# WANTS GOVERNORS TO PROD CONGRESS

Glenn of North Carolina Makes Hit of Morning Session at Natural Resources Conference Today When He Puts in Strong Plea for Protection of Forests of United States.

#### WANTS RESOLUTION PASSED BY GATHERING

Demanding Immediate Steps By National Legislators to Preserve Timber Supply --- Forceful and Earnest Presentation of Need for Concerted Action Received With Cheers

(By Leased Wire to The Times)

Washington, May 14-"When the Civil War closed you of the north told us that we were brothers. You said that if we wanted anything to come to you and we would get it. The very first time we have come to you to assist us in preserving a great industry we are rebuffed."

This statement, made by Gov. Robert B. Glenn, of North Carolina, at the conference at the white house, brought down round after round of applause from governors from all parts of the United States.

Gov. Glenn's statement was made in the course of an impromptu address in which he followed the lines of President Roosevelt yesterday in condemning congress for its inactivity.

"We have come here year after year," said Gov. Glenn, "and asked that something be done to regulate the industry of interstate forestry, We can regulate intrastate forestry, but we cannot regulate the interstate industry, and every time we come to our representatives, our servants, in congress they say 'Wait until next session.' That is the answer we have been getting for years. Speaker Cannon said at the banquet last night that the way to handle the matter was by means of confederation in the various states. I cannot speak for Maine or Massachusetts or New York, but I can say that we of the south tried confederation once and it did not pay. We don't want confederation in this matter. We sant concerted action by the entire nation, and if congress will pass a bill, great good will result.

"I ask you governors from all parts of the union to adopt a resolution at this conference demanding that congress pass now-at this session, short as it is-a law looking to the preservation of our forests."

The forcible manner in which Gov. Glenn dealt with the question was greeted with cheers.

President Roosevelt called the conference to order shortly after 10 o'clock and remained in the east room during the greater part of James J. Hill's address. When he left he called Gov. Johnson, of Minnesota, to the chair and announced at the same time that Gov. Dineen, of Illinois, would preside during the afternoon session. The conference broke away from the cut-and-dried program today and governors and delegates displayed their interest in the subject under discussion by asking questions of the speakers.
