

TODAY'S MARKETS BY WIRE.

Stocks, Cotton, Grain and Provisions.

New York Stocks. (By Leased Wire to The Times) New York, April 30—There was a demonstration of decided strength in the stock market at the opening and in early trading, and first prices generally showed substantial gains in addition to those established yesterday, with room joining in the buying of both common and preferred stocks, using the completion of the bonds sale as a bull card on these and other Morgan securities. San Francisco second preferred crossed 46, showing a gain of over one point. The traction stocks shared in the general improvement and Brooklyn Transit, Union Pacific and Southern Pacific showed advances.

New York Cotton Market. (By Leased Wire to The Times) New York, April 30—The market had an easy opening this morning, prices being one point to four points higher. May was the only month to sell below yesterday's close. The decline was due to uncertainty regarding the reception of notices. Immediately after the call the whole list became firmer on covering and bull support. It was estimated that notices for about 19,000 to 15,000 bales were issued.

Grain Market. New York, April 30—News on grain was scarce this morning. On account of the storm interrupting wire service, the usual private dispatches which generally cut a large figure in the formation of sentiment, were not at hand. Trading therefore was slack. A cable from Liverpool from Broomhall read, "There was a firm undertone at the opening here, offering light and support good." Supplementing the higher cables for wheat was a bullish run of crop news from the northwest, although reports from winter wheat belt were favorable. Prices here opened firmer at an advance of 1/4 and this was increased 1/2 c. on small offerings.

Chicago, opening: Wheat, May, 123 1/2 to 124 1/2; Sept., 104 1/4 to 104 3/4; Dec., 103 1/2 to 103. Mr. Horse Feeder

In placing your order for Feed next month don't forget that a dollar saved in the proper preparing of the Feed for your horse is worth just as much as the one you make by hard licks. Buy your Feed where you please, but for the poor dumb animal's sake, as well as your own financial interest HAVE IT GROUND.

THE TIMES' DAILY FINANCIAL STORY

New York, April 30—Because of the storm that blew down most of the wires leading into New York, business was dull in the stock market today. Most of the selling the last few days has been coming from the west and the action of the market today confirmed the belief that the east was more optimistic in regard to stocks than the west. The west is getting out of the market because of the boom in business and the necessity for using capital in mercantile lines rather than in stocks. An advance averaging a point was seen in the market. Harriman shares were the leaders in London and continued their leadership in Wall street. Union Pacific was up a point in the first hour. Reading also continued strong and the steel shares moved higher. Interborough-Metropolitan stocks touched higher prices than for several weeks, apparent on accumulation by insiders. Rock Island, Aetchison, Erie, and Brooklyn Transit were other strong features.

On the New York curb market silver shares continued the feature as a result of the increasingly strong position of the silver metal market. The price advanced 1-16 of a penny in London, which is equal to 1/4 of a cent in New York. This makes an advance of a full cent this week. Grain and cotton were both higher.

New York Cotton Letter. (By W. B. Hibbs & Co.)

New York, April 30—The market developed further strength from the opening and made a further advance before the end of the forenoon of 8 to 10 points from last night's closing quotations to the previous high record prices reached for the season. This strength was due to a continuance of recent large buying for certain large Wall street and Chicago leading operators and trade interests. They continue bullish chiefly on assertions that the price is cheap compared with all other commodities and in anticipation of a broader trade demand developing later on the poor start the crop is securing in Texas and a large volume of general business. The belief that these features will send the price of cotton to at least the basis of 11 cents is being so widely disseminated the sentiment of outsiders is more inclined to follow the continued bullish activity in the market and therefore most professional operators are going with the current rather than buck the market's tendency.

For these reasons prices are likely to go still higher before present buying movement creates a sufficiently over-bought market to induce heavy profit-taking and fresh bear attacks.

New York Money Market. New York, April 30—Money on call, 1 to 2; time loans, dull; 60 days, 2 1/4; 90 days, 2 1/4 to 2 1/2; six months, 2 1/2 to 3; posted rates sterling exchange, 487 to 488 1/2, with actual business in bankers bills at 487.40 to .45 for demand and 486.20 to .25 for 60 day bills. Prime mercantile paper is quiet and unchanged, at 3 1/2 to 4 per cent, for best names.
