

TODAY'S MARKETS BY WIRE. Stocks, Cotton, Grain and Provisions.

New York Stock. (By Leased Wire to The Times) New York, Oct. 2.—There was a decided improvement in the stock market conditions at the opening this morning, many issues being in good demand and a number of stocks, after early firmness, became firmer. The feature of trading was the strength in Canadian Pacific preferred, which opened 3/4 higher, at 63 1/2, and moved up 3 points, to 66 1/2. This property is controlled by the Reid-Moore party, and its sharp advance was attributed to manipulation by these operators. At the same time Rock Island issues, controlled also by the D. G. Reid and Judge Moore, were lifted sharply. After hesitation the general market moved up on buying from several sources.

THE TIMES' DAILY FINANCIAL STORY (By T. C. SHOTWELL.)

New York, Oct. 2.—Rock Island stock and bonds were the strong features in a dull but firm stock market during the first half hour of trading today. The four per cent bonds advanced 2 points while the five rose 1 1/2 points. Although trading in the preferred stock was not excited it rose nearly 1 point. The common advanced a small fraction. Strength of these securities was due to manipulation by that group of reckless speculators who were recently responsible for the activity in these issues. American Car preferred, which is also controlled by these same people, was active and advanced three points in the first half hour of trading.

Reading, Union Pacific, Southern Pacific—in fact, all the standard railroad shares—were firm around the closing figures of last night. The Copper stocks, however, showed evidence of weakness. Amalgamated declined 1/2, while Smelters lost 1 point. The steel shares were also fractionally lower. On the curb market trading was extremely dull with the Cobalt issues the center of what little business was transacted. The report of the Census Bureau on the amount of cotton ginned to September 25 had no effect on the cotton market and options opened practically unchanged. In London trading in American stocks was almost stagnant.
