

NEW RECORDS WILL BE MADE

All Speed Records for Automobiles are Expected to Be Broken

RACE BEGINS TONIGHT

Twenty-four Hour Race Starts Tonight at Brighton Beach—Interest of Automobileists in Outcome of Present Race is Intense and Event Promises to be Most Exciting and Best Attended in Automobile Circles for the Year—A Number of Matches.

(By Leased Wire to The Times)
New York, Oct. 2—All the speed records for twenty-four hour automobile races are expected to go by the board in the big contest of this kind which will get under way at Brighton Beach track tonight under the auspices of the Motor Racing Association. Ever since the recent twenty-four hour meet over the same course some weeks ago, in which a number of new marks were set by the swift machines and their expert drivers, the interest of automobileists in the outcome of the present meet has been most intense and the event promises to be one of the best attended and most exciting in automobile circles for the year.

Many of the most famous drivers of this country and Europe will take part in the contest and if the records recently made are not smashed before the racers finish tomorrow night the local automobile world will be vastly disappointed.

One of the drivers who will send a car over the course in the gruelling speed test, whose presence will excite particular interest will be Tod Sloan, who was not so many years ago famed for driving racers of a different kind. He will drive an Allen-Kingston.

The big contest will start this evening at 8 o'clock and will probably not be actually finished until a considerably later hour tomorrow night as Saturday afternoon the big machines will be stopped for a time to allow the track to be overhauled and put in good shape for the final laps. Preceding the twenty-four hour event there will be held this afternoon at the track a number of interesting match races and trials against time.

IN THE SUPREME COURT.

Seven Cases Argued Today—No Cases of Very Much Importance.

The following cases were argued before the supreme court today: Smith vs. Moore, from New Haven, Bellamy, attorney for defendant.

Dunn vs. White, from Lenoir, Cowper, Loftin, Varner and Dawson, attorneys for defendant.

Pollock vs. Dunn, from Lenoir, Cowper, Ormond and Lane, attorneys for plaintiff; Dunn for defendant. (Hoke, J., did not sit on this case.)

Wilson et al vs. Fisher & Bullock, from Pender, Kenan & Herring and R. G. Grady, attorneys for plaintiff.

City of Kinston vs. Loftin et al, from Lenoir, Osmond, attorney for plaintiff, and Shepherd & Shepherd, Wooten & Clark for the defendant.

Paper Box Factory vs. Railway Co., from Lenoir, Wooten & Clark and E. R. Wooten, attorneys for plaintiff.

Albritton vs. Railway Co., from Lenoir, Ormond, attorney for plaintiff.

MANY FINE FREE SHOWS

New and Costly Ones Added Every Day

Races, Air-ship Ascensions, High-Diving, Wire Walking—Entries Increase—Art Exhibit by B. U. W. and Peace Institute—A. & M.'s Big Exhibit.

Preparations for the great state fair are almost complete. Secretary Pogue is literally flooded with applications for floor space and for positions on the "pinks." Today another big Ferris wheel was allowed space by wire—making two of these attractions. W. K. Sibley, of Evansville, Ind., has reserved space by wire for his great museum. A letter from Strobel contains the information that he will be on hand promptly for the opening day.

The greatest of interest is being manifested in the live-stock exhibition. The entries will be larger and better than ever before.

The free attractions will be finer than ever before. The fair association has spent thousands of dollars to get the best.

In the department of arts and carpets the very best exhibit ever seen in the state will be shown. The Baptist University for Women and Peace Institute, of this city, yesterday reserved large space for their art exhibits. A. & M. will have the finest exhibit it has ever had in its history.

The following are a few of the attractions offered: Magnificent competitive county exhibits and individual displays of the products of farm and fireside.

The latest and most improved farm machinery a feature, and fine cattle and horses, prize-winners at Madison Square, will be shown.

Chief Marshal Thomas O'Berry and a brilliant corps of marshals, with the Third Regiment Military Band, will escort the many processions and parades.

Grand children's chorus of 500 voices. Gorgeous floral parade of handsomely decorated floats. Two automobile races, machines going a mile-a-minute, competing for a silver cup.

Marvelous Melville, the king of the flying trapeze, will perform twice daily in the open air; Quincy, the daring diver, dives twice daily from a 90-foot ladder into a shallow tank. The pennant drill and dress parade of the A. & M. College battalion. Alfreno and his children, 7, 8 and 9 years, wonderful high wire artists, will perform daily—two distinct acts. The finest racing, by the fastest horses ever seen in the state.

Strobel's famous airship will fly twice daily. The most marvelous exhibition of the 20th century. This is the ship that circled the dome of the capitol and broke up a session of congress, all the senators rushing out to see the strange sight. A genuine sensation.

Individualism in Dress.

It is a hopeful sign of the times that women are insisting on more distinctive individualism in dress. This is true not only of the general types, but of the smaller details. As noted an authority as Mrs. Osborn, the leading New York costume designer, makes a strong plea for the personal note in dressing. In the September Delineator she says:

"Have the dress built for you and do not accept any feature of it simply because it is fashionable. . . . The stupidity of adopting a thing merely because it originated in Paris is beyond belief to a sane mind. For example the short sleeve. I went over in the early spring to find the Frenchwomen in the act of enveloping their arms for summer in the longest sleeves that one can imagine. I crossed in elbow sleeves and came back in them. Most of the American dress makers rushed back to this country full of the idea that they had found something new. Now certainly there is nothing new in the long sleeve. Pharaoh's daughter probably wore it and it was so imbecile to attempt to force it on the American public right in the teeth of our long hot summer. I disregarded it, much to the consternation of those women who think it heresy to go against the say-so of Paris."

Mrs. W. J. Tally returned to her home at Townsville today after a visit to the city.

Mrs. Herbert E. Norris, who has been visiting her daughters, Meadames A. M. and R. H. Burus, of Roxboro, returned home today.

Two Men Cilled Last Night By Explosion

(Continued from First Page.)
the suffering. The whole town has been greatly excited and demoralized, but is getting back to business this afternoon. Thousands of people came here to see the ruins but most of them were denied admission to the shop yards on account of the danger from falling timbers.

High School Warming Tonight.

The High School warming takes place tonight from 8 to 10:30 o'clock. Invitations have been sent to the parents of the children and patrons of the schools and a cordial invitation is extended to the public generally to attend.

Mr. Harper is especially anxious that the parents go over the building and inspect the rooms, furniture, etc. A delightful program will be rendered yet the occasion will be an informal one and any one may feel at liberty to go and come at any time.

Mrs. Zoia Markham returned to her home at Louisburg today after a visit to the city.

Mrs. T. J. Horton and children, Helen and James, returned to their home at Zebulon today after a visit to Mrs. E. G. Horton on Oakwood avenue.

Mrs. C. H. Gattis returned to the city today from a visit to Charlotte.

Miss Fannie Ricks returned to her home in Nashville, N. C. today after a visit to her sister, Mrs. Barkley.

Miss Margaret Horsfield, of Oxford, passed through the city today going to Wilmington.

Mrs. W. L. Branch went to Selma today.

Mary Malone, a negro woman, and her 6-weeks' old infant, were put in jail last night, the mother being charged with assault. It seems that one Will Pool, a negro, is the father of the child, and yesterday she took the baby wrapped up in a blanket and left it at Pool's boarding place. The baby was promptly returned to Mary, who violently assaulted the messenger who returned the basket and contents.

ARE DISPLEASED WITH HITCHCOCK

President and Some of His Advisers Want Conference With Chairman

CONDITION NOT GOOD

President Old Campaigner to New York to See What is the Matter and as Result Mr. Hitchcock Has Been Summoned to Washington—Will Have Conference With Mr. Roosevelt Friday or Saturday—Campaign Headquarters Said to be in Thoroughly Disorganized Condition.

(By Leased Wire to The Times)
Washington, Oct. 2—That the president and some of his closest advisers among the older politicians are displeased with the manner in which the campaign is now being conducted by Chairman Hitchcock and that the chairman is to come to Washington later in the week to explain to President Roosevelt why the reputed friction exists between the national committee and the republican congressional committee was learned today from an authority in close touch with the administration. It is said the president within the past week has sent to New York one of the most conservative and seasoned campaigners in the republican party in order that the veteran might make an analysis of the unsatisfactory conditions complained of by some party leaders as existing there and that the president has now received a report from this envoy that it is by no means as encouraging as it might be.

Closely following this report comes the announcement that Chairman Hitchcock is expected to arrive in Washington tomorrow or next day for a conference with Mr. Roosevelt, who, it is tacitly agreed, has assumed, with the sanction of a number of the elder republican leaders, a more or less general supervision over the campaign. That a number of those high in republican councils have had much criticisms to make of late as to the apparent disorganization existing in campaign headquarters is well known. It has been reported that the chairman is inaccessible, that in his absence the office force wears an air of general uncertainty as to what to do or how to do it, that information relative to what is really being done has been called for and not forthcoming and that in short the present methods employed at republican headquarters are entirely at variance with all precedent as established by the seasoned campaigners who have brought the party through to victory in years past.

A RICH EXHIBITION.

Will be That of Alaska at the Seattle Exhibition Next Year.

Juneau, Alaska, Oct. 2—The richest exhibition ever placed on show in any show ever held will be that of Alaska in the Alaska-Yukon-Pacific exposition next year in Seattle. From Alaska will come costly nuggets remarkable for their size, just fresh from the lands of the frozen north, and in addition there will be large deposits of gold dust and quartz, rich with the golden mineral.

The Pioneer Mining Company will exhibit three nuggets, one of these being the largest ever found in Alaska. The three are valued at \$8,000. The Nome jewelers will make up a lot of nugget jewelry for an exhibit. Among the Alaskan exhibits will be 350 rubies from the Feather River. These jewels are pronounced perfect. There will be abundant display of "dust", and in addition to those there will be samples of all vegetables and fine timber to be found in Alaska. Special collectors are at work at present in various portions of Alaska. From Nome will come \$40,000 worth of gold bricks—pure gold, and not the bunco kind.

AMOUNT OF COTTON GINNED TO SEPTEMBER 25.

Washington, Oct. 2—The Census Bureau in a report issued this morning places the amount of cotton ginned to September 25 from crop of 1908, counting round bales as half bales, at 2,582,000 against 1,569,977 bales on same date in 1907 and 2,057,283 in 1906 and 2,355,716 bales in 1905.

Storm Warning Issued.

(By Leased Wire to The Times)
Washington, Oct. 2—The following storm warning was issued by the weather bureau this morning: "Hurricane warning has been changed to high storm warning at 11 a. m. on the North Carolina and Virginia coasts. The tropical storm is central, some distance off the north Florida coast, moving northeastward. It will be attended by dangerous gales at sea."

Acid and Alkali In the Stomach

Digests The Food Naturally If in Right Proportion; If Not Then Dyspepsia.

Acid and alkali make up the liquid known as gastric juice, which digests your food. If through abuse of the stomach, or weakness of blood or through scores of other causes this gastric juice is not made up correctly of acid and alkali, your stomach cannot digest food.

Such a stomach then acts as a pit where the food lies, ferments, decays, is thrown off at last, either into the intestines or is vomited from the system. If thrown into the intestines a large proportion of it is taken up and passed into the blood, for the intestines are covered on the inside surfaces with millions of little mouths which are placed there to suck up nourishment for the blood.

You may readily see that if instead of good rich nourishment, there is vile poisonous fermented bile and acid, these same little mouths suck some of it by necessity and pass it into the blood. The blood in turn throws it off and the system is immediately placed in an imperfect state.

The blood is weakened, the tissues lose strength, the skin becomes diseased and man in general suffers in a score of places. Then again the blood furnishes gastric juice to the stomach, for when the gastric juice is not needed for digestive purposes it goes back to the blood. When food comes into the stomach the nerves along the Allmentary Canal and in the mouth signal the brain for help and the blood immediately furnishes sufficient gastric juice to do the work well and quickly.

Stuart's Dyspepsia Tablets go into the stomach, balance the gastric juices, digest the food, are taken up by the blood, purifies it, and when the food comes again to the stomach a natural gastric juice of right proportion greets it and does its work perfectly. After a time these little tablets restore Nature, build up the gastric juice and there is no longer dyspepsia.

Every druggist carries them in stock, price 50c; every druggist and 40,000 physicians will attest their word to the merit of these tablets. Buy a box now and relieve your stomach at once, or send us your name and address today and we will send you immediately by mail a sample package free. Address F. A. Stuart Co., 150 Stuart Bldg, Marshall, Mich.

For Strength

The Supreme Court Says
in a recent decision about female labor: "The two sexes differ, in structure of body, in the functions to be performed by each, in the amount of physical strength, in the capacity for long-continued labor, etc."
It follows that female weakness, due to these differences in body structure and functions, requires some certain medicine to hit the right spot and that Cardui, the medicine for women, is more likely to be the right thing for women to take, when sick, than a medicine recommended for the two sexes alike.
Try Cardui, for female pain, irregularity, weakness, or misery. It is a specific female remedy, especially recommended for the diseases peculiar to the female sex, a medicine that, in the past 50 years, has benefited over a million—**WOMEN.**
Try Cardui. Sold everywhere.

VALUABLE BOOK FREE
Write for 64-page illustrated Book, "How Treatment for Women," describing symptoms of Female Diseases and giving valuable hints on health, hygiene, diet, medicine, etc., for women. Sent free, postpaid. Address: Ladies Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.
