New York Stock Market. New York, March 30 .- Moderate ressions were in order in a majority of stocks traded in during the first uffeen minutes, but the reactionary tendency was considered natural following the sharp advances of the two preceding days. Amalgamated Copper fraders, however, the reaction theory was one of the heaviest features, declining % and declines of small fractions were noted in Smelting, Union to 9.55; August 9.40 bid; October 9.28 Pacific, Pennsylvania and other of the Pacific, Fennsylvania and industrial 9.21 to 9.22. shares. New York Central after opening a shade higher at 131 dropped ove one point but recovered part of thi loss quickly. Atchison was strong ranging % higher, with room genera ly talking of possibility of an increas in dividend rate.

THE TIMES' DAILY

FINANCIAL STORY

(By T. C. SHOTWELL)

New York, March 30.-Eric was the strong feature of the early trading in Wall street today. Its strength was conspicuous in view of the fact that all other shares were declining fractionally when it commenced its upward movement of one point. The first pre ferred advanced nearly two points and the preferred a point. The strength of the shares was due to the company's statement of earnings which showed net increase for February of \$758,958. The market opened irregular with fractional gains and losses. At the end of the first minutes of trading. Profit taking developed throughout the list, causing declines of an aver of half a

Specialties were irregular, Consolidated Gas opened with a gain of one quarter of a point but immediately sold off %. Distillers advanced % National Lead was steady around 82%.

Imposition of a fine of \$10,000 on the New York Central for rebating caused the stock market to become heavy and decline of over a point in the early trading. Atchison showed strength and ad-

vanced 1/2 a point to 106, which is a new high record for this movement. In London American shares were in egular with Atchison, the Harriman hares and New York Central the most

On the New York curb market the copper shares were under the influence of profit taking, which resulted in fractional declines in the early trading. In the silver group Nipissing, Kerr Lake and La Rose were the steady issues. The investment demands for Goldfield Consolidated continued and the stock was a fraction higher.

New York Cotton Letter. (By.W. B. Hibbs & Co.)

New York, March 30 .- The rise in the stock market the last three days is regarded in the cotton trades as reflecting the long distance view of the blg interests with regard to the prospects of the general business situation throughout the country. This together with the elimination of the Balkan trouble relieving the European political situation of the disturbing influence that factor has been having on the European trade situation is expected to develop in conjunction with the easier money market conditions now prevailing a better demand for cloths and yarns from the continent. These wo factors developing since the close of the week the rally in cotton of about 20 to 25 points from last week's New York, March 29.-Cotton port low level is regarded as justified by eccipts were as follows:

> Efforts made today by certain inter ests to advance prices still further failed to secure much of the following as there was no outside buying and houses and traders operating on the long side had taken about all the cotton they cared to under existing con-

We believe general business is destined to broaden very materially as the summer season develops and cotton will sell higher on it but we would only advise purchases of July, August and Cetober at present prices to those who are willing to operate for long pull and can have patience to hold on and average with further purchases on the development of further breaks in the price.

Price advanced three to four points in the early trading but soon lost it with the market ruling dull and barely rteady at last night's closing quota tions during most of the afternoon.
