

ENGINEER BLOWN INTO FRAGMENTS

At Least One Fatality When Grand Trunk Boiler Explodes

Fireman Thrown Thirty Feet From Train and Gets Scalded That May Kill Him—Head Brake-man Seriously Injured—Automatic Air-brakes Stop Train Or Accident Would Have Been Worse.

(By Leased Wire to The Times) Imlay City, Mich., June 22.—The Grand Trunk fast freight was wrecked two miles east of this town at 4 a. m. this morning. The boiler of the engine blew up while the train was going about 30 miles an hour. The airbrakes worked automatically, stopping the train.

Engineer Thomas Fibbs, of Port Huron, was blown to bits. Fireman William Brown, of Port Huron, was thrown 30 feet from the train and probably fatally scalded. Head brakeman Smith was seriously injured. Traffic was tied up several hours.

NEWS FORECAST FOR COMING WEEK

With the republican ticket named there will be a temporary lull in the national political arena until the time approaches for the delegates to gather in Denver for the democratic nominating convention.

One of the interesting political events of the week will be the state primary in Tennessee next Saturday, the result of which will determine the gubernatorial contest between Gov. Patterson and former Senator Carmack.

Iowa republicans will meet in state convention at Waterloo to ratify the result of the recent primary and Georgia democrats will meet at Atlanta for the same purpose and also to choose delegates to the Denver convention.

Americans will be much interested in the wedding of Miss Jean Reid, daughter of Whitelaw Reid, the American ambassador to Great Britain, and Hon. John Hubert Ward, brother of the Earl of Dudley, which is scheduled to take place in the chapel royal of St. James' palace next Tuesday.

During the week commencement exercises will be held at Harvard, Yale, and other big colleges, with reunions of alumni and addresses by men of note.

The week will be filled with events of interest to all lovers of aquatic sports, including the two biggest boat races of the year in America. The crews of Yale and Harvard will have it out on the Thames at New London Thursday, and two days later the crews of half a dozen leading colleges will meet on the Hudson in the annual regatta of the Intercollegiate Rowing association.

Saturday the athletic team which will uphold the honors of the United States in the coming Olympic games in London will sail from New York on the steamship Philadelphia.

Leading conventions of the week will include the annual meetings of the National Association of Credit Men at Denver, the Travelers' Protective association of Milwaukee, the United Commercial Travelers at Columbus, the American Library association at Minneapolis, the International Association of Factory Inspectors at Toronto, and the biennial convention of the General Federation of Woman's Clubs in Boston.

Deputy and Writer Fight

Rome, June 22.—A duel was fought today between Deputy Santani and a journalist named Zambelli, who represented the reporters in the chamber whom Santani denounced as liars. Before the encounter had lasted 65 minutes it was stopped. It will be finished at a later date.

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water once every 24 hours before I could have an action on my bowels. Happily I could have an action on my bowels. Happily I tried Cascarets, and today I am a well man. During the nine years before I used Cascarets I suffered most miserably with internal piles. Thanks to you I am free from all that this morning."—W. F. Fisher, Honolulu, Ill.

CONEY ISLAND'S RACETRACK MEN

Fighting Hard to Have Police Keep Fingers Off Bookies.

Motion to Make Permanent Injunction Restraining Commissioner Bingham's Force From Carrying Out Provisions of Agnew-Hart Bill is Adjourned Until Wednesday in Justice Blanchard's Court This Morning.

(By Leased Wire to The Times.) New York, June 22.—The motion to make permanent the temporary injunction obtained by the Coney Island Jockey club from Justice Bischoff, restraining Police Commissioner Bingham from interfering with the Sheephead Bay race meeting, was to have been heard today before Justice Blanchard in the supreme court this morning.

On motion of the corporation counsel, the hearing was adjourned until Wednesday. The corporation counsel said he had received the affidavits in the case as late as Saturday and was not yet familiar with the facts.

Delancy Nicoll appeared as associate counsel for the club today, with Davis, Stone and Aurbach, the regular counsel.

The habeas corpus brought by Melville Collins, a bookmaker, who was arrested charged with having accepted a verbal wager made by John Rawls and with paying money to Rawls after the horse on which he had bet won, also was continued until Thursday by Justice Bischoff.

The hearing, which resulted in the postponement, was held in Justice Bischoff's private chambers and newspaper men were not admitted.

OUR MEN TO COMPETE AT THE OLYMPIC GAMES.

Team Sails Saturday From New York, With Mike Murphy As Trainer.

(By Cable to The Times.) London, June 22.—James E. Sullivan, president of the Amateur Athletic Union of the United States and secretary of the American Olympic committee, has arrived in London. He had a long session with Right Hon. Lord Desborough, of Taplow, chairman of the British Olympic association, yesterday, and plans for the Olympic championship next month were fully discussed.

The president of the A. A. U., won his point in regard to Tom Longboat, the Indian runner, and the latter will not be permitted to compete in the championships, on the ground of alleged professionalism.

Mr. Sullivan insisted that Longboat be barred, and as a result his entry was officially rejected. As a matter of fact, the Indian's entry always hung fire. Manager Halpin is perfecting arrangements for the sailing of the American team next Saturday. The men will sail on the steamer Philadelphia. Mike Murphy, who will act in the capacity of trainer, will sail with the team, and he has mapped out a plan whereby light training can be done while on the trip.

SHERMAN'S NEIGHBORS WON'T CELEBRATE UNTIL TOMORROW.

(By Leased Wire to The Times.) Utica, N. Y., June 22.—The demonstration in honor of James S. Sherman of this city, republican candidate for vice-president, has been postponed until tomorrow evening. The celebration was to have taken place tonight, but Mr. Sherman decided to rest in Cleveland until tonight, when he will start eastward.

Balloonists Chased By Bull and Hear Bullets Singing

(By Leased Wire to The Times) Pillsfield, Mass., June 22.—The balloon, Boston, which made its initial ascent here, landed safely on a mountain between Putney, Vt., and Dummerston, Vt., near the Vermont-Hampshire boundary line. Charles J. Glidden, of Boston, the owner of the balloon, and Leo Stevens, the New York aeronaut, who was a passenger, had a very exciting trip. In addition to being the target for rifle bullets during the flight, Mr. Glidden and Mr. Stevens landed in a pasture where a young bull was confined. The animal charged the aeronauts after they had stepped from the basket, and they were forced to run at top speed and hurriedly scramble over a fence. Although a landing was made at about 7 o'clock it was near midnight before they reached a farm house, where they spent the remainder of the night. During the flight of the balloon the

wind blew in puffs, at a rate varying from twenty-five to forty miles an hour. The puffs of wind and the changing directions of the various air currents encountered frequently caused the basket to revolve. The highest elevation reached was 6,100 feet. While passing over the northeast corner of Brattleboro, Vt., the gas bag was struck by two rifle bullets.

The bullets glanced off, however, without penetrating the silk covering but the course of the bullets was indicated plainly by two dark-colored streaks across the covering. The landing was made in a pasture on top of a mountain two thousand feet high and the descent was from an elevation of more than 2,000 feet. Although a twenty-five-mile breeze was blowing, the aeronauts came to the ground without difficulty. The place where the balloon came down is about fifty miles in an air line from this city.

EARLY CAMPAIGN AND HARD FIGHT

Will Be Made By Democratic Congressional Committee.

Chairman Lloyd Says He's Satisfied With the Outlook—Calls This "A Year When Party Affiliations Will Amount to Less Than They Ever Did Before"—Campaign Book Ready July 1.

Washington, June 22.—"We are this summer for an early campaign, a prolonged campaign, and a hard fight."

This was the statement today of Representative Lloyd, of Missouri, chairman of the democratic congressional campaign committee. He announces that the committee's campaign book will be out by July 1 and will be immediately mailed to all parts of the country. This is earlier than any campaign book has ever been gotten out by the democrats. As it will appear before the convention nominates the democratic candidate for the presidency, it is evident the

committee feels the need and advantage of beginning as soon as possible the work of molding the sentiment of the voters.

"I feel pleased and satisfied today," said Mr. Lloyd. "You will find that this is going to be a year when party affiliations will amount to less than they have ever done before. It is for this reason that the democratic party finds itself in a better position than has ever been the case before."

Taft's Train Comes Near to Being Wrecked By Smashed

(Continued from First Page.) came to Secretary of War Taft's office today. One was from the widow of President Benjamin Harrison and another from the widow of President James A. Garfield.

The letters came from every part of the United States, the majority being from business men.

According to a tentative announcement at the war department this afternoon, Hot Springs, Va., will be next only to Oyster Bay this summer as a political capital, for it is to Hot Springs that Secretary Taft now expects to go. From there he will direct his campaign and make such trips as will be necessary. He does not expect, however, to do much traveling.

Three stenographers and clerks are working on the "congratulation mail" as it comes to the secretary's office today.

LUKE WRIGHT TO SEE PRESIDENT

New War Secretary is Due at Oyster Bay Next Week.

Other Political Leaders Will Be There and Party Wiseacres Have It That National Chairmanship, Which Frank Hitchcock Refused to Take, Will Be Principal Topic of Roosevelt-Taft-Wright Conference.

(By Leased Wire to The Times) New York, June 22.—While President Roosevelt was understood to have expressed his intention of avoiding politics entirely during the summer stay at Sagamore Hill, Oyster Bay, political wiseacres now believe the meeting between Sen. Taft and Gen. Luke E. Wright, who is to succeed Mr. Taft in the war portfolio, and the president next week will figure in the selection of a national chairman to manage the Taft campaign.

The failure of the committee to reach a decision at the conference in Cincinnati, and the refusal of Frank H. Hitchcock to consider an offer of the post, have, the politicians believe, forced the president to step in and settle a difficulty which might have an adverse effect on the canvass should the disagreement be prolonged.

Report had it that when Mr. Roosevelt learned of Mr. Hitchcock's determination not to allow his name to be used in connection with the chairmanship, he promptly suggested the name of Mr. Loeb, and it was even rumored that the president's secretary would accept. This, however, could not be confirmed, as Mr. Loeb returned evasive answers to all questions.

As President Roosevelt is anxious to see Secretary Taft chosen his successor, it is considered natural that he should recant on his first plan, in view of the failure of the committee to get together.

If Mr. Roosevelt expresses a preference for anyone to head the campaign, that man will undoubtedly be named. The president and Mr. Wright, of course, will discuss the future conduct of the office of the secretary of war.

Twelve Sunday Drownings in Waters About New York

(Continued from First Page.) swimming back toward the shore. Clarkson, McNally and Coffey were rushed to the hospital on Blackwell's Island.

Summer Days at Sagamore Hill

(Continued from First Page.) grocery store in running order, Secretary Loeb and his corps of assistants started in earnest today to attend to the affairs of the United States government. Early today Mr. Loeb rode out to Sagamore Hill and for a couple of hours he and President Roosevelt were busy over a large heap of correspondence in a shady corner of the veranda. When the secretary returned to the executive offices he hung up his coat and went to work, remarking that after all, it looked like a busy summer.

One of the first acts of Mr. Loeb was to send a telegram to Secretary Taft inviting him to come to Sagamore Hill and spend a week. There are many important matters concerning the campaign which the president wants to discuss with his possible successor.

The fact that the president had waited only a little over a day since coming here to send for Secretary Taft seemed to dispose of the theory that Mr. Roosevelt was to take little part in the coming campaign. Indications are plenty that Oyster Bay will play an important part in the election. A significant move is the installing of Secretary Loeb and his family at the Seavanhaka Yacht club on Centre Island.

Mr. Loeb last year took up quarters in the Townsend house, about a quarter of a mile from Sagamore Hill, and he drove to and from the village several times a day. He was easily accessible to visitors, whatever their errands, at all times of the day and night. All that has been changed this year, and it looked today as if plans had been made to maintain a degree of privacy with regard to official doings.

DOREAN HOTEL (Brick Fireproof)

The Capital City Telephone--How to Use It.

Telephoning is such a simple matter that a talk on this subject seems almost unnecessary. What we say, however, is intended to help you and benefit us. There is a right way and a wrong way to use the telephone. We are daily impressed with the fact that a great many people, unintentionally, perhaps, have adopted the wrong method, thereby causing themselves constant irritation.

When you use the telephone your mouth should be directly in front of the mouthpiece and the receiver should be held lightly but firmly against the ear. You should talk directly into the mouthpiece in an ordinary tone of voice. Very often people stand away from the instrument and direct their attention to persons about them. Naturally, under such conditions, the one to whom they are talking cannot hear distinctly and perhaps finds fault with the service.

Then, too, some of us have a habit of shaking the hook violently when the called party does not answer promptly. The hook should be moved slowly up and down two or three times to attract the attention of the operator. If violent methods are used the signal does not work properly. All the operator can do, you know, is to make the connection and ring the bell; she cannot make people answer their telephones in a hurry. There are directions in the telephone directory covering every feature of the matter. If you will take occasion to read these directions, and follow them, it will help you and we are sure it will result in benefit to us.

HENRY L. VAASTORY, Manager.

S.S.S. FOR S.S.S. BAD BLOOD

When bad blood is caused from an infection of the circulation by the virus of Contagious Blood Poison, it usually shows in the form of ulcerated mouth and throat, copper-colored splotches on the body, swollen glands in the groin, falling hair, sores and ulcers, etc. These general symptoms, affecting all parts of the body, show how deeply poisoned the blood becomes, and emphasizes the dangerous character of the trouble. If allowed to remain in the system the disease will finally wreck the health and break down the strongest constitution. No medicine can cure Contagious Blood Poison which does not rid the circulation of every particle of the virus. S. S. S. is the one real and certain cure; it goes down to the very bottom of the trouble, and by removing every trace of the poison, and adding rich, healthful qualities to the blood, forever cures this powerful disorder. S. S. S. is the most reliable of all blood purifiers, and its concentrated ingredients of healthful vegetable extracts and juices especially adapt it to curing this insidious trouble. Write for our home treatment book, which is a valuable aid in the treatment of the different stages of the disease, and ask for any special medical advice you wish. No charge for either.
