

HUMORS IN THE BLOOD

When the blood is pure and healthy the skin will be soft, smooth and free from all eruptions or disease, but when the circulation becomes infected with any unhealthy humor the effect is shown by eruptions, pimples, boils, or some more definitely marked skin disorder, such as Eczema, Acne, Tetter, Psoriasis, Salt Rheum, etc.

Humors get into the blood, usually because of an inactive or sluggish condition of those members whose duty it is to collect and carry off the waste matter and refuse of the system. This unhealthy matter is left to sour and ferment and be absorbed into the blood, and soon the circulation becomes filled with an acrid, irritating humor.

The blood then, instead of performing its natural duty of nourishing the skin, regulating its temperature and preserving its uniform softness, pliability and healthfulness, irritates and diseases the delicate tissues and fibers around the pores and glands and produces some of the various forms of skin eruption or disease.

The cause of all skin affections can be traced to some kind of humor in the blood. Healthy cuticles are only possible where the circulation is pure; and therefore the cure of any skin disease can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can be only palliative and soothing.

S. S. S. cures skin diseases of every character and kind because it purifies and cleanses the blood. It goes down into the circulation and removes the humors that are causing the trouble, builds up the weak, acrid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, and all other skin diseases and affections. S. S. S. is made entirely of roots and herbs, a safe vegetable remedy.

S. S. S. cures Poison Oak, Poison Ivy, Nettle Rash, and all other troubles due to a humor-laden blood. Book on Skin Diseases and any medical advice free to all who write. S. S. S. is for sale at all drug stores. THE SWIFT SPECIFIC CO., ATLANTA, GA.

For six years I was severely troubled with Eczema, located principally on the shin bones, caused by a humor in the blood. The trouble would appear in the form of small yellow blisters, characterized by itching, etc. I tried sarsaparilla, so-called blood purifiers, salves, ointments, lotions and treatment under a local physician, but nothing did me any good. Becoming discouraged, I left off all this treatment, and seeing S. S. S. advertised one day I decided to try it, and after taking it a short while the humor was driven from my blood and I was completely and permanently cured. Some seven months have elapsed since I was cured and have had no indication of a return of the disease. G. C. RECK. 404 Freedom St., Alliance, O.

Man Who Deserts His People For New Friends Causes Commotion. (Special to The Times)

Wadesboro, March 12.—Your correspondent, while walking the streets of the town today, heard a commotion about a block away, and trailing the scent of the noise to its source, found that a band of Assyrians were about to mob another band, and asking the trouble, was told that one of their band on coming to this country, had deserted them and since had always tried his best to hinder them in their trades, and one of their band had said something to him and he did not understand it, but one of his friends, a white man, had told him that he had called him a fighting word and they went together, and the scrap concluded in sending Mose Abernathy to the doctor with several minor bruises and cuts, and John Nash took leg bail.

Abernathy was the one who accosted Nash about his ways, and also the one who ended in the doctor shop.

It seems that Nash joined the lower class of white people, and when the others wanted to go with these they were not allowed, and they accused Nash of telling the whites things that were not true. Mr. Joe Gulleuge and Pearl Martin have cast their fortune in the state of Oklahoma, leaving here Monday for that purpose.

Special Tax Election. Wilmington, March 13.—Although the County Board of Education has devised a means of using the revenues accruing since January to the credit of the fund, so that the city schools will be continued for the full term of eight months, the board is now confronted with the fact that a special tax election must be held between now and the fall term in order to provide for the continuance of the schools after that time.

Siler City on the Boom. Siler City, March 13.—The work of paving and macadamizing the streets and sidewalks of our town, which was discontinued during the winter months on account of the exceedingly inclement weather, will be resumed in a few days, and the work will be pushed to completion. With paved sidewalks and macadamized streets Siler City will rival any of the smaller towns of the State. There is considerable talk about installing water works and an electric lighting plant, but as yet no definite steps have been taken. It is safe to say, however, that it will not be very long before the old town will continue her progressive movement by installing water works and electric lights.

Date of Meeting Changed. The department of agriculture was informed by wire this morning that the time of meeting of the Catawba Dairy and Live-stock Association had been changed from April 6 to April 9.

School Children Clean Streets. Charlotte, N. C., March 13.—Old Sol had scarcely peeped up over the eastern horizon yesterday morning when between two and three thousand school boys and girls in every street and in every alleyway inside the incorporate limits of the city were working like bees in summer time gathering up piles of trash, tin cans, old shoes, loose pieces of paper, sticks, bricks, bones from former breakfasts, bits of broken glass, old medicine bottles, fractured crockery-ware and every imaginable thing that detracts from the neat appearance of a front or back yard.

Horne Remanded to Jail. Wadesboro, N. C., March 13.—Although he claims that he was not shooting at Fairley Moore, Hugh Horne was arrested yesterday afternoon and placed in jail here last night. The officers expected trouble when they attempted to make the arrest, and they secured a posse of Horne's friends to accompany them to his home. But to the surprise of all, Horne made no resistance whatever. On being taken before Justice Baucum, Horne was remanded to jail to await the result of Moore's injuries.

Progressive Greenville. Greenville, N. C., March 13.—Greenville is to have, at an early date, a municipal building, which will contain offices for the mayor, other city officials and quarters for the fire department. This was decided upon
