 has been in the United States treasury for forty-six years, which did not belong to the government, and yet the claimants of that good sum could not recover it. Now the senate has passed a bill favoring the payment of the amount to the Citizens' Bank of New Orleans, after the senate committee on claims reached payment. It was long ago shown that Major-General Butler had no right to take the money as major-general, after occupying New Orleans in 1862.

President Roosevelt wanted the claim paid, and said so. Attorney-General Moody admitted its justness, but finally decided that congress alone had the right to pass upon its repayment to the lawful owner.

Colonel Phil Thompson, who came to congress from Kentucky some fifteen years ago, has had charge of the claim as attorney for the New Orleans bank since he retired from office. If the government had been asked for interest, the total debt would have amounted to nearly a million, but, strange to say, the owners from whom the money was illegally taken under martial law have been content to get the principal. Favorable action has already been taken by the house.

WHY DR. BATTLE VISITS THE BROKAW'S

High Point, Feb. 27.—About every time that Dr. Westray Battle, of Asheville, comes to Fairview Lodge, near this place, the Asheville New York newsgatherers make a big ado about it, and in consequence a flood of telegrams come here asking about the probable serious illness, etc., of some of the Brokaws. Recently New York again heard something was wrong at Fairview and while the Asheville physician was on his way from Asheville to pay a social visit the telegrams were coming fast and thick asking about the illness of Mrs. Brokaw. It is said that Dr. Westray is a personal friend of the Brokaw's and often makes social calls which are transformed into professional calls by the New York newspapers.

TO READJUST SALARIES OF GOV. CLERKS

Washington, Feb. 27.—Chairman

Towney, of the house committee on appropriations, today took the first step toward having congress dispose of the recommendation of the Keep commission for the re-grading of salaries in the executive departments of the government.

He referred the report of the commission to a special sub-committee of the committee on appropriations. Of this sub-committee Representative Frederick Gillett, who is chairman of the committee on reform in the civil service, will be chairman.

As the committee on appropriations has set its face against any increased expenditures in this session the chances are that the recommendations of the commission will not be enforced by this session. The Keep commission's report recommends an increase of \$1,000,000 in the salary list of the departments.

GOVERNOR IS NOT YET A CANDIDATE

Governor Glenn, when asked this afternoon whether he would be a candidate for United States senator, merely stated that he did not know. He remarked that he had not given the matter much thought.

In an interview given out last night the governor repeated practically the same thing that he gave the correspondents several weeks ago. He did not then know what he would do; he had received encouragement, and his friends had asked him what he would do. In reply he of course asked how strong he was in their localities, just as any other man would have done.

As stated in a dispatch to The Evening Times yesterday, it is probable that the other roads will put on the same rate and that it will be uniform throughout the south.
