THE WEATHER

(By Leased Wire to The Times) Washington, August 5—Forecast for North Carolina for tonight and Thursday:

Fair in eastern, showers in western portion this afternoon or tonight. Thursday fair, light to fresh south-westerly winds.

The distribution of atmospheric pressure has changed but little during the last 24 hours. The disturbance north of the lakes has increased somewhat in energy, and rains were general along the eastern lakes and in the extreme northeast.

The indications are for fair weather in this vicinity tonight and Thursday.

A. H. THIESSEN, Section Director.

For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. W. Stone, of East Poland, Maine.

LUNATICS RECAPTURED.

Two of the Patients Who Escaped From State Hospital Returned. Two Still at Large.

Two of the escaped inmates of the Central Hospital of this city, who escaped Sunday night, have been captured and returned to the asylum, one being caught at Apex and one at Cary.

There are still two of the lunatics at large and the authorities state they will be returned in a day or so.

She Likes Good Things.

Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it."

WAKE COUNTY FINANCES.

A Statement to the People by the Board of County Commissioners. To the People of Wake County:

We are candidates for a re-nomination to the office of County Commissioners, and believe that of all officers a commissioner who proves true and faithful to the best interests of the county and serves practically without any compensation, is entitled to a second term, if he so desires.

They are usually much abused, and rumors which have come to us, prove that we have been no more fortunate than others in this respect. We feel, however, that certain of our actions have been misrepresented for the purpose of affecting the minds of the voters and these criticisms we desire to answer.

We have been criticised as extravagant managers and the report has been circulated that we went into office with a large fund in the treasury and are now in debt.

This board went into office Monday, December 3, 1906, and according to the annual statement made, as required by law, by the clerk of the board and published in the News and Observer December 15, 1907, the following facts will appear:

Amount in the hands of treasurer—county fund \$ 2,080.07 Road fund 2,803.36

Total \$ 4,883.43 This amount it might appear to a casual observer was the fund we had on hand to begin business with, but it also appears from this same statement that there were accounts audited by the previous board and outstanding—

December 3, 1906 \$ 7,822.33

There have also been audited by this board for expenses incurred prior to their entrance into office 4,242.55

To which should be added a contract for the Lawrence Bridge, made by previous board, calling for payment of 3,372.00

Total paid for debts of

former administration \$15,434.88 From which, however, should be deducted balance in hands of treasurer at beginning of our administration 4,883.43 Leaving instead of a large fund a legacy of debts

amounting to \$10,553.45 We respectfully refer you to the records which the chairman, or register of deeds, will cheerfully exhibit to any interested citizen. We say these things not with any desire to open up old matters, but in justice to ourselves.

There is also a matter in connection with the Lawrence Bridge, which will show that we have not wasted the people's money. This contract was let to a bridge company, September, 1906, at the price of \$3,372.00. They not having complied with their contract, the board took the matter up and succeeded in getting a bid from the same company for this bridge, according to the same plans and specifications for the sum of \$3,000.00, and by making some few changes, re-let the contract at \$2,825, thereby effecting a saving of \$547.00 on one bridge at the hands of the very company to which the contract was first let.

A saving equally as great was also made in the cases of the Powell and Boyce bridges.

At one time we were criticised for selling certain second mortgage bonds of the Raleigh and Pamlico Sound Railway Company, held by Raleigh township at the price of 75. The bonds are now worthless and Raleigh township saved \$26,038.53

Mark's Creek township saved 8,000.00 St. Matthew's township saved 5,000.00 No criticism is heard of late.

The taxes, which these bonds carried, have also been removed in Mark's Creek and St. Matthew's township, and each has a fund in bank to its credit, the first \$1,138.93, and the second \$673.13.

In Raleigh township this tax is reduced to one cent (1) on the \$100 and the sinking fund has to its credit \$30,778.32.

We know that we have been represented as being connected with the road board, and misrepresentations made as to the facts. We desire to state that we are in nowise responsible for or connected with this board, we unanimously opposed its creation, proof of which we will furnish any one on request; we have never been and are not now, in favor of the act, but favor its abolishment. We have, however, done all we could to make its administration a success, borrowing money for it, and paying for two steel bridges across Neuse river, the burden of which we could have shifted upon it. We did this because the people were entitled to all we could do to help in the way of good roads. We have also borrowed money for the Board of Education in order to tide them over an emergency.

We think that it is well known that great improvements have taken place in the affairs at the County Home.

In spite of serious decreases in our revenue, for which we are in no manner responsible, we have reduced taxes in Raleigh, St. Matthew's and Mark's Creek townships, and after paying the debts of a former administration, amounting to \$10,553.45 and for two steel bridges costing \$5,310.49, had on hand June 1st, 1908, \$5,035.39.

Since June 1st we have found it necessary to borrow \$5,000.00 to cover the necessary expenses during the summer, when no taxes are coming in. This debt will be easily taken care of. All of which we submit for your consideration.

Did You Ever Investigate?

The Washerwoman's Way? Were you to visit the home of some of the washwomen and see the course of filthy water your garments are put through you would not wear them. Not so here. Every single article of apparel is washed by us in the purest filtered water and the best of soaps used. Tainted water and cheap soaps not only stretch the garments, but cause them to rot.
