

A LITTLE RED SPOT

Novel Experiment by Which It May be Made to Disappear.

A peculiar feature about poslam, the new skin discovery, is that no one is asked to buy it without first sending to the Emergency Laboratories No. 32 West Twenty-fifth street, New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot so treated in twenty-four hours—a remarkable visual demonstration of its powers.

While poslam has been mentioned principally in connection with the cure of eczema, the most stubborn of skin diseases, it must be remembered that when used for itchy, hives, pimples, blotches, acne, itching feet, scaly scalp, chafing of infants and similar minor skin troubles, its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of poslam is necessary to cure such cases, a special fifty-cent package, usually sufficient, has been placed on sale at the King-Crowell Drug Co. and other leading drug stores in Raleigh and throughout the country.

Peace Day Was Appropriately Observed Here

spent last year for naval and military purposes. Britain, \$245,000,000; Germany, \$233,000,000; the United States, \$370,000,000, an amount ten times our military and naval budget twenty-five years ago. This figure seems all the more appalling when we are reminded that our entire national budget for education for the year 195-06, including national, state and municipal appropriations, was only a little more than \$14,000,000 less than one twenty-fifth our appropriations for war.

2. It contributes safety and stability in the society of nations. When the gold fields of California were being developed individuals found it necessary to arm themselves for protection, and step by step greater protection became necessary. Britain builds three Dreadnoughts, and immediately it becomes necessary for Germany to increase her naval forces.

3. It is the spirit of the 20th century. Today more than ever before the nations are saying we are our brothers keepers. The attitude of the United States toward Cuba is illustrative.

This is only a short account of Mr. Judd's address, which was bright and inspiring. He brought out some new thoughts not touched by the other speakers.

MRS. TAFT NOT GOING ON SOUTHERN TRIP

Washington, May 18—At the white house this morning it was said that Mrs. Taft, who was overcome by a nervous breakdown late yesterday afternoon while on the yacht Mayflower with a party of friends, was resting easily and will be able to resume her social duties in a day or two. Her condition is not serious, it was added, and there is no reason for alarm. Mrs. Taft will not accompany the president to Petersburg, Va., and Charlotte, N. C., tonight. Charley Taft, son of the president and Mrs. Taft, who had his tonsils removed at the Episcopal Eye, Ear and Throat Hospital yesterday, is improving rapidly and will be able to leave the institution it is thought, tomorrow or Thursday.

IMPORTANT MEETING OF CHAMBER OF COMMERCE

There will be a meeting of the Chamber of Commerce tonight in its hall at 8 o'clock. A season full of interest is promised to every one. In addition to hearing the regular report of the secretary, Mr. Leonard Tufts, the millionaire owner of Pinehurst, will be present and will discuss the proposed automobile road from Atlanta to New York. He is making a determined effort to have the proposed highway run through Raleigh and Pinehurst and is securing enthusiastic backing from the most progressive business men of this section. Such a road would mean great things for this part of North Carolina and every business man should turn out tonight and hear the matter discussed.

MAY WHEAT MAKES NEW HIGH RECORD

(By Leased Wire to The Times) Chicago, May 18—May wheat reached \$1.20 today—a new high record for the Pattee deal.

Excitement of the wildest description ruled the pits as frantic shorts bid the price up on themselves in eager efforts to cover trades. May wheat, which closed at \$1.28 1/2 Monday, opened today at \$1.30 and stuck there, while thousands of bushels were being bought and sold. The Patten-Bartlett house was the heaviest seller. The shorts were given many thousands of bushels at the top price. There was heavy trading in the July option with prices 1/4c. higher than Monday's resting spot.

Patten today was noncommittal and the impression was given out that most of his wheat had been sold and that the heavy selling by the firm with which he is connected was done by customers.

WANTED—A SITE.

For Raleigh's New \$125,000 Municipal Building.

The municipal building commission has announced that it will meet Friday night in the office of Col. Chas. E. Johnson, chairman, for the purpose of receiving offers of sites for the new municipal building. The proper location of this great structure is of vital importance to every citizen of Raleigh and every citizen is urged to do all in his power to secure a site suitable for the building. The people of Raleigh should remember that the erection of the new market-house and the sale of the old depends upon the securing of a site for the new building and the beginning of work on it, and leave nothing undone to get the new building under way.

Many weak, nervous women have been restored to health by Foley's Kidney Remedy as it stimulates the kidneys so they will eliminate the waste matter from the blood. Try Cardui and get rid of that headache. It's almost sure to help you. For sale at all druggists.

THE MOUNTAIN SECTION 3 PARDONS GRANTED

Department Send Out List of Farmers

The Department Has Issued a Pamphlet Telling of Hundreds of Farms For Sale—Apple-Growing Section of the State Unsurpassed in the World—Fine Grazing Country.

The state department of agriculture has just prepared an attractive list of farms for sale in the western part of North Carolina. A list descriptive of the eastern part of the state is already out and one telling of the beauties of the piedmont section will soon be issued.

Concerning the mountains the pamphlet says:

"Within this territory lies the highest land east of the Rockies, reaching an elevation of about 7,000 feet above sea level. The climate is delightful in summer; the winters short, with abundance of sunshine. The scenery is unsurpassed. The numerous health and pleasure resorts are patronized by people from all parts of the United States, and a more delightful place of residence could not be found.

"The mountains of North Carolina differ from most others, in that they are generally covered with deep, rich soil and clothed in forest or grass to their very tops. There is much timber, the forests in many places resembling those of Canada. It is a fine grazing country, and the fertile valleys and plateaus are adapted to all grain crops. Many truck crops are also grown for market and domestic use, such as Irish potatoes, sweet potatoes, cabbage, cauliflower, celery, pumpkins, turnips, beets, carrots, beans, squash, etc.; also berries, grapes, plums, pears, cherries, peaches, and apples. The peaches of this section compare favorably with those of California in beauty and surpass them in flavor. This is truly the home of the apple. Apples from western North Carolina have several times taken first prizes in competition with those of the whole United States. This is destined to be the greatest apple-producing section of the entire country. The conditions for fruit growing are ideal—cool climate, abundant sunshine, rich soil and perfect drainage.

"The following is quoted from an article by our late secretary, Mr. T. K. Bruner:

"In an orchard in Haywood county was measured an apple-tree that had a girth of 11 feet 9 inches, and in the same orchard, which had never been cultivated, there were a hundred other trees that were full three feet in diameter of trunk, and all in most luxuriant health. Many northern varieties found in this section are hardly recognizable on account of their great size and beauty."

Two Hundred Persons Homeless.

(By Leased Wire to The Times) New York, May 18—Two hundred persons were made homeless today by a fire that threatened to destroy the town of Keasby, N. J. Six big buildings were destroyed and a number were damaged.

One Application is Turned Down.

D. M. Stephenson, Thomas Brown, and Waverly Mills the Lucky Men. All Pardoned Conditionally—Two on Account of Failing Health—Reasons For Each Pardon.

Governor Kitchin today granted pardons to three convicts. These were D. M. Stephenson, of Guilford county; Thomas Brown, of Rowan county; Waverly Mills, of Granville county.

A pardon was refused to Ernest Ayscue, serving five years for assault. Those pardoned were:

D. M. Stephenson, of Guilford county, convicted at the December term, 1908, of the crime of affray, and sentenced to nine months on public roads. Of this pardon the governor says:

"Prisoner was convicted in three cases; in one he shot at another man with a gun in an affray; another in which in an affray he used metallic knuckles, and the third case, in which he shot at another with a pistol. These offenses show prisoner to be of dangerous character, and his sentence to nine months on the roads was in no way excessive. For five months he has been a good prisoner. On account of ill health he is unable to do any work whatever. One physician says he will not regain his health while in confinement, and that he cannot be properly treated under confinement, and it is detrimental to his physical condition. Another physician says that confinement and labor will most likely completely destroy his health and probably cause death. His disease is chronic.

On account of his physical condition I grant him a pardon, condition on his remaining sober, law abiding and of good behaviour."

Thomas Brown, of Rowan county, convicted of larceny at the August term of court, 1906, and sentenced to 10 years on the roads in granted a conditional pardon. The governor says:

"The prisoner was convicted of stealing \$60 worth of property and was sentenced at August term, 1906, to 10 years on the roads. He faithfully served on the roads for one and a half years when his health gave way and he has been in Rowan jail for 15 months. The county physician says he has a chronic luetic history and marked functional derangements of the heart. He says prisoner has a constant cough and that there is a strong reason to believe he will not survive the expiration of his sentence. Many citizens and the board of commissioners ask for his pardon. The W. C. T. U. of Salisbury is interested in behalf of his pardon. I think this is a proper case for a conditional pardon and therefore pardon prisoner on condition of good behaviour."

Waverly Mills, of Granville county, convicted at the April Term, 1908, of the crime of abandonment, and sentenced to 18 months on the public roads.

The governor's reasons for granting the pardon are:

"This prisoner did not entirely abandon his family, but went off to work and while he sent his family some money he did not send enough to provide for his family, and thus greatly neglected his family. He has served over 12 months on the roads and has been a good prisoner. The judge, the solicitor who prosecuted him, and others, ask for his conditional pardon, and I think this is a proper case for such pardon. I therefore grant him a pardon conditioned on his remaining of good behavior and law-abiding, and that he properly provide for and care for his family."
