### CALIFORNIA GOES FOR BRYAN TODAY AT FRESNO.

(By Leased Wire to The Times) Fresno, Cal., May 19.—The California democratic convention, which opened its session here yesterday, concluded its work today. The delegation was instructed for Bryan.

The anti-organization wing of the party was in complete control of the party. The defeat of the old McNabe faction, which had been in control for many years, was so apparent when the committee met yesterday that their candidate for governor in 1906 is regarded as the leader of the anti-organization forces. He will be at the

### NEW SKIN REMEDY.

Creates Big Stir; Drug Stores Crowded With Sufferers.

For several weeks past King-Crowell's and other leading drug stores in this city have been crowded with persons desiring a supply of poslam, the new cure for eczema. This is the drug which has created such a stir throughout the country since its discovery one year ago.

For the convenience of those who use poslam for pimples, blackheads, blotches, red nose, acne, herpes and other minor skin troubles, a special 50-cent package has been adopted, in addition to the regular two-dollar jar, which is now on sale at all leading drug stores.

In eczema cases, poslam stops the itching with first application and proceeds to heal, curing chronic cases in two weeks. In minor skin troubles, results show after an overnight application. For a free experimental sample, write direct to the Emergency Laboratories, 32 West Twenty-fifth Street, New York City.

## STOCK PROPHET SUES PLUNGERS

(By Leased Wire to The Times) New York, May 19.—James R. Keene, Talbot J. Taylor, James B. Taylor and Foxhall Keene are named defendants in a suit for \$20,000 which A. N. Ridgeley, a "stock prophet," has brought against them in the supreme court of Brooklyn.

Ridgeley says he forecasted Southern Pacific so enthrallingly that more than 100,000 shares were sold, and he wants a jury to say whether or not his services should be rewarded. The plaintiff says he issues a circular known as Ridgeley's Financial Forecast, and that prior to August 5, 1902, there were at least 1,000 persons who relied implicitly on his financial forecasts. These clients caused Southern Pacific to jump from \$68 a share to par value of \$100 by buying stock at his suggestion.

Ridgeley says the two Taylors and Foxhall Keene, under the firm name of Talbot J. Taylor & Company, acted as agents for James R. Keene in opening negotiations with him whereby the boom was started.

head of the delegation at Denver and will be a candidate for the temporary chairmanship of the national convention.

## BOB TAYLOR TO MAKE A SPEECH

### Tennessee Member Seated to Talk on State's Rights This Afternoon

(By Leased Wire to The Times) Washington, May 19.—Senator "Bob" Taylor, of Tennessee, will make his maiden speech in the senate late this afternoon. His subject will be "States Rights and Tariffs."

Senator Taylor has followed the traditions of the senate relative to the attitude of new members and has been comparatively quiet since taking his seat. He has introduced a few bills, but it was done in a quiet way, and he has attracted little attention.

Senator Taylor's speech is awaited with more interest than usually attends the maiden effort of a new member. His celebrated wit promises to throw much light into his remarks and members of the upper house look forward to a break in the monotony of routine business when the Tennessee senator takes the floor.

### HOBSON STILL FOR WAR.

Says Country Wants Four Battleships and Will Have 'Em.

(By Leased Wire to The Times) Washington, May 19.—Captain Richmond Pearson Hobson called on the president this morning immediately after his return from California. Later he announced what is regarded as the new program of naval expansion for the next session of congress.

"The country is with us on the demand for four battleships, at least two to one," declared Capt. Hobson. "There can be no doubt of that in the mind of anybody who has had opportunity to see the evidences of public opinion, as I have done."

"We carried the first ditch this year in getting two battleships authorized and appropriated and a promise of two next session. The next step will be to carry the fight for four, and then we will set about to build some ships of later type than will be the Dreadnaught's obsolete, ships of 20,000 tons. We think that can be done without materially increasing the draft. At a maximum draft of 29 feet we can construct a ship of 20,000 tons."

"The turbine battleship is coming. As long ago as 1887, in lecturing at Annapolis, I told them to get ready for the turbine, because it was surely coming."

### AMUSEMENT QUESTION STRONG.

Baltimore's Methodist Conference May Stick to Old, Stern Rules.

(By Leased Wire to The Times) Baltimore, May 19.—The election of ten new bishops and the retirement of Bishop J. M. Thaburn, of Indiana, were the chief recommendations of the committee of the Episcopal church, which made its report to the general conference of the Methodist Episcopal church today. This report had been awaited with great interest and was greeted with prolonged applause.

A remarkable tribute was paid Bishop Thaburn when his retirement recommended at his own request, was granted. The entire audience, including delegates, reserve delegates and visitors, rose to its feet and applauded and cheered him vigorously.

The amusement fight is on in earnest before the conference. The committee on the state of the church today made public its adverse report on the recommendation of the board of bishops that paragraph 248 of the discipline, which deals with the question, be modified by striking out the words "dancing, playing all games of chance, attending theatres, horse-races, circuses, dancing parties or patronizing dancing schools."

A strong minority, however, of which Rev. Charles W. Baldwin, of the Baltimore delegation, presented a minority report, urging that the recommendation of the bishops be adopted.

### Colds That Hang On.

Colds that hang on in the spring deplete the system, exhaust the nerves, and open the way for serious illness. Take Foley's Honey and Tar. It quickly stops the cough and expels the cold. It is safe and certain in results. O. G. King.

### MARSH HAS HYDROPHOBIA.

Waited Too Long After Infection and Must Die.

(By Leased Wire to The Times) New York, May 19.—As William H. Marsh, an elderly man, walked out of Pasteur Institute today and climbed into the carriage waiting to take him back to his handsome home in Brooklyn, no one would have guessed, seeing him so, that he was a man who had just heard his death warrant and knew his end must come soon and painfully.

"You waited too long," the surgeons told him. "Our treatment cannot save you. You have hydrophobia."

There was not a falter in his voice nor a change in his face as he heard them. The muscles about his mouth kept twitching and jumping and his jawbones clinched spasmodically, but these things have been happening ever since the disease first manifested itself three days ago.

"How much time do you give me?" he asked.

"Not long," said the physician. "Probably not more than four or five days."

"Well," he said, "if I have to go I can face it. My business is in shape, and a day or two more will see it all settled. I'd rather die some other way, but I'm not afraid."

And he walked out to his carriage and drove home to put his earthly affairs in order. His case, so the Pasteur Institute physicians say, is unprecedented. He was infected without being bitten. His hand was licked by a puppy that had been attacked by a rabid cur and through a tiny abrasion in the skin the poison was carried to the system.

Mr. Marsh is a wealthy manufacturer of water meters. His home in Ocean avenue is one of the handsomest in the Flatbush section. He has a wife and a large family.

The Guffeyites will present the following names to the convention:

Delegates at large: John Cadwallader, Sr., Philadelphia; Albert J. Barr, Pittsburgh. Alternates at large: J. M. Guffey, J. P. Hall, William Perry, Arthur G. Dewalt.

The banquet given by the faculty of the University department of medicine to the twelve young graduates last night was one of the most enjoyable events of the year. (By Cable to The Times.) London, May 19.—With the arrival of the steamship Mauretania at Queens-town today it became known that Gen. Charles A. Whittier, of New York, did not die of heart disease last Thursday, as supposed, but was scalded to death in a bathtub.

While bathing Gen. Whittier was seized with a fit. In his struggles he turned on the hot-water tap and then became unconscious. The water poured from the tap until the prostrate man was scalded to death.

### OHIO AGAIN IS FIGHTING STANDARD OIL IN COURTS.

(By Leased Wire to The Times.) Findlay, O., May 19.—As a climax to the long and bitterly-contested fight in Ohio against Standard Oil, Attorney General Ellis and County Prosecutor David, in the circuit court today, are attacking the octopus from three sides.

Quo warranto proceedings, mandamus and a defense of the verdict against the Standard Oil company, obtained in the probate court, will be the cases heard.

### CLEARED AWAY Proper Food Put the Troubles Away.

Our own troubles always seem more severe than any others. But when a man is unable to eat even a light breakfast, for years, without severe distress, he has trouble enough.

It is small wonder he likes to tell of food which cleared away the troubles.

"I am glad of the opportunity to tell of the good Grape-Nuts has done for me," writes a N. H. man. "For many years I was unable to eat even a light breakfast without great suffering."

"After eating I would suddenly be seized with a terrible attack of colic and vomiting. This would be followed by headache and misery that would sometimes last a week or two, leaving me so weak I could hardly sit up or walk."

"Since I began to eat Grape-Nuts I have been free from the old troubles. I usually eat Grape-Nuts food one or more times a day, taking it at the beginning of the meal. Now I can eat almost anything I want without trouble."

"When I began to use Grape-Nuts I was way under my usual weight, now I weigh 30 pounds more than I ever weighed in my life, and I am glad to speak of the food that has worked the change."
