> New York Cotton Letter. (By W. B. Hibbs & Co.)

New York, March 29-The market advanced six points further on the old crop and four on the new this morning from Saturday's prices on further covering of shorts and more building by some of the cdique brokers. Liverpool made a full response to our advance of Saturday and this, together with the strength in the stock market and further advances in security values and continued abundance of easy and cheap money were all pointed to as arguments suggesting higher prices for cotton in sympathy. March went to 9.53, May 9.48, July 9.38, October, 9.25, December 9.08. As there was no improvement to be noted in the cloth and yarn markets in the demand for spot cotton and present prices show a recovery of 20 points of \$1 per bale over the low level reached last Tuesday there was too much profit-taking on the rise and selling by spot interests and southern operators for the market to absorb and carry the improvement forward.
