CLEARS THE COMPLEXION OVERNIGHT.

Pimples, Rash, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Ever since its discovery, poslam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an overnight application only a small quantity being required to effect a cure. Those who use poslam for these minor skin troubles should immediately secure one of the special 50-cent packages recently adopted to meet such needs. Both the 50-cent package and the regular \$2 jar may be obtained in Raleigh, at the King-Crowell Drug Co., and other leading drug stores.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 32 West Twenty-fifth street. New York City,

HANDLE RODGERS' MILLIONS.

Son-in-law of the Standard Oil Man Will Succeed Mr. Rogers in Wall Street.

(By Leased Wire to The Times) New York, May 25-When the will of H. H. Rogers is read, that testanent's provisions, it was declared today, will clearly indicate that the Standard Oil man's interests of probably \$100,000,000 are to be administered by his son-in-law, Urban H. Broughton, and not by his son, H. H. Rogers, Jr. This disposition of the affairs of the late dominant factor in the Standard Oil Company and in the copper situation in the United States means that Mr. Broughton will be the successor of H. H. Rogers in Wall street and therefore one of the greatest powers in the financial world.

The late Mr. Rogers had the highest regard for his son-in-law. Mr. Broughton was the right hand man in all of his great undertakings and it is to him rather than young Rogers. that he looked for counsel at such times as he thought necessary.

We cannot repeat too often the importance of quality in Men's Clothes. Without quality style is as nothing, for it takes quality to keep the shape permanent, and when a garment loses shape that is the end of it as far as style is concerned.

QUALITY !=

This talk about quality leads us to our well known makers of clothes, for if there is quality anywhere it is to be found in our clothing.
