New York Cotton.

(By Leased Wire to The Times)
New York, August 5—The cotton market this morning opened easy at a decline of 1 to 6 points. There was some heavy selling by one of the large houses creating an impression around the room that Wall street interests were taking profits. It was accompanied by rather active pressure from room sources, southern selling also was in evidence.

New York Spot Cotton.
(By Leased Wire to The Times)
New York, August 5—Spot cotton quiet, 5 points lower at 10.75.

New Orleans Cotton.
(By Leased Wire to The Times)
New Orleans, La., August 5—The spot market continues dull and without new features of more than passing interest.

The mill demand has practically ceased to be a factor in governing prices since the mills are not at present in the market and the small trading as is now indulged in does not carry sufficient weight to affect the situation. Factors are holding a number of lists for impossible figures, under shippers' instruction, but apart from these there is hardly anything of a desirable character on the tables and a lower heading of 1/4 from board prices would probably fall to move stocks, considering the present temper of the market.

A decidedly easier feeling prevailed among contract traders today, largely the result of extremely bearish reports anent the growing crop and prices moved off sharply during the morning hour. The opening figures were down 7 to 10 points and though there were not infrequent fluctuations incidental to spasmodic buying during the forenoon the trend of the market was toward still lower levels, with the result that the second call showed net losses of 10 to 11 points on both old and new crop positions.

THE TIMES' DAILY FINANCIAL STORY

(By T. C. SHOTWELL)

New York, August 5—Under the influence of excited buying of Guggenheim stock the entire market was buoyant today. Smelters, National Lead, Amalgamated Copper and Steel sold at high records in the first half hour of trade. In London American stocks were active and moving higher. The cause for the enthusiasm just now seems to be the advancing prices of copper metal coupled with a general belief that business is recovering in all departments. E. H. Harriman's confidential talks in the west have had a tonic effect. It is generally believed that Gould has surrendered completely to Harriman and that the Gould system will now be rehabilitated. Pittsburg reported today that negotiations have been opened by the Gould interests with the Pressed Steel Car Company for several thousand freight cars to handle the tonnage that is expected this fall under the old Carnegie contracts, of which the Goulds have not yet taken advantage. One report had it that the order is for 10,000 cars.

On the curb market Cumberland, Ely, Nevada, Consolidated and Le-Rose were leaders, with a good demand in the entire mining department.

Cotton and grain were both slightly lower.
