SUMMARY OF THE SENATE CHANGES IN TARIFF BILL

Senator Aldrich Gives Brief Summary of the Senate Changes in Bill

MANY REDUCTIONS MADE

Senate Finance Committee Makes Many Changes in the House Tariff Bill, the Number of Reductions Being About Three Times the Number of Increases—Many Articles of Common Use Taken From Dutiable List and Placed on the Free List—Tobacco Schedules Remain Unchanged—Hosiery and Glove Schedules Changed to Dingley Rate.

(By Leased Wire to The Times) Washington, April 12—Senator Aldrich, when requested to make a brief summary of the general character of the changes proposed by the senate finance committee to the house tariff bill, furnished the following statement:

"In the main, the rates in the tariff bill as reported from the senate finance committee are lower than those in the bill as it passed the house, the actual number of reductions being about three times the number of increases. Such increases as have been made have been largely rendered necessary to preserve the symmetry of the schedules. A considerable number of articles in common use have been taken from the dutiable list of the house bill and restored to the free list. The great mass of the rates reported are below those of existing law. In schedule A (the chemical schedule) the principal changes are in the nature of reductions below the house bill. One important change is in putting distilled and expressed oils upon the free list.

Schedule D (wood and manufacturer of wood.) The senate has taken the house rate of \$1 a thousand on rough lumber, a reduction of a dollar from the Dingley law, and has retained the house rates on manufactures of wools, nearly all showing reductions from the Dingley tariff. The only important change in the schedule made by the senate committee was the restoration of imported hardwoods to the free list. The senate committee left the sugar schedule as it came from the house, but reduced the house rate on sugared biscuits and wafers from 50 to 20 per cent.

The tobacco schedule remains unchanged.

The agricultural schedule, including meat products, remains practically unchanged from existing law, but where reductions were made by the house the senate committee has restored the Dingley rates, in response to the demands of farmers throughout the country and of the representatives of the great agricultural interests. Fish remains as it came from the house.

The senate has returned cocoa to the free list, believing that an article of such general consumption, both as a beverage and in all forms of chocolate should no more be made dutiable than tea or coffee. The committee felt that if it was necessary to increase revenue it could be done better on luxuries than on the every day necessities of life, and have pursued this policy in the construction of this bill. The senate committee has applied the same principle to spices, and has restored them to the free list, where they have always been. Again, on the same principle, the senate committee has increased the rates of spirits and wines 15 per cent throughout, which, it is estimated, will yield an additional revenue of \$3,000,000, most of which will come from the increased duty on champagne.

In the cotton schedule there has been an extension of the specific rates to cover a class of fancy goods and novelties which are covered in the existing law by ad valorem rates. The resulting ad valorem rates have not been increased.

The average rates on the cotton schedule, other than the rates on fancies and novelties, remain the same. There is one exception to this statement and that is the reduction from the house bill on fashioned hosiery, where the committee has recommended the restoration of the rates of the existing law. The committee contemplates a still further substitution of specific for ad valorem rates in other paragraphs of the bill.

Raw flax has been restored by the senate committee to the dutiable list. (Continued on Page Two.)

PETITION HAD DESIRED EFFECT IN THE SENATE

Senate Finance Committee Restores Dingley Rates On Leather, Gloves, Hosiery

COAL MEN SATISFIED

Committee Met at 10 O'clock Today. Democratic Members Present and Were Handed Copy of Payne Tariff Bill, Containing Amendments Prepared by Majority Members of Finance Committee—Several Hundred Amendments, Consisting Mostly of Reduction of Duties Contained in Payne Bill as Passed by the House.

(By Leased Wire to The Times) Washington, April 12—The senate finance committee met at 10 o'clock this morning. The democratic members were present and were handed a copy of the Payne tariff bill containing the amendments prepared by the majority members of the finance committee which was received from the public printer this morning. There are several hundred amendments, consisting mostly in a reduction of the duties contained in the Payne bill as passed by the house. One of the principle changes made by the senate is the restoration of the Dingley rates on leather, gloves and hosiery. This schedule of the Payne bill aroused the women of the country and resulted in the presentation to congress of a petition of protest signed by 250,000 adult citizens of Illinois. The protest had the desired effect in the senate. The coal men get what they want, the finance committee putting a duty of 40 cents a ton on that article, and 15 cents a ton on culm or slack and no reciprocity involving free coal. This was a concession to the West Virginia and western senators. Some of the more important items such as hides, wood pulp, steel rails and crude petroleum, will be left to the senate. That is, the committee will make no recommendation, but will submit the subjects to the senate to decide whether or not the house action shall stand.

Killed in Runaway Accident. (By Leased Wire to The Times) Cleveland, O., April 12—Mrs. Mary Langenau, 59 years old, wife of W. C. Langenau, a wealthy manufacturer, and mother-in-law of Robert E. McKisson, former mayor of Cleveland, was killed in a runaway accident here today. W. C. Langenau, a grandchild, Gladys Langenau, and James Groves, a coachman, were injured in the smashup, but not seriously.

Mrs. Castro Kept Moving. (By Leased Wire to The Times) Washington, April 12—A dispatch at the state department this morning announces that the steamer Guadalupe, with Senora Castro and party on board, arrived at LaGuayra yesterday. The party was not permitted to land or communicate with the shore, nor was the steamer allowed to dock. She therefore proceeded to her next stopping place, Savanilla, Columbia.

Better Salaries Restored. (By Leased Wire to The Times) New Haven, Conn., April 12—It is given out on high authority that the salaries of the New Haven Railroad employees, which were cut 5 and 10 per cent a year ago, would be restored in May. Salaries between \$1,000 and \$2,000 were cut 5 per cent and those above \$2,000, 10 per cent. President Mellen's salary was cut \$2,000.

Destructive Forest Fire. (By Leased Wire to The Times) Plainfield, Conn., April 12—One of the worst forest fires that was ever known in this part of the state has been burning in woods around here during the past two days. Nearly 6,000,000 feet of cut lumber was destroyed in one place and 1,200 acres of timber land burned over east of Phoenixville.

Modjeska's Estate. (By Leased Wire to The Times) Los Angeles, Cal., April 12—Mme. Modjeska left an estate worth about \$120,000. Ralph Modjeska, her son, a Chicago civil engineer, and Count Bosenta are the heirs.

LEGISLATURE OF TEXAS HOLDS A SUNDAY SESSION

Governor Campbell, in Official Communication, Scores the Lobbyists

MANY MEMBERS ANGRY

Extra Session of the Texas Legislature Closed Last Night After An All-day Sunday Session—Governor Campbell Stirs Up Many of the Members Because of Red Hot Official Communication—Says the Capitol Has Been Overrun With Lobbyists, Trying to Defeat the Will of the People—Says Regular Session Was of Little Value, Not a Single Platform Demand Being Enacted Into Law.

(By Leased Wire to The Times) Austin, Texas, April 12—The legislature held a Sunday session yesterday, the extra session coming to a close last night.

Governor Campbell aroused ill will in many members of the house and senate by an official communication which he submitted to the respective bodies. He said in part:

"The earings of the lobbyists may be echoed in our legislative halls in criticism and denunciation of the executive, but no man has yet denied that I have acted within my duty and with fidelity to the masses of the people.

"In the contest for honest legislation and good government, I have never asked for quarter and will extend none.

"The most famous lobby that ever tramped upon the will of the people has swarmed about this capitol from the beginning of your regular session until this hour. The farmer is busy in his field. He cannot come to the capitol to protect his interests. He relies upon you and me.

"I have interpreted the democratic platform without the aid of the liquor lobby, the railroad lobby or the commercial secretaries lobby, which last mentioned instrument is the nucleus around which is gathered every selfish interest now represented at the capitol.

"Your regular session of sixty days was of little value to the people. Not a single platform demand was enacted into law, one was defeated and you adjourned without even considering the appropriation bill, whereupon the lobby applauded, and it is not strange that you received through the newspapers the felicitations of the chairman of the republican executive committee of this state. Probably the most arrogant and the most formidable lobby which is made up of combined selfish interests that ever assembled at the capitol, gathered here upon the assembling of this legislature to pester you and to hinder and defeat the popular will. Just what they have done I do not know, but that they are still hovering about the capitol, I do know.

"If the democratic party is to be ignored and discredited and if the people are to be betrayed, I am determined in so far as I am able, to fix the responsibility."

GREAT ICE BLOCKS GORGE NIAGARA

Buffalo, N. Y., April 12—Twice this year and for the second time since the white man has come to the banks of the Niagara, the voice of the river has been mute. The first time was late in February, when, following severe northerly blow, the falls ran dry, and now, following a severe southwester, the flood is frozen solidly from bank to bank. The ice has caused a tremendous dam. The high flood level recorded in sixty years is 2 feet above the normal. This time the river reached 40 feet above normal.

The tracks of the great gorge route are flooded and along the lower river, fishing shacks, boat houses and the pumping stations, private landings and piers of both the International railway and the Niagara Navigation Company at Lewiston and Queenston are buried beneath thousands of tons of ice. Conservative estimates place the damage at \$1,000,000.

Mrs. Georgia Allyn's Mother.

Mrs. Frank Allyn, mother of Mrs. Georgia Sampson, who has sat devotedly at her daughter's side in the court room throughout the latter's trial as the slayer of her husband, nephew of the late Rear Admiral, at Lyons, N. Y.

HARRIMAN AND S. A. L. DEATH OF W. S. PRIMROSE

Harriman Officials Are in Tampa

Report That Harriman is After the S. A. L.—Thought That Party is Inspecting the Seaboard Properties at Southern Port.

Tampa, Fla., April 12—A party of high officials of the Harriman lines arrived here Saturday night on E. H. Harriman's yacht, the Sultana, from Havana and New Orleans. They are making a thorough inspection of Tampa as a terminal and its harbor facilities. The visit is regarded as having connection with reports that Harriman contemplates acquiring the Seaboard Air Line.

In the party are Julius Schmitt, director of maintenance and operation of the Union and Southern Pacific, Samuel M. Felton, director of the Mexican Central; William Hood of San Francisco, chief engineer of the Harriman lines, and C. W. Jungen, manager of the Southern Pacific steamship line. They declined to affirm or deny the rumor that Mr. Harriman will acquire the Seaboard and use the million-dollar docks just completed for a port of entry for the Southern Pacific Steamship Company.

GERMANY HISSES ENGLISH PLAY

Berlin, April 12—"An Englishman's Home." Du Mauriers play, dealing with the possible invasion by some continental power, generally believed to represent Germany, was presented at the Neuse Theatre here last night. It is very improbable that it will be seen again in Germany.

The audience received the first act complacently, but afterwards hissed, laughed stamped and jeered. The last two acts were given in what was practically dumb show.

The hostility, it seems, arose not against Englishmen or things English, but from contempt at the absurdity of the play, which was made much more farcical than the original.

Marathon Race. Providence, R. I., April 12—Henri St. Yves, the great French Marathon runner, and Martin Maloney met in a 20-mile race at Melrose park this afternoon.

Raleigh Loses One of Her Best Citizens

Mr. Primrose Has Been Faithful to the Interests of His City in All Things—Prominent in Church, Business and Educational Circles, Funeral This Afternoon.

Mr. William Stuart Primrose, one of Raleigh's best and noblest citizens died yesterday morning. Mr. Primrose was born and reared in this city and from the earliest days of his young manhood he has stood for the best interests of his city.

The people of Raleigh, irrespective of class or condition, recognized his high worth, his disinterested patriotism, his fine Christian character, and his unselfish devotion to the best interests of his city. He was the very highest type of citizen, a type that Raleigh can ill afford to lose.

Mr. Primrose was born November 12, 1848. He early united with the Presbyterian church of this city and has been one of its most faithful members. Thirty-nine years ago, at the age of 21, he was made an elder of the Presbyterian church, and has held that high position with ever-increasing usefulness since. Up to the time of his death he was doubtless the strongest and most influential member of his church.

In the business world he was first and foremost. No man had a reputation for a higher honesty or a more unquestioned integrity. He was at one time president of the North Carolina Home Insurance Company, a great home institution that owes much of its strength and reputation to the business genius of W. S. Primrose. In 1884 he was appointed president of the North Carolina State Exposition, a position he filled with credit to himself and his state. For many years he was director of the cemetery association of Raleigh. The positions of trust which he filled in the business world are too numerous to mention.

In educational circles he was prominent. He was a director and one of the first promoters of the North Carolina Agricultural and Mechanical College. He looked into the future with prophetic eye and saw the needs of the state and with the view of satisfying those needs he set himself to the task of arousing the state to a realization of them. The foundations of the great Agricultural and Mechanical College of today he helped to lay, making them strong and firm, able to bear the tremendous (Continued on Page Two.)

MORMONISM IS GROWING MENACE IN THIS COUNTRY

Mormonism, Christianity and Morality Cannot Exist Together, Says Lecturer

RAP AT SENATOR SMOOT

Hans P. Freece, of Columbia University, the Son of Mormon Parents, Lectures on "The Inside of Mormonism"—Says Mormonism and Christianity, Together With Morality and the Laws of the Country, Cannot Exist Together—Raps Senator Smoot for His Interference in Immigration Matters—Will Not Be Long Before Mormonism Occupies Balance of Power in This Country.

(By Leased Wire to The Times) Baltimore, Md., April 12—Declaring that Mormonism and Christianity, together with morality and the laws of the country cannot exist together, Hans P. Freece, of Columbia University, talked interestingly yesterday on "The Inside of Mormonism" at the Young Men's Christian Association's meeting.

Mr. Freece is the son of parents who were formerly Mormons. Mr. Freece said in part:

"Not a long time ago, on the steamship Republic, there went to Boston a party of converted Mormons, in which were about fifty girls. They said they had been converted to Mormonism. They were ordered deported."

Here Mr. Freece rapped Senator Smoot, saying: "But Senator Smoot, the Mormon apostle, succeeded in getting twenty of the girls released from the order. He went to Boston, and, after a talk with the commissioner of immigration at that port, the others were taken ashore in a van, and sent to Utah. There are 800 Mormons, most of them girls, coming into Boston every year, not including those who enter at other ports.

"Mr. Smoot says that the Mormons are not teaching polygamy. If the apostles are not, then who is? To think that we let a man like Smoot sit in congress and help make our laws! One of the strongholds of the Mormon church is in Washington, where Mr. Smoot has his seat in the senate. That's the only church in the country that has such representation.

"If Mormonism increases as it has been doing it will not be long before it will occupy the balance of power in a large part of our country."

CHILD ENCOUNTERS BURGLAR.

Kneel to Pray and Her Knee Struck Hand of Burglar.

(By Leased Wire to The Times) Pittsburg, Pa., April 12—When 12-year-old Miriam Savers knelt by the bed in her dark sleeping room to pray last night her knee rested on something warm, and she discovered that was resting on the hand of a burglar who was hiding under the bed and who had presumably fallen asleep. Miriam was sorely frightened, but she did not stop her devotion and, in fact, prayed so loud that her mother came into the room, whereupon the little girl rolled over on the floor screaming that there was a burglar under the bed. The man jumped from the window before help could be summoned.

MACK'S NEW PAPER.

Will be Published in the Interest of Democracy.

(By Leased Wire to The Times) Buffalo, N. Y., April 10—Norman E. Mack, chairman of the democratic national committee, announces that he has completed arrangements for the publication of a magazine to be known as the National Monthly, and to be devoted to the interests of the democratic party of the nation.

Mr. Mack says his magazine will not conflict in any way with Bryan's Commoner, and it would be run along different lines.

Indictment Against Haskell Quashed.

(By Leased Wire to The Times) Tulsa, Okla., April 12—Judge Marshall today quashed indictments against Governor Haskell and others in the land fraud cases. The ground for quashing was the last of the three reasons set forth in the motion by counsel for the defense, namely: illegal size of the grand jury which consisted of 20 men drawn under the general federal statute of grand juries applicable in federal courts of full jurisdiction.
